LAND PLASTER.

Land Plaster that is white and ground fine is the only Land Plaster to depend upon as a fertilizer—if it has a black or red tinge, and coarsely ground, beware of it. The Plaster I sell is white from the sea, and ground fine. When used in the stable it will make a ton of manure equal to the highest priced Super-Phosphate. This has been proved beyond any question of doubt by the experimental agriculturists of to-day, who use only the ground white that comes direct from the sea. Send for circulars.
