

# SAVED FROM THE SURGEON'S KNIFE

"Fruit-a-tives" Cured Appendicitis

NEWBURY, Ont., Feb. 12th, 1910. "Just about a year ago, our daughter (fourteen years) was taken with terrible pains in the right side. We at once put her under the care of a first-class doctor, who pronounced it a case of appendicitis and advised an operation. We took her to a Hospital in Kingston where she was again immediately examined by an eminent specialist. He said she had Appendicitis and must be operated on at once. If we wanted to save her life.

"Fruit-a-tives" is the only medicine in the world that will positively cure Constipation—the cause of Appendicitis. 50¢ a box, 4 for \$2.50, or trial size, 25¢. At all dealers, or on receipt of price by Fruit-a-tives, Limited, Ottawa.

"Fruit-a-tives" saved our daughter from the surgeon's knife and she is enjoying the best of health."

J. W. FOX (Father), LILLIAN FOX (Mother).

C.P.R. GIVE SCHOLARSHIP

Free Tuition in Applied Science at McGill.

Two free scholarships covering four years' tuition in the faculty of applied science in McGill University have been offered by the C.P.R. to apprentices and other employees enrolled on the permanent staff of the company as well as to sons of the railway's regular employees.

The conditions attached to the scholarships specify that candidates must be under twenty-one years of age. The competitive examination will be the regular entrance matriculation to McGill University.

Through Train Service and Pullman Sleepers Between Toronto and Porcupine.

Mining men and those interested in Porcupine will be pleased to know that commencing Dec. 2, Grand Trunk train leaving Toronto 8.30 p.m. daily will run through South Porcupine, arriving there at 4.30 following afternoon. Southbound, first train will leave South Porcupine 12.30 p.m. Dec. 2, arriving Toronto 7.30 following morning. Trains will carry through coaches and Pullman sleepers between Toronto and Porcupine, and dining cars north of North Bay. Secure tickets by reservation and full information at City Ticket Office, northwest corner King and Yonge streets. Phone Main 4208.

Funeral of Grahams. The bodies of Mr. and Mrs. Gordon Grahams, late of Memphis, Tenn., and formerly of Toronto, arrived in the city yesterday morning on the C.P.R. train from Detroit. The cause of death was by asphyxiation from gas, a gas in a bathroom having been accidentally left open last Sunday, Nov. 19. The bodies are now resting at the former home of Mrs. Grahams, 276 Lip-pincott street.

The funeral takes place today at 2.30 p.m., Rev. Mr. Balfour officiating. The remains will be interred in Mount Pleasant Cemetery, the bodies being conveyed as a double funeral in two separate hearses.

# THE STAIRCASE TEST

If You Cannot Pass It Your Health Is Failing

When you suffer acute palpitation of the heart, dizziness or faintness every time you go up stairs, when exertion of any kind makes you breathless and trembling, it is a warning that your blood is defective—that you are an anemic. If these warnings are neglected worse disorders will follow—perhaps decline and deadly consumption. If you are in this condition you need the new, good blood of health that has been given to thousands of sufferers by Dr. Williams' Pink Pills. These pills banish all the ailments arising from poor blood, tone up the system and make weak men and women well and strong. Miss Elizabeth Campbell, Almonte, Ont., says: "I was living in Pembroke at the time my health failed me. I kept growing weaker every day until I at last grew so weak I could not walk up stairs without help, and I could not go down stairs without sitting down and resting. My mother got quite anxious about me and took me to a doctor who said he was quite sure he could restore my health. He gave me a bottle of medicine, and I continued its use until I had taken four bottles, but instead of getting stronger I was growing weaker all the time, and was only a mere shadow of my former self. My parents believed I was in a decline and could not get better. My mother had heard so much about Dr. Williams' Pink Pills that she decided I ought to try them. I did not notice much change until I had taken five or six boxes, when a decided improvement set in, and from that on I grew stronger and stronger each day, until through a continued use of the pills I was able to do my own housework and strength. I believe Dr. Williams' Pink Pills the best remedy on earth for sick people, and cannot too strongly urge other weak girls to give them a trial."

