# FRIDAY MORNING LAND OF

**FURS** 

This is a country of distances, of good wheat and rare furs. Of these latter we wish to speak.

Our agents are in clese touch with the trappers of northern Canada and with the seal fishers of the Pacific Ocean.

Our factory to which these pelts are sent direct, is without question the most complete on the continent.

For this year it has been further equipped with new machinery. Also the staff of furrierartists has been doubled. So that even in the busy season your order will be filled promptly.

But there is wisdom in putting in your order to day, because of the wider choice of skins and the time we will be able to devote to your demands. Visitors should call at our big show rooms.

KNEW BUILDING WOULD FALL.

Workmen Saw Pillars of Earth. Crumbling and Rushed to Safety. Albany, N.Y., Aug. 24 .- The coroner's examination of workmen who were digging a cellar under the Myers department store at the time of its collapse two weeks ago, has shown that the men were warned of the approach

ing disaster for nearly an hour before structure fell and crushed the life out of 13 persons. John Mitchelf, the foreman employ ed by the contractor, said that when he arrived the morning of Aug. 8, the first thing that attracted his attention

was that a large piece of earth had fallen from pier No. 8, and that one-half hour before the crash came, he and others saw that pier No. 9 had begun crumbling and that for that half hour the crumbling continued while the whole force of men were kept working at pier No. 8 with a desperation born of the knowledge that the safety of the building depended upon get-

fing it shored up in time. Five minutes before the crash came the superintendent of the job left the gang in the cellar, saying he was go-

### Score's Sale!

We would not give out good things or say "sale" unless we were sure we had something really worth talking about.

That, in part, may account for the enthusiastic response to yesterday's story of our reduced prices.

This morning we are straightened up again, and are ready for any man who wants a Summer, Fall or Winter Suit, and wants to save money on it.

Made by Score, of course. Enough said.
