Middle Aged Women

Are Here Told the Best Remedy
for Their Troubles.

Friend, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. G. Gower, 225 Napoleon St., Fremont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. J. M. Gower, 225 Napoleon St., Fremont, Ohio.

In Such Cases

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

has the greatest record for the greatest good

LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

SAVED THE TWO.

"I'm feeling verra queer!" said Sandy McVee.

"Do you drink whiskey," asked the doctor, "or smoke?"

"Oh," said Sandy, "maybe a glass a day and smoke a couple of pipes."

"Well, cut out the whiskey and tobacco, and come back next week."

Sandy was at the door by this time. "Heh!" called the doctor. "My advice will cost you two dollars."

"Never fear!" Sandy paused to reply. "I'm not taking it."

"Did that efficiency chap address your club the other night?"

"No. He prepared the address, but he came around one day late. Made a mistake in the date."

"Was anybody there?"

"No. But that made no difference."

He forgot to bring his address with him.

DO IT TODAY.

Send a dollar to The Graphic Limited and have the Campbellton Graphic mailed to your address or any address, except the United States from date to January 1st, 1919. The Graphic prints all the local news.—M.

AN ANGLO-AMERICAN ALLIANCE

How College Editor Views Vital Problem of the Future.

The necessity for close co-operation between all the English-speaking peoples and also the moral and rational justifications of such a combination, are recognized by all who have devoted serious thought to the problems of the future and are willing to face the world as it really is. In Germany, and also in Japan, such an association is widely considered to be inevitable. But the question still remains what, if any, outward form shall this essential co-operation take. As the Germans deny the reality of the world community and base their policy upon the assumption of an inherent antagonism between juxtaposed states, they cannot conceive of this future relation as other than an offensive and defensive alliance of the older type with its aggressive and selfish purposes. To them the project is merely the expression of the self-regarding, but entirely justifiable, nationalism of a world-wide group of closely related states. But an association of this character, as an alliance of Governments, would mark no real advance to a better international future. Unless it were an alliance of peoples based upon their common ideals as well as upon the common needs, it would be an ephemeral arrangement. Fortunately the spiritual foundations exist. As Vincent Grey has expressed it: "The more closely the two peoples come into contact, the better they get to know each other, the more I believe it will be apparent to each not only that they speak the same language, but that they use it to mean the same things, that they both have the same idea of freedom and liberty, and desire the same sort of world in which to live. A popular democratic alliance based upon such like-mindedness points the road to new types of political association which will permanently unite under a common law different nations and states. Such an organization based upon the will to co-operate would give some assurance of the possibility of an ultimate world state. Otherwise the outlook would indeed be black. If mankind is to be forever split up into the water-tight political compartments of the modern state system, if each state is to cling forever to its sovereign independence, there will be no ultimate prospect of an effectively organized world community and war will continue to demand its human holocaust."—Type Review.

Palmer's Summer Packs

are sometimes called plough shoes or harvest shoes because they are especially designed for wear in the ploughing and harvesting seasons.
You will not be troubled with tired, aching feet after doing a hard day's work in Palmer's Summer Packs, because they are light in weight, durable, roomy, comfortable and waterproof.
Ask your dealer for a pair of these "Moose Head Brand" shown above is stamped on every pair.

Basic Facts About Belting

AND PARTICULARLY

Dunlop "Gibraltar RedSpecial" Frictioned-Surface Transmission Belting

A Worthy Product

Years of careful study of the high-power belt problem have enabled Dunlop Laboratory experts to create "Gibraltar RedSpecial" Belting, the original Red Face Rubber Belting of Canada—a product worthy of the Dunlop name and of the quarter-century record of success back of them.

"Gibraltar RedSpecial" Virtues Are Real

Dunlop "Gibraltar RedSpecial" Belting is to-day widely used in a multitude of ways in the many varied industries in this country. It owes its success, not to any illogical deductions or fantastic analyses, but to the simplest causes—causes so simple that they are now, always have been, and always will be, in our opinion, the bedrock of success in belt-making—Power, Speed, Service—in actual use as well as in the test-room.

Permanent Elasticity Means "Life" in Belting

In producing this new, this original, this master, red belt, our object has been to have the friction of coat of rubber between the plies such as will retain its life indefinitely, and to have a quality of rubber of elasticity.

That "Friction Pull"

When you are informed that such-and-such a belt has a "friction-pull" of abnormal poundage, do not imagine that you are getting a quality friction. What you have to secure in a belt is a friction full of elasticity. There must be between the plies of duck only a certain class of rubber to give uniform strength and pliability.

Resilient Quality Must Not Be Sacrificed To Excess of Friction Strength

To obtain high figures, such as referred to above, in belt friction you have to take away from the elasticity of the friction; hence, there is a happy medium, and this medium we have obtained through our laboratory experts. It ensures for you a belt, the friction of which will hold the plies together and will be sufficiently elastic in its properties to allow for the give and take necessary in rounding the pulleys.

Universal Recognition of "Gibraltar RedSpecial"

To cite the names of users of this famous, red frictioned-surface belt would necessitate the use of much space. We have on file recommendations from almost every type of industry requiring "Gibraltar RedSpecial" Belting in widths varying from 1 1/2" to 48". These testimonials are available for your perusal at any time.

The Original "Red"

"Gibraltar RedSpecial," as noted previously, is the Original Red Rubber Belt—and like most things that are original, its success is of the kind that endures.

DUNLOP TIRE & RUBBER GOODS CO. LIMITED

HEAD OFFICE AND FACTORIES: TORONTO

Branches: Victoria, Vancouver, Edmonton, Calgary, Saskatoon, Regina, Winnipeg, London, Hamilton, Toronto, Ottawa, Montreal, St. John and Halifax