Sold by all medicine dealers or by mail at 50¢ a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

# PUBLIC AMUSEMENTS

AT THE ROYAL ALEXANDRA.

"H.M.S. Pinafore."

When it is realized that the tour of one of the most prominent and profitable stars upon the American stage was indefinitely postponed this season and radical changes in the casts of other big attractions necessitated in order to give the playgoers of other cities than New York the now famous revival of Gilbert and Sullivan's "H. M. S. Pinafore," the coming to the Royal Alexandra Theatre next week of this remarkable organization has added significance. For many years DeWolf Hopper has been considered one of the best "box office" attractions that made the grand round.

Viola Gillette is still singing "Little Buttercup" in her inimitable fashion; George MacFarlane is singing and acting Capt. Corcoran in splendid voice and with authority; Mabel Weeks is the Josephine, as pretty as an idyllic picture; Arthur Aldridge, the English tenor, who became famous in the title role of the "Pinafore," is singing "The Ragged Dicks;" Eugene Cowles, the best of American basses, is the Bill Bobbsey, who gives voice to the big number, "He is an Englishman;" Wm. T. Carleton has scored one of the biggest hits of his long and honorable career as Sir Joseph, and petite Alice Brady is the Hilda.

AT THE PRINCESS.

"Dear Old Billy" Next Week.

Patrons of the theatre who enjoy the kind of show that is written and acted with the sole view of creating an abundance of laughter, will be glad to know that for the week beginning Monday, A. G. Delamater will present Mr. William Hawtry and his notable company of "London" players in the three act comedy "Dear Old Billy." This piece comes here direct from Chicago, where it has just closed a run of nearly four months. The critics of that city have been unanimous in praise of the comedy, and the presenting company is spoken of as being one of the best organizations seen in Chicago in many years.

The company appearing with Mr. Hawtry comprise such well known players as E. H. Kelly, formerly with Sir Henry Irving; George Stuart Christie, formerly leading man with Bertha Kellisch; Bernard Fairfax, formerly with John Drew's company; Harry Redding, formerly leading juvenile with William Raversham; Earl King, formerly with Kyrie Bellow; Miss Jane Burby, eight seasons with Miss May Irwin.

AT THE GRAND.

Rock of Ages.

Miss Jessie Arnold, who is playing the principal role of Bethel Martin, the young woman pastor and stunner, in "Rock of Ages," believes that the stage has a divinely appointed mission to elevate and educate the masses, particularly along lines of clean, moral living. According to her, the theatre should be a place where the noblest characters of the past are brought to life, and where the great truth of life is held up for emulation to those of a vicious or suggestive nature.

Miss Arnold believes the stage is destined to accomplish incalculable good, and that the time will come when religious workers will recognize in it a powerful weapon with which to fight the force of evil. The character which this earnest young actress is so impressively portraying in "Rock of Ages" is one of the types which she declares will have a prominent part in the reclamation of the stage, and establishing it on a plane where it will be instrumental in stamping out vices.

Miss Amelia Bingham at Shea's. Miss Amelia Bingham has been secured by Manager Shea as the headline feature at Shea's Theatre this week. For many years Miss Bingham has been one of the most distinguished players on the American stage. For the last few weeks Miss Bingham has been appearing in the vaudeville houses in New York, and is presenting her own idea, "Big Moments From Big Plays," Isabel D'Armond and Frank Carter, who are both great favorites here, are presenting "Bright Eyes." They are the special feature on the week's bill. Fred Duprez, Edwards, Ryan & Tierney, the Camille Trio, Rawson & June, Mary Elizabeth, the Stanleys and the kinetograph complete the bill.

AT THE GAYETY.

Al Reeves' Beauty Show.

Al Reeves' "Big Beauty Show" comes to the Gayety Theatre next week, beginning Monday matinee. Mr. Reeves has always been successful in presenting burlesque entertainment of an unusually high order, and according to the present season's announcement he has apparently excelled any of his previous efforts. His company is undoubtedly the best he has ever had. Marie Brannon, round clever vocalist and performer; Blanch Curtis and Blanch Martin, who are firmly established among the best leading women in burlesque. Al Reeves is a host in himself, but when he comes surrounded with such an organization of genuinely talented entertainers, a confidently of rare enjoyment, Mr. Reeves has always made a special point of securing an extraordinary and dancing pretty girls for his chorus. Previous efforts in this respect. Gen. M. Cohan has given Mr. Reeves permission to include in the popular "American Ragtime" in the musical numbers greatly to the attractiveness of this part of the performance.

