Owing to the dissension and opposition of Hon. G. W. Ross and Mr. Waters, the appointment was not filled for some time, and the correspondence lagged and dragged until August, 1893, when Mr. Leys asked for a definite answer. "Your refusal to do what I want," he wrote, "may result in what you will not like to think of hereafter. This in all probability may be the last request I will ever make of you."

"In Any Event May God be With You." In reply Sir Oliver told him why he thought the appointment of Col. Leys would not be favored in Middlesex, and added:

Nevertheless the Government whips heartily wish that the coming anti-Lords conference, which is to be held in Leeds, were over. A great many Liberal members of Parliament have promised to take part in the conference, but the Opposition members refuse to pair with them for the occasion, and it will be a daugerous matter for the Liberal party in Parliament to be caught napping. If pairs cannot be arranged, a good many Liberal members must remain away from the conference, to which the party managers attach the greatest importance. If the conference is a success, "anti-Lords" will be the battle cry at the next election, but already there is cry at the next election, but already there is

Liberals Not One With Labouchere.

Mr. Labouchere will certainly attend the conference, and he has given notice of his intention to reintroduce the resolution which he offered at the conference of the National Reform Union last week, which demands that whenever the House of Lords has rejected a bill, which has been passed by the House of Commons, it shall only be necessary for the House of Commons to again vote its approval of the measure, when it forthwith becomes a law. Many attempts have been made to dissuade the Radical leader from introducing the resolution, but to no purpose. The Daily News and other organs of the Liberals have alternately threatened and coaxed Mr. Labouchere in an endeavor to induce him to allow the introduction of a milder resolution in order to preserve the unanimity of the conference, but the Hadicals are firm in their purpose to support Mr. Labouchere's original resolution. To the importunities of the Liberals they retort: "This confirms our belief that the Liberal party chiefs are not in earnest. They do not aim to destroy the House of Lords, but to merely tinkers."

Rosebery's Foreign Policy Displeases the Radicals.

Lord Rosebery's foreign policy has further displeased the Radicals, who largely share the views expressed by Sir Charles Dilke in his recent letter to The Chronicle in which he challenges the present foreign policy of England and accuses Lord Rosebery, of having renewed Lord Salisbury's assurances to Italy in regard to the Mediterranean. The Radicals declare that they will not tolerate Lord Rosebery's secret and autocratic methods much longer.

Meanwhile the Anglo-Belgian Agreement is becoming more mysterious than ever. Mr. Henry M.
