HERESY OF FAITH CURES.

Christian Scientists Denounced at London Diocesan Conference.

Christian Scientists were emphatically lenounced during an interesting discussion initiated by Archdeacon Sinclair at the London diocesan conference

The discussion arose on a resolution addressed to moved by the archdeacon, and carried, in the to!lowing terms:

"That this conference, while emphasizing the power of faith in healing, views the main outline of the teaching and attitude of Christian Scientists as and attitude of Christian Scientists as ripe they are very digestible. It is only antagonistic both to Christianity and when they are eaten when partly green,

sho pain, no sin, and that matter is severe case of dysentery cured by a few doses of this simple remedy, when doctor's medicine failed. It is as good for adults, using a larger dose.

M. C. WILKINSON, Chairman of Committee.

Sec.-Treasure had advised to see a Christian Scientist. She did so, but said to the Scientist. There is one condition which I must impose before I allow you to treat me. What is that? said the Scientist state of the second stream of

treat me.' What is that?' said the Scientist. That you let me put a pinch of cayenne pepper in your right eye first.' Needless to say, my friend was not treated.

Faith will not cook our food, cleanse our rooms, provide sanitation. The works necessary to faith in illness are the accumulated experience and skill of the physician, surgeon and nurse. Faith, when used properly, can work wonders, when used properly, can work wonders, but I warn all against the babblings of professors of Christian Science, false-should tan stockings be used with any

that there is no pain. My friend could not resist a temptation; he had a pin and inserted it. The healer collapsed, and inserted it. The healer collapsed, the state of the collapsed in the and the Christian Scientists left the

room in confusion."

The Bishop of London repeated his description of Christian Science as "a gigantic heresy," which had, however, brought to light several truths.

"The first truth," said the bishop, "is

Honey as Food.

a long list of ills. When sugar is taken decorated with silk flower into the stomach it cannot be assimilated effect being particularly until first changed by digestion into grape sugar. Only too often the overtaxed stom-ach fails properly to perform this digestion and then come sour stomach and virious phases of indigestion and dyspersia. In the laboratory of the hive the faintly tinted to match. opalescent shades, the flowers are sia. In the laboratory of the hive the sia. In the laboratory of the hive the sia. In the laboratory of the hive the sian in the laboratory of the hive the sian. In the laboratory of the hive the saintly tinted to match.

"Rainbow" boas are very pretty and light tulle of three or four colorings— sin. In the laboratory of the hive the saintly tinted to match.

"Rainbow" boas are very pretty and light tulle of three or four colorings— sin. In the laboratory of the hive the saintly tinted to match.

"Rainbow" boas are very pretty and light tulle of three or four colorings— sin. It tulle of three or four colorings— says that "in the ating honey the directive machinery is saved work, and health is maintained.

Moreover, the same report says that "in many cases it will be a real economy to lessen the butter bill by letting honey in lessen the butter bill by letting honey in gathered tulle with raw edges finished with chenile spots in two or three colorings— says well as black and white are suggestive of particular charm and suggestive of particular charm and daintiness.

Meats, Not Meals.

Opalescent shades, the flowers are cicty of the Presbyterian Church in Canada, have had to resign on account of the hard work. Their places will be fulled by Mrs. Dyas, a lady from Aber sexamers for all ports on lakes. This wetamers for all ports on lakes. This sexamers for all ports on lakes. This wetamers for all ports o persons of all ages a pleasant and wholesoem drink is called 'German houey tea.'
This is made by pouring a teacupful of ot water on from one to two teaspoonfuls

For Dominion Day Outings

Word "meat," the sentence read, "leave Gertrude Minhinick of London, Ont., lington, special train will run leaving Special rate of single fare for round off meals, save once a day and preferand Frank Williams of Napanee was Toronto at 4.45 p. m. Saturday, June For Dominion Day Outings trip will be in effect. Good going all ably use them cold." trains June 29. 30, July 1, and 2. turning until July 3. Between all stations. Secure tickets at Grand Trunk City Ticket Office, northwest corner King and Yonge-streets.

For the table, get WINDSOR TABLE SALT. Every grain a perfect crystal. Absolutely pure, clean and never cakes.