CHEESE BOARDS.

IREOQUOIS, Nov. 24.—At a regular meeting of Ireoquois cheese board held here to-day, 25¢ cheese, 3¢ colored, three quarters.

NAPANEE, Nov. 24.—At the cheese board here to-day there were 70 white, 30 colored cheese boards, 12 2-4¢ bid, but no sales. Board adjourned for the season.

PICTON, Nov. 24.—275 colored, boarded. All sold at 13 1-16¢.

Travers at Kingston.

KINGSTON, Nov. 24.—(Special).—W. R. Travers, the detective in charge, gave him his dinner at the Randolph hotel before handing him over to the penitentiary authorities. While his mother neglected her for a few moments, the 17 months old daughter of Mrs. Charles Brown, secured half a dozen headache tablets and eight pills, and was dangerously ill for a time. Prompt medical aid saved her life.

# ANNOUNCEMENT OF THE COMPLETE PUBLICATION BY THE PRESS OF THE University of Cambridge. (England) OF THE NEW (ELEVENTH) EDITION OF THE ENCYCLOPEDIA BRITANNICA

A COMPLETE AND MODERN EXPOSITION OF HUMAN THOUGHT, LEARNING AND ACHIEVEMENT.

29 VOLUMES 40,000 ARTICLES 44,000,000 WORDS

"When one takes up a volume he is apt to be led on from one article to another with absorbing interest. The volumes are the very triumph of the printer's art, and it is a delight to handle and to read them. The book is an epoch-making book. One who possesses a copy of the Britannica has a very complete library, even if he should have no other books."—Extract from letter from Subscriber C.B. 7301.

A volume printed on halfpenny paper, 10 inches in thickness and weighs 3 pounds.

THE New Encyclopædia Britannica, 11th Edition (1911), is a vast repository of human thought, learning and experience brought down to the autumn of 1910. In virtue of its comprehensiveness and unflinching devotion to the exposition of knowledge, it combines three features of the widest usefulness to the present generation.

1.—It is a register and detailed summary of the world's life and progress.

2.—It is a complete inventory of extant knowledge reduced to an A, B, C simplicity of arrangement.

3.—It is an index to all knowledge, not less than to all common things in which an intelligent person is likely to be interested.

There are 28 volumes of text, aggregating 28,150 pages, which average 1,000 words to the page. Volume 29 consists of an Index containing 600,000 references, and a complete Table of Contents giving every article-heading in the work under its proper classification. By the aid of this Index, which was carefully prepared at an expense of \$15,000 (\$75,000), it is believed that the reader will be able to find, in the body of the text, the answer to any conceivable question within the limits of reasonable inquiry.

The 1,500 contributors include: 1. Men of Learning (scientists, philosophers, divines, university professors, historians, economists); 2. Men of Action (goldsmiths, sailors, men of affairs, judges, administrators, surgeons, architects, artists, inventors, archaeologists, explorers, engineers, sportsmen, manufacturers, financiers); 3. Practical experts, men of special knowledge who are directly engaged in the advancement of industrial undertakings for the welfare of mankind.

The sum of £230,000 (\$1,150,000) was paid to contributors and editors, as well as for maps, illustrations, typesetting, plates, etc., before a single copy was offered for sale.

THE Encyclopædia Britannica, the only work which has summarized and elucidated universal knowledge in successive editions during 140 years, in a manner commensurate with the expansion and international primacy of the two branches of the English-speaking race, has come, by virtue of its acknowledged excellence, to be recognized as an institution, as one of the most prized heritages of scholars and readers, wherever the language is spoken.

THREE NOTABLE NEW FEATURES

1. THE UNIVERSITY OF CAMBRIDGE. The new edition bears the imprimatur of the University of Cambridge instead of being issued by a private firm of publishers as hitherto. The reputation of the 1,500 eminent specialists representing all civilized countries, who have contributed to it, confirm its status with a swiftness and a certainty not possible otherwise.

