**LOCAL NEWS**  
**AGED MAN HAS LEG CUT OFF BY ELEVATOR**  
 Matthew O'Connell, About 70 Years, Victim of Shocking Accident and Critically Ill in Hospital.  
 Matthew O'Connell, aged about seventy, of Prince Edward street, is in a critical condition in the General Public Hospital as a result of an accident sustained in the wholesale warehouse of Waterbury & Rising, Ltd., this morning about eight o'clock, when his left leg was severed near the hip by part of the machinery of the freight elevator there. He was found at a few minutes past eight by Horace Emery, who is in charge of the warehouse, lying near the elevator with his leg cut off and with blood on the floor near. The ambulance was called and took him to the hospital, where he is being attended by Dr. L. M. Curren.  
 Mr. Emery went to work this morning at about five minutes to eight o'clock, and went down on the elevator from the main floor, leaving the elevator at the foot of the shaft. On returning a minute or two later he found that the elevator had been raised, and he heard groaning from the floor above. Fearing that someone had been caught in the machinery and that he would make matters worse by touching the control ropes, he ran across to a small coal window on the second floor, where he saw a man lying on the floor. Mr. O'Connell lying near the shaft of the elevator, fully conscious and able to tell him what was the trouble. Mr. Emery telephoned for the ambulance, while another of the warehouse employees dressed the injured man's leg as well as he could to stop bleeding until he could be taken to the hospital, which was reached about 8:40 o'clock. It was reported from there this morning that he was suffering a great deal from the pain and shock, and it was said that very little hope was held out for his recovery, although he seemed to be bearing up well for so old a man.  
 Mr. O'Connell had been engaged yesterday afternoon by the Consumers' Coal Company to trim coal at the Waterbury & Rising warehouse, and had been taken down in the elevator yesterday. This elevator is said to be as safe as any in the city, because although the shaft is not boxed in, there are safety platforms on each floor, opening only when the carriage passes through and operated by the electric current in its passage. It is thought that Mr. O'Connell, who was not seen near the elevator by any of the employees of the warehouse, had stepped on the platform, thinking it was the elevator, and pulled the cord which raises the lever. He apparently stood there waiting for it to drop with him until the elevator came up, opened the platform and threw him in such a way that his left leg caught between the lever that operates the platform and the runway along which are carriage moves, and the force of the machinery forced the lever through his leg.  
 This theory is borne out by the way in which he had apparently fallen and the fact that blood was found on the floor in the shaft.  
 Mr. O'Connell's post with the Consumers' Coal Company was obtained for him yesterday by Harold Rising, to whom he had gone looking for work, and saying that both he and his wife had been in the municipal home. Mr. Rising sent him to the coal company yesterday afternoon, only to be so badly disabled on his second day on the job. Mr. Rising said this morning that there was a stringent rule in the coal company warehouse employees were to handle the elevator in any way and that the injured man would probably have been stopped if he had been seen. It is considered fortunate that Mr. Emery returned to the elevator so soon after going down in it, as there were not very many in the building at that early hour.

**BASEBALL CHALLENGE**  
 The Junior All-Stars challenge St. Rose's to a game on the South End diamond on Saturday afternoon at half-past two.  
**PITCHER PAUL HERE**  
 Charles Paul, star pitcher for the St. Stephen's baseball club, passed through the city today en route to his home in Springhill where he will spend a few days.  
**CIRCUIT COURT**  
 The case of W. Malcolm MacKay, Ltd., vs the British American Insurance Co., was continued before Mr. Justice Chandler this morning. Several witnesses were examined for the defence. It is expected that the case will go to the jury this afternoon.  
**PROBATE COURT**  
 In the probate court in the matter of the estate of James Mather, Esq., £2,800 and personalty \$3,100, G. H. Waterbury was appointed administrator. C. F. Sanford was proctor. Katherine McBeth was appointed administratrix of the estate of James A. McBeth, personally \$1,700. K. A. Wilson was proctor.  
**DEATH OF EDWARD CONLEY**  
 Edward Conley, whose death at Portland, Me., has been announced, was for many years in the employ of J. & A. McMillan as a bookbinder and was a splendid type mechanic. Since his removal to Portland, Me., he has been employed in one of the largest establishments in that city and his many old friends in this city will hear of his death with sincere regret. Relatives here are Mrs. John Salmon and David Conley. Interment will be at Portland, Me.  
**KELLY-DONOVAN**  
 A very pretty wedding was solemnized in St. Ignace Church, Peterborough, on Tuesday morning, July 18, when Miss Annie Eleanor Donovan, youngest daughter of Mr. and Mrs. Patrick Donovan of Banfield, was united in marriage with nuptial mass, to Herbert Patrick Kelly, youngest son of Mrs. Mary and the late Joseph Kelly of Petersville. The ceremony was performed by Rev. A. P. Allen. The bride was becomingly attired in a tailored suit of navy blue broadcloth, with navy blue hat to match, and was attended by her sister, Miss Katie M. Donovan, who was also attired in a navy blue suit, with hat of silver and blue. The groom was attended by his brother, James J. Kelly of Petersville. The groom's gift to the bride was a substantial check; to the bridesmaid a pearl pin, and the groom presented the bride with a pair of diamond earrings. The many and useful presents received, including checks, silver, cut glass and china, testified to the popularity of both bride and groom by their friends, who then a happy and prosperous journey through life. Mr. and Mrs. Kelly will make their home in Petersville.