Care of the Refrigerator. At this time of the year vigilant attention should be given to the refrigerator. Many otherwise careful house-keepers neglect this precaution. It should be cleaned at least once a week, as food will not keep pure and good in a carelessly kept refrigerator. Besides, such a place affords a fertile breeding soil for bacteria of every kind, and where such conditions exist serious diseases are apt to follow the eating of food that was stored amid them.

The shelves and wails of the refri-

The shelves and walls of the refri-gerator should be cleansed out every couple of days with a damp cloth and then rubbed dry with a coarse towel. Once a week the entire inside should be Specials in Washing Fabrics at 10c, 12½c, 15c and 20c

Shaped Gowns
in embroidered lawn and linen, also in black and white net, lace and embroidery.

Once a week the entire inside should be thoroly scoured with sapollo and then well aired. The waste pipe should be kept scrupulously clean by pouring into it scalding water in which has been dissolved a piece of washing soda. Allow a cold stream of water to follow this.

The waste pipe should not, under any circumstances, connect with a main drain pipe, as the food in the box will absorb the poisonous gases that such a pipe contains, and will become unfit for use, if not actually dangerous.

Charcoal is invaluable in a refrigerator. Many of the refrigerators of the

tor. Many of the refrigerators of to-day are provided with this substance, Shawls and Travel Rugs

Real Shetland, Honeycomb and Fancy Knit Wool Boating Shawls, in conjunction with which we make a great display of Wool Traveling Rugs with very special values at \$3, \$4 and \$5 each. In this connection are also displayed the very handsome designs of the Scottish Clan and Family Tartans, in both Wrap Shawls and Rugs.

Hiandkerchief Specials

Ladies' H. S. linen, 90c a dozen.
Ladies' H. S. linen (initial), \$1,25 dozen.
Irish, lace-trimmed (sheer linen centres), regular \$3 each, now for \$2 each.

Mall orders carefully filled.

CATTO 2. Control of the refrigerators of the refrigerators of the substance, but when this is not the case, a saucer of charcoal powder should be placed on the upper shelf. It will absorb all unpleasant odors and assist in keeping the air pure. It should be renewed every four days.

Butter, milk and all those foods which do not possess odors, should be placed on the lower shelf, and those with marked odors, on the top shelves. Foods with very strong odors, however, should not be allowed a place in the refrigerator.

When ordering ice for the refrigerator it is advisable to order as large a piece as the box will hold. A large piece, taken every second day, will last lover.

piece, taken every second day, will last longer and give better results in lowered temperature than a small piece placed in every day.

which you know to be pure, never put it into liquid you are serving. The germs in ice are in a resting stage, but will revive when they enter a favorable temperature, as the tempera-ture of the body.

Note.-The editor of the Woman's Department will willingly answer any questions relating to the household or other woman's interests, letters to

Correspondence Column, Woman's Department, The World A Reader: When bananas are really

and but half masticated, that they are "I here is just one good thing about indigestible.

Christian Science, and that is it insists very strongly on the power of complaint mix a tablespoonful of flour the archdeacon remarked, "That in three-quarters of a cupful of sweet is the really essential part of Christi- cream and give it to the baby a teaanity, and it has been somewhat ne-gletted in the church's teaching.

"Christian Scientists hold that there the attack be slight. I have known a is no pain, no sin, and that matter is severe case of dysentery cured by a

ly so called."

Lord Halifax characterized Christian
Science as an anti-Christian delusion.

"A friend of mine." he added, "was at Christian Science are time where a commencial with any doubt regarding the evil of high heels, the only question is the degree.

Some women claim that if only worm are the commencial where a commencial women weeking where a commencial women claim that if only worm are the commencial women women claim that if only worm are the commencial women women claim that if only worm are the commencial women while the word women at a Christian Science meeting where a once in a while they are not injurious, healer was holding forth on the theme that there is no pain. My friend could there is the added danger of going over

Boas and Accessories

All manner of novelties have arisen the influence of mind over matter. Then we must admit the sacredness of the healing art which has been so much left out of use in modern times."

The first truth," said the bishop, "is the ostric feather boa will true the sacredness of the season, while a mixture of marabout and tulle represents a very charming compromise for limited means, and the of the work which is under the general

Excessive use of sugar brings in its train white tulle, the points of which are Church. decorated with silk flower petals, the light and graceful.
