HUNS ROUTED IN CAUCASUS BY RUSSIANS

Germans and Turks Meet Heavy Defeat At Hands of Muscovites In Big Battle In Asia Minor.

London, June 5.—A big battle was fought in the Kars district of trans-Caucasia of May 24, resulting in favor of the Russians, the Exchange Telegraph correspondent at Moscow wires. The Turks and the Germans are retiring along the Ardahan road, and the population is being massacred, the dispatch declares.

WOULD HELP RUSSIANS

London, June 5.—The Chronicle publishes an editorial strongly advocating some kind of Allied military intervention in Russia, as a rallying point for Russians in resisting German penetration.

"It is the business of the Allies," says the Chronicle, "while preserving and protecting the rights of the Russian peoples, substantially to work out their military destiny, to supply them, nevertheless, with a practical alternative to the nightmare conditions under which they are now living."

"As it is desirable that a direct clash between the Allies and the Germans in Russia should not occur early, but rather that the Allies' military forces should become the nucleus of a Russian force which, when strong enough, could be the nucleus of a Russian force in its own country, there is a deal to be said for beginning in areas remote from Germany's main front."

"For these reasons the Chronicle favors Siberia, and concludes: 'But just because the project is not for a hasty or short-lived campaign, time is pressing, it needs to be taken in hand without further delay.'"

STAKING THE GAME ON U. S., CLEMENCEAU TELLS THE CHAMBER

"Hour is Perilous, But American Legions Are Arriving."

DEPUTIES CHEER ARMY

When Premier Tells of Heroic Fight Against Tremendous Odds.

Paris, June 5.—Premier Clemenceau gained another victory over his opponents in the Chamber yesterday by a large crowd which packed the Chamber to its capacity. Every deputy was in his seat.

The premier argued that this was not the time to discuss military operations, and the deputies seemed to be in some what stormy session. Cool and collected as he walked back and forth on the wide tribune while a storm of interruptions from the Socialists surged up from the House, the veteran leader assembled a weather-beaten captain leading the bridge of his ship, lashed by heavy gale. The premier spoke with bitterness and when referring to the sight he had seen at the front recently his voice assumed a tone of intense sadness.

Speaker Deschamps seemed powerless to quell the Socialist uproar.

Premier Remains Calm. The premier calmly rebuffed the Socialist attacks and surveyed the Socialist benches earnestly and patiently. When the interruptions died he resumed his speech, descended from the tribune, apparently feeling not to continue the success in quieting somewhat the exuberance of his Socialist colleagues, the most active of whom were Deputies Laffitte-Dugues and Deguise.

Premier Clemenceau resumed the tribune after Cahin's speech and prolonged the French and allied armies, saying that the soldiers had fought one against five and sometimes one against ten.

"Our duty is very simple," the premier said. "Our resolve must be to carry on the fight to the end and the victory."

NO ADVANCE IN RATES OF GOVT. INSURANCE THROUGH SUB RAID

Washington, June 5.—Submarine danger is not sufficient at this time to justify advances in Government marine insurance rates, the treasury is advised today. The rates on life insurance for officers and crew of merchant ships engaged in traffic through the zone were reduced today from 25 cents to 15 cents per \$100, as recomended before the submarine attacks off the Atlantic coast.

WILL NOT NEGOTIATE WITH GERMAN LABOR

London, June 5.—Via Reuters.—"We are willing to converse, but not to negotiate with German labor," says Arthur Henderson, labor leader in the House of Commons in a statement referring to an announcement made by Chester M. Wright, a member of the American Labor Union who visited England, which implied that the policy of Mr. Henderson and his party had been radically modified, especially regarding the question of a conference between the Allied and German workers.

He said there would be neither compromise with German labor nor Central Powers militaristic and imperialistic policies, and that they would not support any conference with the object of negotiating peace.

SUBS PREVENT CALLS FOR AID VIA WIRELESS

Threaten to Shoot if Operators Send Out S.O.S. Signal.

ANOTHER VESSEL GONE

Mine Picked Up Off New Jersey Coast—Many Survivors Landed.

Leves, Del., June 5.—Reports prevail here that the German submarines which raided coastwise shipping on Sunday night, June 3, picked up the Delaware Bay and the Delaware Capes. Ten miles have been picked up.

New York, June 5.—"Don't use your wireless, and we won't shoot," is the newest "made in Germany" war slogan, under which the emperor's sub-commanders are carrying their campaign of frightfulness into American waters. The latest victim of the campaign is the wireless operator, who is threatened with death if he sends out a distress signal.

With reference to the overlapping of the work of the chaplains, he said the Y. M. C. A. was doing magnificent work, but it should leave alone the work properly belonging to the chaplains. He said the difference which had arisen recently seemed to be due to the fact that the Y. M. C. A. and other organizations were conflicting with the chaplains by taking speakers on trips among the soldiers with the result that the bona fide chaplains were being placed on one side.

"I have all respect for the men of the chaplains' service," he said, "but the chaplains are not to be used for a hasty or short-lived campaign, time is pressing, it needs to be taken in hand without further delay."

