

VENEREAL DISEASE RATED WORSE THAN DREADED SMALLPOX

Dr. Forbes Godfrey Tells
Legislature Sooner It Is
Realized the Better.

YESTERDAY'S DEBATE Number of Bills Introduced and Third Readings Given Others.

Discussion in the legislature centered chiefly upon the government's venereal disease bill yesterday when the question of compulsory treatment came up and a clause respecting the sale of patent medicines by druggists. It was thought that examination should be required of persons held in custody for any reason, but the leader of the opposition argued that only those having the infectious disease should be obliged to submit. Further discussion was aroused over the question of selling preparations without a doctor's prescription and this matter was left over without a decision being reached.

Sir William Hearst introduced legislation for the cultivation of vacant lots, having in view greater production this coming season. He explained that the purpose was to give permission to societies and others who desire to put idle property to use for growing more food.

A number of bills were introduced and third readings were given others. George S. Henry's bill to amend the assessment act was withdrawn at the request of the prime minister, and with some before the special committee to be appointed for the purpose of making up the whole matter of assessment reform.

Committee Adopts HOG-RAISING PLAN

Board of Works Approves
Sub-Committee's Scheme
on Garbage Disposal.

Adopting the report of the sub-committee on garbage disposal, the board of works yesterday recommended to the board of control that the city enter into the hog raising business at the jail farm, that the present herd of 100 hogs be increased to 500 by June 1, and that the hogs be fed on garbage to be collected from the northern part of the city and taken to the jail farm by motor.

NEWS STAND UP AGAIN

Deputation Pleads in Vain
for Dundas Bridge Roadway Reconstruction.

Adopting the report of the sub-committee on garbage disposal, the board of works yesterday recommended to the board of control that the city enter into the hog raising business at the jail farm, that the present herd of 100 hogs be increased to 500 by June 1, and that the hogs be fed on garbage to be collected from the northern part of the city and taken to the jail farm by motor.

SECTIONMAN KILLED.

Two Others Injured When Struck by a Train.

K. Duclacque, a sectionman in the employ of the Grand Trunk Railway, was fatally injured and Sectionmen Dominic Silekette and R. De Giuseppe were badly injured when they were struck by a westbound train composed of the Partridge Car and a passenger car at the Dundas station yesterday morning.

NINE HOG PERMITS GRANTED.

Of 24 applications received by the department of public health from citizens who want to raise hogs in their back yards, nine have been granted. The others were refused because the buildings in which the hogs were to be kept were not at least 100 feet away from the nearest dwelling house.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts if Your
Back Hurts or Bladder
Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

MACHINE ALLEGED DEFECTIVE.

John Wettlaufer, of Wettlaufer Bros. Ltd., manufacturers of concrete machinery, with offices on Spadina avenue, is suing R. Gardiner, engineer, for damages in relation to a concrete mixer alleged to have been sold by the latter to Wettlaufer, and which Wettlaufer claims to be defective. The case was tried before Judge Denton yesterday and will be resumed on Tuesday next.

TWO BOYS AND A GIRL.

Triplets were born to Mr. and Mrs. S. Shusterman, 419 West Dundas street, last night. Two boys, each weighing five pounds, and a girl of four pounds, are now added to a family of three children aged 13, 7 and 1½ years. Dr. C. Brown, of Patrick street, states that babies and mother are doing very well.

RECEPTION FOR "FIRSTS."

Mayor Church has taken up with the military authorities the question of giving a reception to the members of the original Canadian first contingent, who are expected home shortly, on their return from the front.

DWELLING HOUSES GOING UP.

Plans have been completed, it is said, for the erection of 100 houses in the Oakwood district, to be built as soon as the weather permits. The houses will be detached dwellings of moderate cost.

The Safest Matches in the World

Also the Cheapest
are

EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

MUNICIPALITIES TO COMMANDEER LAND

Bill May Be Introduced in the
Legislature Granting
Such Power.

WHEAT IS BEING FED

Dr. Creelman Believes Price
Should Be Raised to
Stop It.

