**KOOTENAY.**

The Estimated Annual Output of the Kootenay Mining District within five years is 25 to \$40,000,000! This output capitalized means a total valuation of several million dollars!

We offer the most favorable and rational medium for the Eastern investor to share in this Western wealth. Through us you may have a hand in the development of this richest of rich mineral districts.

We offer you here the cream of investments. We control four incorporated companies, owning fourteen mines. We have a little stock left at 10 cents on the dollar. An advance will be made in a few days. Twenty-five per cent advance is equal to three yearly dividends of eight per cent! Development work during the coming summer may advance the price of several hundred per cent.

No investment can be more profitable. The shares in the "Mollie Gibson," in Colorado, increased in a little more than one year from 25 cents to Ten Dollars. Such instances may be multiplied. Kootenay Silver Mines are richer than those of Colorado.

No investment can be more safe. We have applied the insurance principle to mining. The immense insurance business of this country has no firmer basis than our system of assurance against loss.

No investment can be more legitimate. We offer no "gamble" nor mere "speculation;" it is legitimate, fair investment. It is the intelligent development of one of the Greatest Natural Resources.

We have opened offices or agencies in all Eastern Canadian cities. Address us Toronto, Ottawa, Montreal or Quebec.

We are here to stay. Order now. The next advance in prices will be equal to three annual dividends of eight per cent each!

Keep your eye on **KOOTENAY.**
