THE STANDARD.

ST. ANDREWS, WEDNESDAY NOV. 1, 1848.

THE COURT.—The Fall term of the Court of Oyer and Terminer and General Jail Delivery, was opened here yesterday (Tuesday) by His Honor Mr. Justice CARTER. His Honor's Charge to the Grand Jury was brief and effective. There were no criminal causes on the calendar for trial. 13 civil causes were entered for trial, one of which was tried yesterday.

The weather during the past fortnight, has been of every variety.—warm, fine, cold, with a large proportion of rain for the last four days. The ground is now saturated to the extent, as to render it unfit for ploughing.

TEMPERANCE SOCIETY.—We beg to remind the Public that this interesting "tea meeting" will take place this Evening. The "long room" is tastefully decorated, and the repast we know will be a sumptuous one. We trust the room will be filled to overflowing. Get your tickets in time.

AGRICULTURAL SOCIETY SHOWS IN CANADA.—The season for these valuable exhibitions is now about closing. We have been handed by a friend, a few of the published reports of these Societies for the present year, which exhibit many proofs of the advancement of agriculture in Canada, a province destined at no very remote period to rival the United States. A commendable spirit of emulation is abroad among the farmers in that Province, which is worthy of imitation in the Lower Provinces. It may not be generally known, that each County Society in Canada receives from the Legislature, three times the amount of the sum raised by the subscriptions of its members, and the District Society, (an honour which comes in rotation to the lot of each Union Society), receives £500 in a round sum. At the late show in the State of New-York, the competitors from the Canada side carried off five prizes. A Canadian took the first dairy prize.

THE QUARTERLY SESSION OF THE GRAND DIVISION, SONS OF TEMPERANCE, was commenced at St. John on Wednesday last, and continued its labours until Friday evening, when it closed. We understand that several important matters were brought before that body, which were disposed of, and that harmony prevailed, which is the strength of all societies.

INDIAN CORN.—We copy the following notice from the Windsor Sentinel of the 24th ult., it goes far to establish the fact of this Province being adapted for the successful cultivation of Indian Corn.

We have been informed that one of our ploughmen in Northampton, (Mr. Shea,) has raised this season between five and six hundred bushels of Corn, of a good quality. Also that the whole amount which has been grown on the flat or interval, which is not quite two miles long, of which Mr. Shea's field forms a part, is over fifteen hundred bushels. These sandy intervals are peculiarly adapted to Corn, as the rays of the sun are more readily absorbed than by heavier soils. It is seldom that the cultivation of this valuable grain does not more than pay expenses, on suitable ground, even in those seasons which are not considered best, but this year the returns will yield a handsome profit.

GIANT PUMPKIN.—At a recent Horticultural Exhibition at Montreal, among the wonders of the vegetable world, was an enormous pumpkin, from the garden of Mr. Allan McDonald, weighing two hundred and eighteen pounds, being twenty pounds heavier than the largest pumpkin on record on this continent.
