

The editor of the Review of Reviews, in the January number, ventures a brief forecast of the new year's developments, in which he predicts the settlement of the Cuban, Turkish and Chinese problems of nationality and government, the rapid industrial advancement of Japan, the still greater progress of European enterprise in Africa, the unprecedented hastening of railway-building in northern Asia, the laying of two Pacific cables, the practical use of horseless carriages in Europe, the replacing of steam by electricity on some important lines of railway, and valuable dis-

coveries in medical and sanitary science. On the whole, the Review looks forward to a "hopeful and interesting new year."