How the farmers may best be helped in the matter of labor supply this summer in order that there may be a record crop in Ontario was the subject discussed at a meeting of the agricultural committee at the parliament buildings yesterday. Dr. G. C. Creelman, commissioner of agriculture, gave an exceedingly interesting address. The department was trying to help the farmers meet the demands of the allies, he said. The farmers were tired of hearing lectures and wanted something more practical.

Figures were quoted showing that the United States was 45,000,000 bushels of wheat behind the amount promised and that at one time France only had three days' supply ahead.

Feed was so short here, he declared, that farmers were feeding pigs wheat worth \$2.20 a bushel, and it was the cheapest grain on the market at that. Inasmuch as that wheat was needed for bread, he believed the price should be raised.

Sir William Hearst, minister of agriculture, said some municipalities were buying a tractor and putting it to plowing up vacant land. He announced that a bill would be introduced in the legislature permitting municipalities to use private land without the consent of the owners.

In regard to the supply of seed, Dr. Creelman stated that the government was following the policy laid down last year by loaning money to buy it. He said many city men were expected to develop a portion of the summer to helping the farmers, and that especially was this true of munition workers who were beginning to feel the effects of long periods of indoor work.

ORDERLIES REMANDED.

Two Soldiers Who Removed Gunner
Neals Appear in Court.

Corporal R. G. Hammond and Private G. S. Herring, the two orderlies who were arrested on a charge of manslaughter following the conclusion of the Neals inquest, were allowed out yesterday on bail of \$2000 each. The crown attorney refused to allow the men out on their own bail. A plea of not guilty was entered on their behalf and they were remanded for a week. Defending counsel elected to go before a jury.

Major General Logie and Lieutenant Colonel Macdonald, judge advocates, waited upon Hon. B. Lucas, attorney-general, at the parliament buildings yesterday, in regard to the permanent removal of the Neals. It is understood representations were made that the case was one for military and not civil law and that Hon. Mr. Lucas said he would consider that aspect of it.

SECTIONMAN KILLED.

Two Others Injured When Struck by a Train.

K. Duclacque, a sectionman in the employ of the Grand Trunk Railway, was fatally injured and Sectionmen Dominic Silekette and R. De Giuseppe were badly injured when they were struck by a westbound train composed of the Partridge Car and a passenger car at the Dundas station yesterday morning.

WAR ADVERTISING, SPEAKER'S SUBJECT

Newspaper Space Placed as
Great Civilizing Agent
of World.

W. E. Smallfield, of the Canadian Press Association, gave an address before the Toronto Ad Club last night in the Y. M. C. A. on "Newspaper Advertising in Relation to the War." He placed newspaper advertising along with the railroads and the banks as the great civilizing agents of the world.

Mr. Smallfield spoke of the terrible panic that was on the verge of breaking out in the business world after war was declared, and was averted by the "optimism advertising" done by the Canadian Press Association. This advertising kept up the heart of the business men of Canada until normal conditions were resumed. The remarkable effect of this advertising was recognized by the government and mentioned on a poster issued by the United States a little later. At this time the apple crop was ripe and ready for picking, and the orders from the army and navy were cancelled by every mail. What was to be done? Mr. Smallfield told how John Innes went to the government and interested Sir George E. Foster and Hon. Martin Burrell in the matter of advertising. He told them what California had done in a like crisis, and as a result the army and navy had a crop of advertising. Daily papers across the continent advised the people to use apples. Recipe books were offered showing 200 ways to use apples. By the time the apple advertising was finished there had been in the United States a little later. At this time the apple crop was ripe and ready for picking, and the orders from the army and navy were cancelled by every mail. What was to be done? Mr. Smallfield told how John Innes went to the government and interested Sir George E. Foster and Hon. Martin Burrell in the matter of advertising. He told them what California had done in a like crisis, and as a result the army and navy had a crop of advertising. Daily papers across the continent advised the people to use apples. Recipe books were offered showing 200 ways to use apples. By the time the apple advertising was finished there had been in the United States a little later. At this time the apple crop was ripe and ready for picking, and the orders from the army and navy were cancelled by every mail. What was to be done? Mr. Smallfield told how John Innes went to the government and interested Sir George E. Foster and Hon. Martin Burrell in the matter of advertising. He told them what California had done in a like crisis, and as a result the army and navy had a crop of advertising. Daily papers across the continent advised the people to use apples.
