FOR EACH LINE OF 10 TYPE.  
Ordinary advertisements, fifteen cents per line.  
Special advertisements, twenty cents per line.  
Condensed advertisements, one cent a word.  
Births, Marriages and Deaths, 5 cents each.  
SUNDAY MORNING, MARCH 15, 1890.

The following is a list of the names of the persons who have been named in the various cases which have been brought before the court since the last issue of the paper. The names are given in alphabetical order, and the cases are given in the order in which they were heard.

It is said that a Swiss scientist has discovered a system by which a bell submerged in the sea can be heard at a distance of ten miles. This is a discovery which is of great importance to the navy, and it is said that the government has already ordered a number of bells to be placed in the sea for this purpose.

It is said that a man who has been living in his youth near a "flying pond" who does not know that sound can be conveyed under water much better than on land, and who has not practised it by striking two rocks together. But this need stand in the way of the idea being utilized for signalling at sea.

An Englishman says that American humorists crib their wit from the old English humorists. In a measure this is true. Human nature has not greatly changed since the past few hundred years, and so far as humorous shots are directed at human follies they have not greatly changed, except that many of the American humorists can now say in a few lines what Fielding, Smollett, Steele, Addison and that gang had to write in a whole volume.

It is reported that a man has been invented a very clever "adding machine," which infallibly gives the total of any column of figures, and that, with a little practice, very quickly. Some years ago Wong Chin Foo, a talented Chinese, lectured in Canada, and exhibited such a machine, which he said had been in use in China thousands of years. By its aid addition and subtraction could be performed quickly enough to enable the ordinary arithmetician to lead him. It's very simple, too.

Mr. Morell Mackenzie, the great London throat specialist, has won two suits against London newspapers for publishing disparaging articles about his treatment of the late Emperor Frederick of Germany. The damages awarded amounted to \$2500. Now, if every doctor whose patient dies under his hands is to sue the newspapers for the papers that mention the fact, it may prove a great deal more profitable to kill than to cure.

The officials of the Pennsylvania Railroad claim that the damage to their road from washed-out tracks and bridges, and destruction of locomotives and rolling stock would amount to not less than \$5,000,000 on account of the Johnstown disaster. Now they say the road is in better condition than it was before the disaster. The road is in better condition than it was before the disaster. The road is in better condition than it was before the disaster.

One who is quoted as "an eminent physician" says that any professional man over 40 years of age is "old." Beyond his muscles and no one else. "Old" is a word which is used by the world to mean a man who is no longer a young man. It is a word which is used by the world to mean a man who is no longer a young man. It is a word which is used by the world to mean a man who is no longer a young man.

It will not do to say in the Rykard case that the accused ought to be heard before being condemned. The correspondence as published is of such a nature as to at once implicate the character of Parliament and to leave but one course open to members: to insist on Rykard's resignation or to force his retention.

The Markham Standard says, commenting on the fact that Seale, the champion sculler, was worth \$40,000 when he died, made in two years, "that 'honest sculling pays.' So it does, but how about the other kind? Courtney does not attract much attention, but he probably eats just as much as the honest scullers.

If change is ever made in the laws of Ontario, it is a much more likely that the open voting will be introduced in municipal elections than that it will be introduced in provincial elections. The Toronto Globe.

Then why not go back to the system of open voting and let the voters decide for themselves what the numbers of the system amounts to in the end, talk about it as you like.

We do not often expect to see any humorous reference in a market report, but one can scarcely help smiling when he reads that "coffee is a good deal better than it was." It is a good deal better than it was. It is a good deal better than it was. It is a good deal better than it was.

The press of New York State are unanimously laughing over the law designed to prevent any publication of the details of executions under the new electrical process. They may well laugh. The law is absurd. It would be equally sensible to solemnly resolve that water will not run down hill.

Mrs. Amelia River-Chandler, who is now in Paris, has adopted the profession of artist. If one might make a bold guess, based solely on a study of her works, she would probably devote herself to the nude.

The young women of the Detroit School of Art have revolted because the conduct of that institution has decreed that no pupil shall be allowed to chew gum. He evidently does not believe in teaching the young idea how to chew it.

It is all right of course to give Stanley a good send-off properly to his lecture tour, but would he not make just as much in the end if he dropped the circus methods his agent is at present adopting?

Some one has sent President Harrison a gift of a razor. If he is an office-seeker, this is probably a gentle hint that he is straggled.

The striking shirt makers in New York have collared the situation—Philadelphia Times. But if they are not finally landed together they may "get it in the neck."

A fire in Philadelphia the other day destroyed 2000 bags of peanuts. This looks like a premature blow at the circus industry.

It is said that President Harrison is fond of Irish whisky. Is this an insidious bid for the support of Tammany Hall?

## THE WEEK IN REAL ESTATE.

MORE INTEREST BEING TAKEN IN CITY PROPERTY.

Fishing Land Rentals on Yonge-street—Property Owners and the Railway Situation—To-day's Auction Sales—The Week's Transactions—Building Permits Issued.

The full suburban property market last week has continued strong. In comparison to the amount of that class of land sold week by week since the first of January the transactions for the past two weeks have been decidedly light. If we search for a reason we find it in the fact that speculative attention is in a state of "rumormongering" ready to be "precipitated" on the first decided movement in any of the localities now under consideration. In the meantime, however, good city, not to say central, property is more in demand. A considerable movement in Parkdale is noted this week, also in the north-west part of the city and in the Davenport-road district. House property is coming into greater demand as spring approaches.

**Fixing Yonge-street Grounds.**  
The arbitration between the Carleton and Metcalfe estates over ground rents on Yonge-street is an event of importance. The Carleton estate is now in possession of the ground, which stands, stores occupied by the Gurney Company and the Rogers & Sons Company. The latter's 21-year lease has run out and the arbitration was held for the rental for a further term. Mr. J. S. Smith was referee. After the submission of three amounts of evidence the rental was fixed at \$100 a foot to \$11 a foot. This is the highest award, but the Carleton estate has not yet been assigned.

**As Viewed by Interested Parties.**  
Property owners have been looking on quietly at the agitation for a magnificent viaduct proposed. During all the discussion they have said little, but they kept on watching the scheme. They turned the matter over and considered how said title, but they kept on watching the scheme. They turned the matter over and considered how said title, but they kept on watching the scheme.

**Transfers During the Week.**