2. THE INDIA PAPER FORMAT. The work appears in a revolutionary format which renders the Encyclopædia Britannica for the first time a convenient book to hold and, therefore, agreeable to read. Printed on India paper (tough, light and thin), the same time consumed, at 8 o'clock, Dr. J. A. Amyot of the provincial board of health will give a paper entitled, "Purification of Water," with lantern illustrations. The public are cordially invited.

3. THE LOW PRICE. The third new feature is the low price. The last complete edition (the Ninth, 1875-1889) had been sold at \$7.50 a volume. The 11th Edition, on the other hand, is sold at \$4.00 a volume, a reduction of 46 per cent. The 11th Edition contains some 1,000 pages, and over 1,500,000 words, yet is sold at the same price as the last edition. It is a complete work, and the Cambridge University Press regards its sale at a low price as an indication of its character and its value.

It is a fact that in respect of cheapness no publication can be compared with the 11th Edition of the Encyclopædia Britannica at the present price.

M'GILL FUND \$1,526,000. MONTREAL, Nov. 24.—McGill University's five-day whirlwind campaign which opened Monday morning, closed this evening with \$1,526,955 collected, and the financial standing of the institution, for a time at least, is assured. With nearly \$270,000 to collect to reach the fifteen hundred thousand dollar mark, this morning the committee set out with renewed zeal, and when the final results were announced late this evening, it was seen that the safe margin and a half mark had been safely passed. Included in the total were three subscriptions of \$100,000 from Dr. James Douglas, Robert Reford and the Birks family.

Why Not Spend the Winter in California? Attractive rates will be quoted by variable routes, affording finest scenery.

The Los Angeles Limited, leaving Chicago daily, for Los Angeles, California, the San Francisco Overland Limited, leaving Chicago daily 8.30 p.m., provide the best of everything in railway travel.

The China and Japan Mail leaves Chicago 10.45 p.m. daily for San Francisco and Los Angeles.

Illustrated literature on application to B. H. Bennett, General Agent, Chicago, and North Western Ry., 46 Yonge St., Toronto.

Chaplain Farrar Still Missing. MONTREAL, Nov. 24.—If the Rev. Frederick Farrar, whose appointment as chaplain to the King has been canceled, is on his way to Canada, and probably Montreal, according to reports from England, the only boat he could have sailed on would be the steamship Victorian of the Allan Line, which sailed to-day from Liverpool.

Wingham Passes Bylaw. This is no farar on the passenger list, and while he may be on board under an assumed name, no effort is being made to ascertain this.

Kind of Uncle Sam. WASHINGTON, Nov. 24.—As a safeguard against the introduction of the foot and mouth disease into the United States, consignments to create a new building and install a new plant. The company will employ 500 workmen.

Kind of Uncle Sam. WASHINGTON, Nov. 24.—As a safeguard against the introduction of the foot and mouth disease into the United States, consignments to create a new building and install a new plant. The company will employ 500 workmen.

# To Quickly Gain A New Complexion

(American Family Journal).

The quickest way to get rid of a bad complexion is by the use of ordinary drug store, just spread the wax over your face at night in the same way you would use cold cream, and the beautifying work begins at once. Next morning when you wash this off, the particles of the old, worn-out skin are taken off with it. The following day more of the dead surface skin comes off, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion. The fresh, bright, healthy-hued skin underneath furnishes your new complexion. No process has yet been discovered that will give a woman such a rarely beautiful and youthful skin, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion. The fresh, bright, healthy-hued skin underneath furnishes your new complexion. No process has yet been discovered that will give a woman such a rarely beautiful and youthful skin, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion. The fresh, bright, healthy-hued skin underneath furnishes your new complexion. No process has yet been discovered that will give a woman such a rarely beautiful and youthful skin, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion. The fresh, bright, healthy-hued skin underneath furnishes your new complexion. No process has yet been discovered that will give a woman such a rarely beautiful and youthful skin, and so on until soon you have entirely discarded the faded, sallow, blotchy or muddy complexion. The fresh, bright, healthy-hued skin underneath furnishes your new complexion.
