

WITH BULLETS AND BAYONETS

Troops in Liverpool Endeavoring to Keep Down Disorderly Element—General Strike of Transport Workers

LIVERPOOL, Aug. 15.—The troops were compelled to fire on a mob of strikers here early this morning. Bayonet charges were also made upon the disorderly element.

The strike committee at 12 o'clock last night declared a general strike of all transport workers, including the dockmen, who up to the last had refused to go out. The strike will be in effect on all the local steamships and the Mersey ferries. Eleven thousand dockers struck at Birkenhead, closing the day's work. Several fires, believed to have been of incendiary origin, occurred during the afternoon.

At two o'clock yesterday morning a mob set fire to two houses in the Strand street, and stood about and cheered while they burned. About forty policemen were treated for injuries received in Sunday night's fighting. Several persons suffered broken limbs and two policemen had their heads smashed with bottles.

Pierce fighting continued in the Islington quarter until nearly midnight. The Christian street rioters erected barricades and started fire to impede the mounted police. The Riot Act was read for the second time and the troops were called out to deal with the situation. A military officer was wounded and much property was wrecked.

The furious temper of the rioters was shown by the fact that they even attacked ambulance s and fire engines, who were called out to extinguish incendiary fires.

May 14 To Ry Railways.

London, Aug. 14.—Tonight there appears little hope of averting a great railroad strike, which probably will be accompanied by a general labor revolt that will have a tremendous effect on the trade of the United Kingdom.

All previous efforts to negotiate an arbitration treaty with Germany have failed because of the necessity to refer the matter to arbitration. The United States was presented to the state department today by Count von Bernstorff, the German ambassador. It is understood to be distinctly favorable to the principles laid down by Secretary Knox, and to preface the negotiation of a treaty with Germany similar to the pending conventions with Great Britain and France, provided the United States senate does not drastically amend those agreements.

The senate's threat to modify the pending treaties with Great Britain and France found an echo in the House today, when Representative Barthold, of Missouri, made a plea for international peace, denouncing the upper body's opposition to the convention.

He said the "Big Stick" philosophy of Oyster Bay wanted to leave the doors open for war.

President Taft has about decided not to press the senate to ratify the arbitration treaties at the special session of congress. After his return from Beverly today, the president learned that an attempt to have the senate act favorably on the pact at this time might result in long debate and finally they might be agreed to only in modified form. He was informed that many senators had taken umbrage at his speech at Mountain Lake Park last week, and that the senate to act on the treaties. Rather than antagonize senators and render the chance of ratification less certain, the president is understood to have reached the conclusion not to make a fight for them at present.

Better at Glasgow

GLASGOW, Aug. 14.—The tramway strike situation has improved perceptibly tonight. A majority of the men have agreed to return to work and submit their dispute with the municipality to arbitration.

Canada Also Affected

MONTREAL, Aug. 14.—The dock laborers strike on the other side is beginning to take a serious effect on the shipping trade on this side of the water. Exporters are unwilling to ship perishable cargo. Mr. James Thom, manager of the White Star-Dominion lines here, was in receipt of a cable from their agents on the other side to the effect that the situation was becoming more serious every hour, and that it was bad for cargoes. Consequently, said Mr. Thom, the cable practically means that we will have to shut down on exporting cargoes from this side until the trouble has been righted.

The steamer Teutonic, which left Liverpool on Saturday has also been affected by the strike of the dock hands, as she was only able to take on board cargo sufficient to bring her back to the Atlantic at a little over half speed. Consequently, instead of arriving here on Saturday next, as is her schedule, she will not be able to reach here until the early part of the following week.

Other steamship companies have also been more or less affected by the trouble, and several of the vessels have been sailed on schedule time. The authorities are carefully watching developments of the strike. The sailing of the Sardinian from London has been cancelled altogether, while if the trouble continues, it will be the same for other lines.

HANFORD, Aug. 14.—Robbery is now the motive assigned for the killing of the Chinese employees of the Mom Sing Company's truck farm near here last night, by two white men. Posses that have been scouring the country for twenty-four hours have found no trace of either man. Besides the two Chinese who were instantly killed, one of the three wounded victims may die. Local Chinese signed a petition today asking the Chinese consul at San Francisco and the officials of the six companies to offer a liberal reward for the apprehension of the bandits. The theory that a long war was responsible for the shooting has been discarded. Both men, it is said, wore black masks.

Mr. McCurdy's Accident.

CHICAGO, Aug. 14.—At the aviation grounds, J. A. D. McCurdy, flying near the ground, approached too near the club house of the Chicago Yacht Club. The planes of his car struck wires and in a minute the canvas and oil covered wood of the planes were on fire. McCurdy leaped out and reached the ground uninjured. The plane fell a few feet further but too late for the fire to be extinguished. The charged wires dangled over the free seats in which were 20,000 persons, but were guarded by police uniformed firemen who could repair the damage.

