A Beauty Hint

For coarse textured skins. F the delicate pores of your skin have become enlarged and clogged, it is because of cleansing methods unsuited to your skin. You can restore them to their normal healthy condition and rebuild a smooth-textured skin by persistent use of the following Woodbury treatment.

Dip your washcloth in very warm water and hold it to your face. Now take the cake of Woodbury's Facial Soap, dip it in water and rub the cake itself over your skin. Leave the slight coating of soap on for a few minutes until the skin feels drawn and dry. Then dampen the skin and rub the soap in gently with an upward and outward motion. Rinse the face thoroughly, first in tepid water, then in cold. Finish by rubbing the face for a few moments with a piece of ice. Always dry carefully.

Use this treatment persistently for ten days and your skin will show a marked improvement—a promise of that greater smoothness and finer texture which the steady use of Woodbury's always brings.

A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Get a cake today. It is made in Canada and is for sale by Canadian druggists from coast to coast.
