 M. Sig.: Place in shallow vessel and keep boiling over the stove.—*J. Lewis Smith*.

UPJOHN'S

Manufactured by  
 THE UPJOHN PILL & GRANULE CO.  
 Over 600 Formulæ—B.P., U.S.P., and Special.

Friable PILLS

Differ from all other Makes.

Because they are made without excipient or pressure. The contents are in the form of a dry powder. In their manufacture, **no Sub Coating** required, the Coating therefore dissolves in such a remarkably short time, that the Pill cannot pass through undissolved.

The contents being dry the full force of their action is immediately brought into play.

Their Friability can be readily demonstrated by crushing one under the thumb, and their Solubility by allowing one to remain a few moments in the mouth.

We mail samples and lists to any Physician on application.

In prescribing

Be particular to specify

Upjohn

And see that your patients get **UPJOHN'S FRIABLE PILLS.**

THOS. LEEMING & CO., 25 St. Peter St., Montreal, Sole Agents for Canada.
