Considerable mystery surrounds the tatement made by the defence in the late Perkins trial at Cayuga that, at the exhuming of the body a few days ago, the kidneys of Henry Perkins were found in the body.

Dr. Bauer, who conducted the post nortem, declared that he had sent both he first left them in the body because he had nothing to place them in, and Drs. Spider and Arrell saw him put then back. He afterwards sent them to the analyst. As to the liver, he did not take it, and he thinks it must

have been removed by the person who sewed up the body. A. K. Goodman, one of the lawyers associated in the defence, passed thru the city this morning. He had the kidneys with him and was taking them e Toronto for analysis. Altho Dr. Snider was present at the exhumation he would not state positively to-day that the kidneys were found in the body.
