

and are barely saleable over the price of the bright city brands of Supers. The present advance will probably stimulate arrivals from the West, but stocks being very moderate, it will require a good deal to bring supplies to the average in the hands of dealers and holders generally. No sales of lower grades. *Bug Flour*.—Strong bright samples command full prices—other kinds, although pressing at low figures, are not to be sold at any price. *Rye Flour*.—A small parcel was forced off at \$4.50, the demand latterly has been quite suspended.

**GRAIN.**—Wheat has also participated in the activity of Breadstuff generally. Sales to a considerable extent of cargoes Chicago and Milwaukee No. 1, at \$1.60 to \$1.52; and No. 2, at \$1.46. Red winter at \$1.60 for a parcel of 10,000 bush. The loss of three cargoes of wheat at Cornwall has increased the firmness of holders at least for the present. Pease firm and active at 90c. per cwt., both for car-loads in store, and cargoes afloat. *Oats and Barley*.—Nothing yet moving.

**PROVISIONS.**—*Pork* firm for all grades; *Mess* is in good demand, several parcels having changed hands at \$20.37 to \$20.50. Holders now demand an advance. In other grades little doing.

**BUTTER.**—Quietness and dullness are the characteristics of the market up to the present time. A choice article would sell readily, but the quality must be positively, not comparatively, good. A few sales of picked lots have been made within the range of 13c. to 15c.

**ASHES.**—*Pots* have during the week advanced to 56 to \$6.05, but close with a downward tendency. *Peals* nominal. No sales can be noted for the last day or two.

**PETROLEUM.**—Remains in the same unsettled state owing to the local causes already alluded to. Advices from most other markets both United States, British, and Continental, note a steady rise.

**SHINER.**—Extra includes Cossets, and when those of an inferior quality are thrown out.

##### REMARKS.

**CATTLE.**—The arrivals at Cambridge and Medford 162 head—the greatest number for a year. The first week of last October there were 1901 head at market, including Western Cattle driven from Brighton—about 160 more than last week. There is not much change in prices upon the best Cattle, but the poorer grades have declined fully \$1.00 per cwt. The supply of Milk Cows and Store Cattle was large, with considerable young stock. The sales were fair, although confined mostly to small lots; many were taken on speculation.

**SHEEP AND LAMBS.**—Were also in large supply, the greater portion consisting of spring Lambs, and selling at \$2.75 to \$3.00 per head. The quality was good, and prices were about the same as last week.
