The trouble is that, like so many of use who work for our daily bread, the patient has not the funds laid by for this course, and her-people, unfortunately, are dependent upon her. The appeal that was mide thru the press of Toronto has not met with that generous response that was more effort, and it will be to our everlasting discredit of the money is not raised. Evidently Toronto's rich folk, to whom the sum asked for would be but a drop in the ocean of their wealth, are hopeless. Toronto's moneyed "smart set" are too deeply ergaged in suppers and functions to give heed. They have passed by on the other side, but what of Toronto's course, side, but what of Toronto's rich collow the example of the Samaritan of tollow the example of the Samaritan of iold—to help a neighbor who has fallen among evil days—to send her "to the laming evil days—to send her "to the among evil days—to send her "to the laming evil days—to send her "to the finn," to provide the necessary, "oll and wine," and to, leave "the two pence" in advance so that the patient be wholly cured before leaving, and ready to resume her work at the end of the time? Surely this were a wholly beautiful deed—all treads and series combining to contribute.

SWEET AND LOW.

this were a wholly beautiful deed—all creeds and sects combining to contribute to a collection on the same Sun
Sweet and low, sweet and low, day morning, each Samaritan giving his or her little bit of silver, till the necessary sum, with a bit over, is raised. And not in the spirit of so-called charity either—but just to do a neighborly act, remembering that evil days may come to any of us, and that it is no special vittue to give a healing hand, but selects.

Custom has imposed the use of the boister and the pillow, but it does not, of necessity, follow that these are advantages or conducive to sound sleep. Physiologically we are entitled to entertain a doubt, seeing that physiologists are still unable to state authoritatively whether the brain in sleep is congested or anaemic. The general experience is that the lower the head the deeper is the sleep, and Custom has imposed the use of the bol- Father will come to

would result from even a very thick bolster. On the whole it would seem that in order to obtain sleep deep and reposeful as possible, we ought to aim it having the head as low as is consistent/ with actual comfort. To submit to actual discemfort in view of a problematical and much-disputed advantage is not an experiment that will commend itself to the majority of mankind.