There is absolutely no opposition to the chaplains' work, he said. "I can see," said Mr. Bourke, "that they are doing a magnificent work."

The resolution of appreciation of the chaplains' work was moved by Rev. S. J. Hughes and seconded by Rev. Howard Philip, was then passed.

GEDDES SAYS CALL FOR MEN IS URGENT

Many Now Being Called From Essential Industries.

London, June 5.—(Via Reuters, Limited).—There is now more urgent call for men for the fighting than ever before, said Sir Auckland Geddes, minister of national service, in an address today at Whitehall.

"The Government is now calling men from agriculture, from the munitions factories," said Sir Auckland, "and also from other vital and essential services. The call is a call to arms, and it is a call to arms."

The decision to do that was considered very grave before it was arrived at.

DR. BELAND TRYING TO SECURE RELEASE OF DAUGHTER IN BELGIUM

Quebec, June 5.—According to advice reaching friends here, the Hon. Dr. Beland is in Holland endeavoring to secure the release of his daughter, now detained in that part of Belgium occupied by the Germans.

MAY DOUSE THE GLIM ON GREAT WHITE WAY

New York, June 5.—Upon the results of photographic observations obtained by army aviators, who flew over darkened New York last night, will be determined the question of further darkening the city, as a precaution against possible German air raids, it was stated today. While the possibility of a raid by hostile aircraft is not considered, army officers said that it was "far from impossible" for German submarines, now lurking off the coast, to assemble an airplane and launch it for a raid on American cities.

ONE HUNDRED PERISH IN FRENCH EXPLOSION

Paris, June 5.—One hundred persons were killed and others injured in Monday's explosion in a war materials plant at Baussens, in Southern France, says a Havas dispatch from the city today. The list of victims, it is added, is not yet complete.

PLOW TURNS UP BODY OF 2-DAY OLD CHILD

Brantford, June 5.—While plowing on his farm near Brantford yesterday afternoon, James Bailey turned up the body of a two-days-old child, which was wrapped in cotton and newspaper.

County Constable Taylor and Coroner Burke went out to assemble an inquest and the case is now being investigated.

URGES MOONEY'S PARDON

Washington, D. C., June 5.—President Wilson has written a second letter to Governor Mitchell of California, urging the pardon of Thomas J. Mooney.

GARBAGE SYSTEM STILL SUSPENDED; GENERAL INDIGNATION IS RESULT

London's garbage collection system is still suspended. The striking collectors remain firm in their demand for \$3 a day. City Engineer Brazier says he had two or three men to start work in place of the strikers. They may start to work in the afternoon.

That the people are not getting value for their money in garbage department is generally accepted. Control of the city is generally accepted. The cost of collecting the garbage is too much," he said. "If it is the cost of the garbage, there should be a rearrangement of the cost of collecting the garbage. The cost of collecting the garbage is too much," he said. "If it is the cost of the garbage, there should be a rearrangement of the cost of collecting the garbage."

MENACE TO HEALTH OF CHILDREN IN SUSPENSION, DECLARE DOCTORS

The fact that the garbage of the city is not being collected, in the beginning of the day of the flies, is considered by all medical men as a menace to the health of the city.

Dr. H. W. Hill, medical officer of health, said that with the garbage being allowed to pile up, the principal danger is from flies. Besides, there is a strong objection to the smell. He considers that the great danger would be from the flies. He said that the flies are a menace to the health of the city. He said that the flies are a menace to the health of the city.

CONTRACTOR DECLARES MISTAKE MADE IN TAKING OVER HIS WORK

W. J. Boss, the first garbage collector in the city, who was relieved of his five-year contract in 1914, says the city certainly made a mistake in cancelling his contract. He says that he was a good worker and that he was a good worker.

Mr. Boss was collecting the garbage for \$2.50 a day for a single rate and \$3 a day for a team. Each outfit out for the morning and two in the afternoon. In other words the single loads cost the city \$2.50 a day, or one-third an average of 37 1/2¢ a load. That is what the city would have been paying for the work.

The first year was \$115 and \$115 for the month before. The principal factor in the situation however, and the one which arouses the indignation of the city, is that the day does not get the service that it pays for.

COLLECTION COSTS STEADILY JUMP SINCE CITY TOOK OVER THIS WORK

The cost of conducting London's garbage collection system has soared rapidly since it was inaugurated in 1913. At the institution of the system the collection was conducted by a contractor. It was conducted by a contractor.

The first three months of the inception of the city system showed the fallacy of such a dream. The cost of collecting the garbage for the first three months of the year 1914 was almost equal to the cost of the year 1913.

Had Mr. Boss been allowed to continue the work for the year he would have done the job for \$24,000, or \$2,000 less than it did cost.

In 1915 the city's cost dropped to \$36,454; 1916 was a little higher, \$36,544; 1917 was \$40,000; 1918 was \$40,000; 1919 was \$40,000; 1920 was \$40,000; 1921 was \$40,000; 1922 was \$40,000; 1923 was \$40,000;
