### GRANTED REMAND ON THEFT CHARGE

H. J. Desjardins and Dr. McKay Unable to Secure Heavy Bail.

### WANT McKINNON FREED

Charges Regarding Working of Patriotic Societies Denied by Officials.

By a Staff Reporter.

HAMILTON, Tuesday, Sept. 14.—H. J. Desjardins and Dr. Herbert McKay, who were apprehended by Detective Walter Duncan of Toronto and Detective Blackley in connection with the disappearance of a package of money containing \$6570 and belonging to the Union Bank of Canada, and for which John McKinnon, former manager of the east end branch of the bank is now serving a three-year term, appeared before Magistrate Jeffs in the police court yesterday. Desjardins, who, at the time of his arrest was working in the bank at Barrie, Ont., was charged with the theft of \$6570, which, it is alleged, he knew to be stolen money. Desjardins was unrepresented by legal counsel, while George S. Kerr, K.C., appeared on behalf of McKay. Desjardins refused to say anything in his own behalf and asked for a remand of a week, which was granted. McKay declined to say anything and was also remanded for one week, bail being fixed at \$10,000 in each case.

C. W. Bell appeared on behalf of the United States Fidelity and Guarantee Co., with which company Desjardins was bonded by the Union Bank.

A largely signed petition is now in the hands of the Ottawa authorities asking that McKinnon be released. It is understood he is anxious to return to his home in Ontario.

In response to inquiries by various citizens and in order to clear up certain rumors which have been in circulation for some days regarding the manner in which the affairs of the Red Cross Society, the Patriotic and other societies are being run, several officers of the various organizations were interviewed yesterday. Complaints were made that some of those working in connection with the Red Cross Society were receiving enormous salaries, while others were receiving a percentage of what they collected.

In reference to these charges W. H. Wardrop, president of the Hamilton branch of the Red Cross Society, stated that so far as he knew no complaints had reached the ears of the officers of any of the organizations in question. He admitted that three of the ladies connected with the Red Cross Society were receiving small salaries, but that as far as he knew no person is receiving a percentage of what is collected.

The story that some knitted by Hamilton women are being sold to the soldiers in England and the trenches was also denied.

George C. Copley and W. H. Lovering, representing the Patriotic Fund, also denied knowledge of any wrongdoings in connection with the handling of money of that association.

It has been suggested by many of these in charge of the various funds and of the Red Cross Society that there be a special audit, showing all the money collected and how expended by each association, and that these statements be made public.

### CANADA TO GET BIG GUN ORDERS

Britain Wants From Two to Three Thousand in Two Years.

(Continued from Page 1).

Guns made at different factories and the assembling could be done at a large central factory. It was learned afterwards that this factory might be located at one of the Canadian winter ports, and that it would be an accomplished fact it might be financed and controlled by the government, although the money might be advanced by the government under government guarantee. This presupposes that the whole scheme is found to be feasible.

Gen. Hughes is confident that it is a good plan, and some of the steel men present said that Canada could furnish the nickel steel required for the guns.

### SYSTEM EXPLAINED OF HYDRO SERVICE

Oakwood Ratepayers Hear Speakers Familiar With Lighting Question.

### GET NAMES OF STREETS

Petition From Residents Would Receive Attention From York Council.

Resolved "That the Oakwood District Ratepayers Association request the York Township Council to get the cost of lighting the streets and dwellings of the Oakwood district from the Toronto Hydro-Electric Commission."

The above resolution was passed unanimously at last night's meeting of the organization, held in Oakwood Hall, President William Caswell occupying the chair.

Representatives of the Provincial Hydro and Toronto Hydro-Electric Commission, together with Deputy Reeve W. M. Graham and Councilor T. Mackay were present.

President Wm. Caswell explained that the representatives of the provincial and Hydro-Electric were present by invitation to explain why the light was not installed in the district.

F. T. Stocking said: "The municipalities have formed themselves into co-operative associations. The hydro does not supply to individuals. Up to the present Weston and the city furnish power to York Township." Mr. Stocking pointed to the fact that the Toronto Hydro has spent an enormous amount of money already in the Township of York, and that they cannot expect to go into the township with the city's funds when it is not remunerative.

F. W. Peasall, representing the Toronto Hydro-Electric said: "It would be advisable for the association to submit names of streets for hydro light service."

Gen. Hughes said: "The hydro is co-operative with the provincial hydro in the matter, everything done by the local commission being subject to the provincial commission."

Mr. Peasall assured the meeting that a petition signed by two-thirds of the ratepayers would be certain to get the attention of the Hydro-Electric.

Deputy Reeve W. M. Graham said: "The present contract for lighting with the Toronto Electric Light Co. does not expire until 1918 and if the district requires the hydro-electric for street lighting the York Township Council would be pleased to secure same, to be charged as a local improvement. The council explained Mr. Graham, is at present paying for as much lighting as the rates will allow, but if petitions from residents on any streets are presented to the York Township Council they will receive attention."

# TO PUT ON FLESH AND INCREASE WEIGHT

"Gee, look at that pair of skinny scarecrows, why don't they try Sargol?"

"Sargol has just put 10 pounds on me in 14 days, states W. D. Roberts. 'It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure.'"

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work as so weak. Now, thanks to Sargol, I look like a new man. I gained 12 pounds in 23 days."

"I weighed 132 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh-building I have ever seen," declares T. Martin and D. Sargol, and says: "When I started Sargol I weighed 147 pounds, and now I weigh 160 pounds. Everybody telling me how fat I have got in the last month."

"When hundreds of men and women—there are hundreds, with more coming every day—living in every nook and corner of this broad land voluntarily testify to weight increases ranging all the way from 10 to 35 pounds given them by Sargol, you must admit, Mr. and Mrs. and Miss Thacker, that there must be something in this Sargol method of flesh-building after all."

Hadn't you better look into it, just as thousands of others have done? Many thin folks say: 'I'd give most anything to put on a little extra weight,' but when someone suggests a way they exclaim, 'Not a chance. Nothing will make me plump. I'm built to stay thin.' Until you have tried Sargol, you do not and cannot know that this is true.

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just try it and see if your weight does not pile up, hollows vanish and your figure round out to pleasing normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell the story.

Sargol is just a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of separating all of its flesh-producing ingredients. It prepares these flesh-making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of the flesh, if now goes to waste through their bodies like unburned coal through an open grate. A few days' use will prove whether or not this is true of you. Isn't it worth trying?

If you want a beautiful and well-rounded figure of symmetrical proportions, if you want to gain some solid weight, if you want to stay there, if you want to increase your weight to normal, weigh what you should weigh, get straight to your druggist today and get a package of Sargol and try it as directed. Sargol will either increase your weight or it won't and the only way to know is to try it. A single package of Sargol easily enables you to make this test. Sixty days' use of

This clue was followed up and for the past two weeks detectives have worked on it, and it is believed with good results.
