25, 40, 50 and 60c.

"One Touch of Nature." Her part, however, before leaving America England was the title role of "Sister cy" in New York.

To yourney to England and joining the spany of Sir Henry Irving is also too I known to require mention. In this anization she appeared as Rosemond in Beckett," Elaine in "King Arthur," hia in "Ollvia," Queen Anne to Sir ory's "Richard the Third." Imogen in mbelline," Rosabel in "Godfrey and ande," and the Princess Elicia in "Mane Sans Gene."

The Carman Opera House at Belleville as been closed for the season, and Malaries P. McKay, the manager, leaves for the Pacific coast to-day.

> Research, Waterworks, York - Street Bridge and Technical Topics-Report

the practical equipment of our land sur tion present in the "Glory Hole" was A. R. Code of Alvinston, who for want of betmused. But at 10.30 a fair representation

President Jones, even more sturdy-looking than The World has pictured him, called for the report of the Committee on Engi-

Engineering in 1897.

Mr. A. W. Campbell read the report. He said the past year had brought forth a number of important engineering works and numerous developments in science. The which has been doing such credit- way from Glenora on the Stikine River to ble work in the study of literature during Lake Teslin, in order to open up the Klor the winter months, gave a very delightful dike. In Ontario there was the possibility dance in the great hall of the Temple of a rallway being built from a point on Building last night, to which many guests the C.P.R. north to James Bay. These were bidden. The baliroom was beautiful works would develop the mines and other with its many softly-shaded lights studding the ceiling and elaborate decorations important engineering schemes of the year of flags and festoons of bunting. Glionna's was mentioned the exploitation of water-

ding the ceiling and elaborate decorations of flags and festoons of busting. Gilonna's orchestra furnished music for the tireless feet of the merry dancers, and an altogeths of the merry dancers and an altogeths of the merry dancers, and an altogeths of the merry dancers and an altogeths of the merry dancers and an altogeths of the merry dancers and altogeths of the merry dancers and altogeths of the content of the merry dancers and altogeths of the merry dancers and altogeths of the content of the section of the merry dancers and an altogeth of the cold vactoria tubular brudge. On the C.J. K. spans of scope and nothing new to offer. In bridge construction cannot have a defended to offer. In bridge construction content and mass and cooling drives of the cold vactoria tubular brudge. On the C.J. K. spans of scope and nothing new to offer. In bridge construction content of the spans of the spans of the cold vactoria tubular brudge. On the C.J. K. spans of scope and nothing new toner, and danty and Laching new targethal date. In bridge construction content t

Sudbury Waterworks.

S. V. Rorke's paper upon "Sudbury Waterworks," was read by D. D. James, Sudbury became a town two years ago; it now has 2000 inhabitants. Wells are scarce in town, the water flowing through the town not being drinkable, and water was worth 25 cents a barrel, hence the waterworks system was readely decided upon. Lake Ramsay, about three-quarters of a mile from town, was used as the source of supply. A steel tower 80 feet high holds the water drawn off the lake. Thus extremely high pressure is obtained. The total cost of this up-to-date system was about \$45,000.

Prof. C. H. McLeod, M.E., Chief Astronomer of McGill University, secretary of the Canadian Society of Civil Engineers, was present, and said a few words at the request of the president. He was delighted to be present to hear the able papers read, He combined pleasure with business on this visit, for he was there to put on foot a project by which the Ontario Government would incorporate the society he represented. He thanked the members for their kind welcome.

interesting discussion relative to the extension of the work of the order throughout the Dominion took place. Reports from various officers were received and passed. The increase of the membership of the order, together with the splendid showing of surplus, was a matter of congratulation.

Stone's Hotel, Queen-street east, was entered by thieves Monday night, and a gold watch and chain and a small sum of money were carried away.

M. J. Butler, Napanee, read a paper up on the "Principles of Evidence." This is a subject upon which intending surveyors are examined. He edined the work of a large costly and more efficient methods. The Worcester plant cost \$25,000 a year.

M. J. Butler, Napanee, read a paper up on the "Principles of Evidence." This is a subject upon which intending surveyors are examined. He edined the delined the meaning of the 'tile. Actual knowledge of the fact was needed for absolute evidence. He liustrated the different kinds of evidence, in a purely technical manner. "The object of evidence is to ascertain the truth between the parties to the cause." This paper showed considerable erudition and legal acumen, and will prove profitable reading for students of the School of Science.
