BROADER CHURCH WORK OR MERE SOCIAL CLUBS

Ribourg said in part: "The selfishness that does exist in certain Christian individuals and in certain churches is one of the most awful facts of our modern life. The church of God is a meeting place for souls, therefore a place where social distinctions are not supposed to exist. If we are going to bring together in our churches only a certain class, the people we like and the people who like the people of a similar social grade, the people of a similarly cultivated taste, we are not creating churches, but merely social clubs, thus failing to realize in our midst brotherhood of man so persistently prescribed by Christ as one of the essential requisites of His religion. Churches which in the past have been characterized by much bigotry, intolerance and spirit of caste must give place to a broader piety which will bring together Christian men of whatever name, who with charity toward all and malice toward none will cheer and help each other on the hard

"The new social order which is now coming to life thru the pangs of war consists of the establishment here on the earth of a brotherhood that shall embrace not alone the men of a nation nor of a select number among the nations of the earth, but all mankind everywhere. There can be no happiness nor perfect peace possible for the world unless this brotherhood of man becomes a reality. Then and only then, relations between labor and capital will be founded on justice, fairplay and respect of mutual interests! Relations between the seller and the buyer will be founded on integrity and commercial honor. Relations betweeen statesmen and people, between diplomats and nations will be founded on righteousness and sincertty. Never again can nations allow the secret machinations of a few to jeopardize the peace of the world."

The thrifty and conservative Scottish investors have entrusted in with many millions of pounds sterling. In the history of our city and our country there have been many "lean years," many periods of "hard times," there have been national and international crises and financial stringencies and several financial panies, but there has never been a moment's delay in returning any funds of our depositors when called for.
