MR. F. J. DRAKE Belleville.

Dear Sir,—Re the conversation you had with our manager, I am instructed to inform you that the machine we purchased from you early last spring has proved to be a very useful piece of machinery. Our Mr. McCool, who uses it, is greatly pleased with it, and recommends it to any person who may require a Saw Filer. Wishing you every success with your Filer, we remain,

Yours truly,

THE LEFFEL AND VULCAN TURBINES

POSSESS DISTINCTIVE MERITS, which should have the attention of water power owners 1st—They are strongly and carefully built. 2nd—They are economical in their use of water. 3rd—They develop more power in proportion to the water used than

other Turbine built. Mr. J. D. Flavelle, of the Flavelle Milling Co., Lindsay, writes us under date of March 7th as follows:

"Referring to the two 74" water wheels (Leffels) purchased from you during the past year. As far as we have had an opportunity of testing, they have done their work excellently, in fact are doing more than you guaranteed them for. We took a test of the power they were developing with a head of water of 3 ft. 10 in., and they developed very close to 100 h. p. We are thoroughly satisfied with same."
