## DODGE PATENT WOOD SPLIT PULLEYS

Best Belt Surface, Lightest, Strongest, Best Balanced and Most Economical Pulley in the World.

### WITH OUR PATENT BUSHING SYSTEM

Every Pulley will fit 20 different sizes of shafting, and guaranteed to give from 33 to 60 per cent. more power from same belt and like tension than any Iron or Steel Pulley. Every Pulley a Split Pulley, 70 per cent. lighter than cast iron, 50 per cent. lighter than wrought iron or steel. Strong enough for any power required. Made in sizes from 9 in. to 16 in. in diameter.

The following is one of numerous letters received after having used our pulleys:  
HAMILTON, May 10, 1899.  
The Dodge Wood Split Pulley Co., Toronto.  
Dear Sirs—In reply to yours of the 8th inst., would say that we have now in use a considerable number of your Split Pulleys, and perhaps the best of our kind. The reason lies in the fact that since we got the first three on trial, we have purchased no iron pulleys. We find we can run with much slacker belts, which is an advantage, and the saving of time when it is necessary to change a pulley is a considerable item in their favor. If your work generally they have proven very satisfactory.  
Yours truly,  
HAMILTON COTTON CO.

We also manufacture Special Pulleys for the TRANSMISSION OF POWER BY ROPE. Under the Dodge Patent System, and are prepared to give estimates for Transmissions of any capacity, from 5 to 500 h. p., at any angle or distance.

### OUR NEW FACTORY

Which is now in full operation, and is the Largest and Best Equipped Works in British America for the manufacture of ALL KINDS OF BELT AND ROPE PULLEYS.

## Redpath

CERTIFICATES OF STRENGTH AND PURITY.

OFFICE OF THE PUBLIC ANALYST.  
MONTREAL, September 24, 1899.

To the Canada Sugar Refining Co., Montreal.  
Gentlemen—I have personally taken samples of REDPATH'S brand, and carefully tested them by the Polariscopes, and I find these samples to be as pure as absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscopes showed in favor of your EXTRA GRANULATED Sugar, and that it yielded 98.88 per cent. of Pure Cane Sugar. It is practically as pure and good as absolutely pure sugar.

JOHN BAKER EDWARDS,  
P.L.D., D.C.L., F.C.S.  
Public Analyst for the District of Montreal, and Professor of Chemistry.
