BARRED PLYMOUTH ROCKS.

Two years in succession the medal comes to me. At Toronto, Industrial 1908, I won the medal for the best collection of barred Plymouth Rocks, and won it again this year in the keenest competition yet seen in Toronto by taking first on cock, second on cockerel, second on pullet, and first on pen. At London I also won two firsts and a second. This, taken with my former extensive winnings, proves the consistent quality of my stock. Every prize-winner of mine at Toronto was bred by me. Young and old stock for sale at reasonable prices.

EXHIBITION BARRED ROCKS.

I have bred them for 15 years, having won more prizes on barred Rocks at the largest show than any one breeder in Canada. My stock won again at the great Industrial, first on pullet in a class of 34 pullets, 3rd hen in class of 20 hens. The same hen first at London. I have a grand lot of cockerels and pullets for sale and some of my last year's hens for sale fit to show anywhere.
