er will have a small outward cargo.

Victoria Man's Invention

A Canadian patent has just been eccived by Andrew Sheret, plumber, of Victoria, B. C., through the agency of Rowland Brittain, patent attorney, Vancouver, on an improved drain board bracket. This invention has for its object the provision of a means whereby the drain board of an ordinary kitchen sink may be moved of endivise backward on the bracket which supports it, to facilitate the which supports it, to facilitate the aleansing of that end of the sink adaleansing o Ask for Amherst solid leather foot

Winter, fanged and remorseless as winter is in these regions only, had fallen on Siberia with a sort of hungry vengeance, and lengthened the long journey interminably. Cooped up in a convict car, which was divided into some twenty small, badly venti-lated cells, it seems a miracle that we Ober Lucas Offers a Varied Line of Goods to the Public ine-Stricken Countrymen

Though Hastle's fair is a thing of the past, another and better emportance of the past, another and the confined of the past, and the course of construction of the past, and the course of the past, and the course of construction of the past, another and consumption of the past, and the course of construction of the past, and the course of

which success brings, she announced to her husband that SHE, no dress-maker at all, had made the thing right when the professional dressmaker had failed, and wasnt' it smart and clever

CN PAARDEBERG DAY

failed, and wasnt' it smart and clever of her, and all the rest of it.

To which the husband of The Woman Who Sews calmly responded: "Well, my dear, and why shouldn't you? If the dressmaker who botched that gown had received even a tenth of the education or a fraction of the money that has been lavished upon bringing you up, it is a sure and safe bet that she would not be dressmaking for you today; she would be giving orders herself to some other worker. What's the good of a woman's education, anyhow, if it does not teach her to sew?"

The collar is a far more important

point in those separate blouses than the average maker calculated for. In the ready-to-wear productions, even in the most costly, many women of long and graceful necks find the col-lars provided totally inadequate, both by Capt. W. Ridgeway Wilson, au-jutant, acting for Lt.-Col. A. J. Hall, the commanding officer. The men will assemble at the drill hall at 8 o'clock for a very little scoop taken out of the centre back at the neck: the de-sign that presents a straight line at this point will make for an ill-fitting

In fitting the shoulder seams make sure that the part of the seam next the collar is pulled as tight as may be without producing wrinkles or discomfort. If the blouse be loose at this point, not "all the king's horses, nor all the king's men" can make the collar set as it ought to do. The underarm seam must, if it is to follow the newest mode, slope well towards the front instead of toward

on, tuck it with the front arm seam about two or two and a half inches

slightly into the collar or band, which-The following men having been granted their discharge are struck off the strength of the regiment: Gr. A. Reynolds, No. 104; and Acting Corpl. seams must be drawn up a trifle.

So many of the smart separate bod examined will be awarded certificates:
For sergeant, Corpl. T. W. Ross; for corporal, Bomb. W. H. Spofford.

TO CARRY SALMON

Steamer Trafalgar Will Take 2,000

Tons of Salt Fish to Japan

Tons of Salt Fish to Japan

So many of the smart separate bodies paralle so the nature of a jacket that the possession of at least one example of this mode will commend it saying that these are fashioned upon a fitted lining, and it is equally obvious that a silken lining is far and away the best. There is a good orkedo that can be purchased some-Steamer Trafalgar, part laden with redwood from Eureka, Cal., arrived yesterday and proceeded to Vancouver to load 2,000 tons of salt salmon ver to load 2,000 tons of salt salmon for Japan. Steamer Tartar of the C. P. R., which sails for the Orient on Wednesday, will also carry a shipment of salt salmon, about 1,000 tons. The Tartar will also have a large consignment of herring from Nanairon, Owing to the demoralization of of the other material is scatterly any town results. There is scatterly always to making school, and here the home sewer can have a good lining cut for a dollar or two, and even have the featherbones machined in for a trifle more. Then with the waist lining already seamed and bottled, the laying of the other material is but a small ready seamed and boned, the laying of the other material is but a small

matter.
That these fetching little jacket bodices extend below the waistline makes the fitting of the lining a very

prisoners of hope.

During the eighteen wretched months that followed, every spare moment we had was spent in planning on escape, but so heavy was the guard maintained over the town as well as the prison, and so vigilant were the soldiery that two years passed before my dream of escape came true—two years of drudging, unremitting labor in the silver mines of the region: two years of rigor and hardships which only the exponents.