Germany Sends Favorable Reply

Note Presented to U. S. Government Said to Convey Acceptance of Principle of International Arbitration

WASHINGTON, Aug. 14.—The reply of Germany to the proposition for a general arbitration treaty with the United States was presented to the state department today by Count von Bernstorff, the German ambassador.

It is understood to be distinctly favorable to the principles laid down by Secretary Knox, and to preface the negotiation of a treaty with Germany similar to the pending conventions with Great Britain and France, provided the United States senate does not drastically amend those agreements.

TYPOGRAPHICAL CONVENTION

Business of International Union Commences at San Francisco—Question of Agreements with Publishers

SAN FRANCISCO, Aug. 14.—Pledges of support to the United Graphic Workers' union, now on strike in Cleveland, Ohio, the order of Scotch Clan, in connection at Boston, and James B. and John J. McNamara, under indictment at Los Angeles for alleged complicity in the wrecking of the plant of the Los Angeles Times, marked the opening session of the fifty-seventh annual convention of the International Typographical Union here today.

An alignment which is regarded by some of the delegates as a forecast of the vote on arbitration, piecework and other important issues, appeared in a vote on the question of allowing proposals to be submitted to the convention by a majority vote of the delegates. The present rules require unanimous sanction. H. A. Sprague of Spokane offered an amendment allowing action on a majority vote. President James M. Lynch vigorously opposed the amendment, and considerable acerbity was shown in the debate, which half a dozen delegates participated. President Lynch was sustained by 135 to 75.

The vote is regarded as significant, as Mr. Lynch has committed himself to a definite programme regarding the new arbitration agreement with the newspaper publishers' association, and a reconsideration of the referendum vote of May 17, by which higher piece scales were prohibited. The Dallas, Texas, union, had signed a five-year agreement, accepting piece work, previous May 17. The St. Louis union is under a contract with the St. Louis publishers' until February 3, 1912. A recent amendatory agreement substituted for the original St. Louis contract, allowing piece work, and which Mr. Lynch refused to sanction, will be brought before the convention with the Dallas case, for special adjudication. Mr. Lynch has announced that he will stand for a rigid enforcement of the law abolishing piece work, and in the new arbitration agreement for provision that all new agreements be executed at the option of the local union and the local publishers, and that all international law not affecting wages, hours, and conditions, be recognized.

While no formal action regarding Asiatic exclusion has been planned, the issue was tossed unexpectedly into the convention at today's session, by Andrew Purvesh, president of the International Seamen's union.

"The labor movement on the coast is complicated by the racial question in its most serious form," said Mr. Purvesh. "We are placed in the position of Russia, guarding Caucasian land against Asiatic hordes. The speakers who have addressed you have called your attention to the racial question in the glories of California. Allow me to call your attention to our Chinatown. These aliens are acquiring larger and larger interests, and encroaching upon us little by little. When you return in 1915, yet we hope that you find adequate exclusion laws."

When Delegate Gus T. Wimbger, of Minneapolis, offered the resolution embodying the telegram to be sent to the McNamara brothers, George Koop, of Chicago, began a vigorous denunciation of what he termed the "Los Angeles persecutors of labor," and moved an amendment voting \$10,000 for the support of the McNamara's. He was interrupted by President Lynch, who informed him that the matter must be referred to the senate on finance.

Adjournment was taken until Wednesday.

Pope Plus Not So Well

ROME, Italy, Aug. 15.—12:30 a.m.—Pope Plus is not so well at this hour as he was early last night. His sleep has been less tranquil and he twice awoke complaining of pains in the affected knee. His temperate diet has slightly increased over that of the early hours of the night. Numerous dispatches from all parts of the world expressing hopes for the pope's quick recovery continue to arrive at the Vatican. King Edward has been urged to do so by the pope's Cardinal. Merry del Val is still unwilling to leave the Vatican for his summer home until his holiness's recovery is complete.

KING EDWARD'S TACT

VIENNA, Aug. 15.—A Jewish correspondent, writing of Chief Rabbi Adler, says: There is one fact in his career of striking interest that it is to be hoped that the light may be allowed to shine upon it. This is an incident which, likewise, concerns his late Majesty King Edward. It shows the late king's personal estimate of Dr. Adler on the one hand, and on the other, his complete lack of that prejudice against the Jews which undoubtedly exists even today in London. There was a meeting at which King Edward was present, and so was the Chief Rabbi. In the course of conversation his Majesty said:

"How is it, Dr. Adler, that I never see you as any of my courts?"

"Sir," replied the doctor, "your courts are always held on Friday night. That is the eve of our Sabbath. Our laws forbid us to ride on the Sabbath. It is too far for me to walk from my house to Buckingham Palace to attend your court and back home again. Therefore I am unable to be present to pay my duty to your Majesty."

"Then," replied the king, "I will have one court on another night than Friday."

And his Majesty did.
