

February 8th, 1933.

T. Fred Ward, Esq.,
Bursar,
Macdonald College.

Dear Mr. Ward,

With reference to the memorandum handed me to-day and dated February 8th, saying that estimated cost of the proposed alterations in the Bacteriology Department, as requested by Professor Gray, would be \$250 to \$300, you give me to understand that in an interview with Professor Gray he said he would be completely satisfied if this work could be done.

I therefore authorize its execution, to be charged to next year's budget, and I should appreciate your sending me a plan, showing the alteration, and giving me a short description of the changes in contemplation.

Ever yours faithfully,

Principal
