

## "I Do Not Know Just What Is The Matter But I Seem To Be Losing My Grip"

"WELL, I know. You have been worrying too much until you have got your nervous system all run down."

"I could not help that. I guess you would worry, too, if you had all the troubles I have had."

"Perhaps. But I think I have learned a lesson. Worrying does not get you anywhere."

"Well, what am I to do?"

"If you will take my advice you will use Dr. Chase's Nerve Food. That is what got my nervous system right when I had that breakdown a couple of years ago, and I have been taking it up ever since."

"How will it benefit me?"

"It will restore vigor to your nervous system. The trouble is now that your nerve force is at such a low ebb that your vital organs are slow and weak in action. You do not get the good of the food you eat, and for this reason you have no chance of gaining strength and vitality."

"But how long will I have to take this treatment?"

"If you could take a rest it would help, some, but mark my words you will not be using the Nerve Food more than a week or two before you begin to see the benefits, and then you will not need me to encourage you in its use."

"I think I will follow your advice, for judging from what you say the Nerve Food is exactly what I need."

"You will not be sorry, for I have recommended it to scores of men in just such condition as you are to-day, and I know just what it will do."

"Thank you, old man, I only hope it will give me such energy and vitality as you have."

"It certainly will if you give it a fair chance."

## COMMONS COMMITTEE AMENDS RAILWAY ACT

Reinserts Clause Giving Railway Board Jurisdiction in Certain Cases.

Ottawa, April 23.—A question of the possibility of serious infringement of provincial rights was cleared this morning by the special committee of the commons, which is dealing with the new consolidated railway act. The difficulty arises out of the action of the senate in striking out of the bill a clause containing the general provision that when a railway operating under a provincial charter is taken over by a company with a federal franchise, it comes immediately under the jurisdiction of the railway board.

Mr. Carvell declared the clause should be adopted. He believed that any road which becomes a part of a general railway system should come under the jurisdiction of the railway board.

The motion that the clause should be reinserted in the bill was then adopted on a vote of 12 to 2. Mr. Lemieux and Mr. Casgrain were the members of the committee who voted "nay."

Mr. Butler, assistant city solicitor, Montreal, urged the adoption of an

amendment providing that the erection of poles by telephone companies on city streets must be authorized by municipal bylaw, or by a resolution of the city council. The committee decided that the legal consent of the municipality concerned must be secured. When the committee met it was decided that the representatives of the Toronto board of trade would be heard on Friday, May 2, instead of tomorrow.

## STORKS HAVE FOUND OUT THAT THE WAR IS OVER

Strasbourg, April 23.—Storks, which ceased their annual visits to Strasbourg in the spring of 1914, returned this week to the old nests on a building on the left side of the Place de Broglie, in the centre of Strasbourg. Several storks, the first in five years, now occupy the nests. The unexpected return in the present circumstances is commented upon with pleasure by the native population, who have always held that the storks brought good luck. The building to which the storks returned is next door to the house in which on April 25, 1912, Rouget de Lisle first sang the "Marseillaise." The Bank of France recently has established its offices in the building with the stork nests. Before the war the storks of Strasbourg brought many tourists here.

Sherbrooke.—Seriously burned in a gasoline explosion on Tuesday evening at Lake Megantic, Mr. and Mrs. H. Bousquet of that town died as the result of the accident.

## TO CONSIDER FUTURE OF CANADIAN MILITIA

Special Federal Committee Will Recommend Course for Canada.

Ottawa, April 23.—A special committee is being appointed by the militia department to consider and report on the future of the Canadian militia. General Sir William Otter will be chairman and other members will include a large representation of officers from overseas, when available, officers of old militia units, and the permanent and non-permanent forces.

The problem to be dealt with on the one hand is to preserve the identity of overseas units, and at the same time to maintain the traditions of the militia units. The commission will visit different centres and recommend as to what of the old system will be perpetuated and what will go to the wall.

## RUSSIANS AMBUSHED BY CORPS OF "REDS"

By W. E. Playfair.  
Krasnoyarsk, Siberia (via Vladivostok), April 22.—Fighting proceeds daily east of here in the vicinity of Talshe and Yurd, with a corps of Bolsheviks endeavoring to cut the railway line. The enemy ambushed a force of 200 Russians last Thursday, and but eighty men returned to their base.  
The trails leading to the Bolshevik villages are commanded by machine-gun nests, and the Russians cannot advance in the deep snow thru the woods. The railway line is strongly held by Serbs and Czechs with field guns.  
Owing to the heavy weather and deep snow the military situation may not be cleared up until summer.  
Colonel Brook, assistant adjutant-general, is proceeding to Vladivostok, after arranging for the withdrawal of Canadian details in the interior. Only hospital details are left at Omsk.

## PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.
