To the Electors of the City and County of Saint John. GENTLEMEN.—It is my intention to offer myself as a Candidate for the seat in the Assembly vacated by the resignation of John Johnston, Esquire.

In Politics I profess to be conservative, as I believe that gradual and progressive change is preferable to sudden and violent changes.

I am aware that many Reforms in the administration of Public Affairs are needed. It will be my endeavor, if elected, to promote such Reforms in our legislation as the changes in the genius of the people and the circumstances of the times may appear to render necessary.

The expenditure of Public Revenue should, I believe, be such as to provide for the proper performance of the Public Service; and be regulated in the same way as a liberal, but prudent man would manage his private affairs; and that the strictest economy compatible with the due provision for the Public works should be observed.

I believe, Gentlemen, that the prosperity of the Province will be best promoted by the adoption of Legislation as will afford encouragement to all the different industrial pursuits in the country which, I believe, will be best done by securing our own markets to our own people. At the same time I would advocate Reciprocal Trade on fair and even terms.

I am also of opinion that the Legislature should undertake such Public Improvements as are calculated to develop the resources of the country—to promote its industries and extend its commerce.

I am not aware of the existence of any distinct parties; and I shall therefore, if elected, support any measure which I may conceive to be beneficial to the country; and oppose any I may think injurious, irrespective of the quarter from which it may emanate.

I am, Gentlemen, Your obedient servant. G. G. GILBERT, Jr. St. John, July 7, 1852.