**BRIGHT FUTURE FOR ST. JOHN**  
 (Contributed by Hardware Clerks Association.)  
 The announcement that Hydro rates have been materially cut at Picton, Ont., is of special interest to the citizens and light consumers of St. John. Although the light rates for domestic users are only six cents per k. w. h., and the rates for cooking were only three cents per k. w. h., they have been reduced to three cents for lighting and two cents for cooking. This is what the citizens of Picton are getting under municipal distribution of Hydro current, and what they would most certainly not get from any power company. St. John has voted for municipal ownership of the Hydro power offered by the New Brunswick Electric Power Commission, and citizens can see that our city will without any doubt follow the example of all other Ontario municipalities, and under civic ownership reduce each year the cost of light and power to consumers. There is a bright and prosperous future ahead of St. John with cheap power rates. By offering manufacturers lower power rates our industries will be increased. By increasing our population; by increasing our population owing the will expand. Houses will have to be built. The merchants of St. John will benefit by increased business due to increased population. The city will be a place of no place it can call home, but a building fund has been started and confidence is expressed that by next summer they will be in possession of a fine club house. Already many donations of much of the material for the building have been received. Dr. C. F. Gorham has donated a lot of land for this purpose. A special meeting of the members and friends will be held tonight to hear an address on Canadian subjects by Walter MacRae. The McEachern male quartette has also volunteered its services. Until the community club has a place of its own, the use of the Church of England hall at Quispamsis has been loaned for meeting and social purposes. Residents of Brookville and Torriburn have organized a community club and have elected the following officers for the ensuing year: President, E. A. Whitebone; 1st vice-president, A. Harding; 2nd vice-president, Mrs. Harry Hayes; treasurer, Leslie McLean; secretary, H. F. Hopkins. Among other activities of the club will be the opening of a tennis court tomorrow afternoon at Brookville, when a series of games will be played following which tea will be served to members and their friends at the club house.

**TWO MORE RURAL COMMUNITY CLUBS**  
 For an infant organization, the Quispamsis Community Club is showing the way to some of its predecessors. The members have adopted a progressive policy and are meeting with fine success in following it out. The club has as yet no place it can call home, but a building fund has been started and confidence is expressed that by next summer they will be in possession of a fine club house. Already many donations of much of the material for the building have been received. Dr. C. F. Gorham has donated a lot of land for this purpose. A special meeting of the members and friends will be held tonight to hear an address on Canadian subjects by Walter MacRae. The McEachern male quartette has also volunteered its services. Until the community club has a place of its own, the use of the Church of England hall at Quispamsis has been loaned for meeting and social purposes. Residents of Brookville and Torriburn have organized a community club and have elected the following officers for the ensuing year: President, E. A. Whitebone; 1st vice-president, A. Harding; 2nd vice-president, Mrs. Harry Hayes; treasurer, Leslie McLean; secretary, H. F. Hopkins. Among other activities of the club will be the opening of a tennis court tomorrow afternoon at Brookville, when a series of games will be played following which tea will be served to members and their friends at the club house.

**HYDRO REPORT SURE NEXT WEEK**  
 Assurance Given by Mayor McLellan Today—Reports Rearding Power Company Proposals and Sale of Common Stock.  
 Before the end of next week, a report on the matter of the distribution of hydro electric energy in the city will be made, the mayor, H. R. McLellan, assured a Times reporter this morning. He said that the reports of Messrs. Phillips and Kribs, engineers who are working with the civic hydro commission would be ready about the end of this week or the first of next week. Messrs. Bedell and Sanderson, who represent American shareholders in the New Brunswick Power Co., left the city last night. They had been here for a conference and also in connection with the acquisition of the common stock of the company on which they had taken a position. It was said in the street this morning that they had taken some of this stock at a figure said to be in the vicinity of \$15.  
 It was reported today that the proposals made by the New Brunswick Power Company in connection with the matter of the distribution of hydro electric current from the Musquash development were that the city should lease the company's plant or buy it outright.

**THE CARLETON FERRY**  
 The ferry steamer Governor Carleton, which was laid up about two weeks ago after ramming the west side ferry boats, was put into commission again today, replacing the Ludlow. Referring to a criticism recently published regarding the life belts on the ferries, Commissioner Bullock today said that both life belts and equipment were regularly inspected by an official of the marine department and there was no complaint from that source.
