

4 GOOD EMULSIONS

**Food Products
that
Merit Your Specification**

These emulsions are excellent therapeutic agents—valuable nutrients; tissue-builders of the highest order. They are permanent. They are palatable. They are perfectly digestible.

Egg Emulsion Cod Liver Oil, Improved—40% cod liver oil, emulsified with eggs and preserved with brandy.

Emulsion Cod Liver Oil, Improved, with Hypophosphites—40% cod liver oil.

Nutrole—Animal and vegetable oils (40%) emulsified with eggs and preserved with brandy.

Egmol—Olive oil (40%) emulsified with eggs and preserved with brandy.

Literature Free on Request.

An Unusual Cough Syrup

Syrup Cocillana Compound is especially indicated in acute bronchitis with unusual irritation, and in chronic bronchitis when secretion is scanty and cough excessive. Unlike the ordinary cough mixture, it does not constipate the bowels—in fact, it is slightly laxative in effect. It is agreeable to the palate. It is attractive in appearance.

Syrup Cocillana Compound appeals especially to the prescription writer. Its name does not suggest its therapeutic uses. It is not known to the public as a "cough syrup."
