

CITY MAY HAVE A LEASE OF FT. HOWE

Must be Prepared to Hand it
Back to Military—
Council Session.

A communication was received by the City Council yesterday from J. B. Harkin, Dominion Parks Commissioner, that the city could have a lease of Fort Howe for the purpose of creating a park there on condition that if the military authorities ever needed the land it would be handed back at once and that a certain area was set aside for the present use of the military department. This was referred to Commissioner Frink for a report, who remarked that he thought the Parks Commission had offered to deed the land to the city not lease it.

A request from the War Memorial Committee that the council remove the fountain at the head of King street to make way for the proposed monument to the soldiers of St. John who fell in the great war was referred to Commissioner Frink for a report. Disapproval of the site for the monument was expressed by Mayor Potts and Commissioner Harding and Commissioner Frink remarked that it would cost quite a sum to move the fountain.

On motion of Commissioner Bullock it was decided to exercise the option under the lease to Simmons Co. Ltd. and renew it for another term of

**Give your
tooth brush
an even chance**

Your Pro-phy-lac-tic Tooth Brush does its best work when you give it a chance to dry out thoroughly between brushings. The saw-tooth-pointed bristles tufts chase germs best when they are dry.

Have two. Then each time you brush your teeth you have a Pro-phy-lac-tic at its best. A Pro-phy-lac-tic at its best keeps teeth looking their best—free from decay, white and beautiful.

Sold everywhere in the Empire. Prices are—Pro-phy-lac-tic De Luxe, 75c; Pro-phy-lac-tic Adult, 55c; Small Size, 30c; Pro-phy-lac-tic Baby, 35c. Each is made in three different textures of bristles—hard, medium, and soft. Florence Mfg. Co., Limited, 275 Craig Street West, Montreal, Canada.

seven years, of the lots which they have at the corner of Crown and Mecklenburg streets.

Commissioner Harding reported in connection with the request of W. E. A. Lawton for permission to place three gasoline tanks and pumps on Douglas avenue that he had decided not to recommend any more installations of public gas tanks and pumps at present in the interest of safety and moved the application be refused. Carried.

Commissioner Frink reported that it would cost \$1,102 to repair the retaining wall complained of by the Carson Real Estate Co. and moved they be notified the city had no intention of building this wall at present. Carried.

The Commissioner said the road engineer had reported that about 200 feet of wall needed replacing in Main street near this property and the total cost would be between \$6,000 and \$7,000.

Mayor Potts said he had been informed that the Exhibition Association were bringing in men from outside to work and Commissioner Wigmore said he would take the matter up with the association.

On motion of Commissioner Harding the application of the St. John Milling Co. to install a gasoline tank on their premises, City road, for their own private use was granted.

A communication from the Bricklayers, Masons and Plasterers' Union asking that only union masons be employed in city work was referred to the several commissioners.

An invitation to the Mayor to attend and address the Good Roads Association Convention in St. Andrews next week was referred to His Worship with power to act.

On motion of Commissioner Frink Mrs. F. H. Foster and F. E. Hanington were reappointed members of the Board of Commissioners of the Free Public Library.

On motion of Commissioner Wigmore September 17 was set as the discount date for the payment of water assessment and a discount of five per cent. ordered on payments made on or before that date.

**START FORMATION
OF SAFETY LEAGUE**

Preliminary Steps Taken
Last Night—Organizer
to Return Here

The preliminary organization meeting of the New Brunswick Safety League was held last evening in the Board of Trade rooms, Lieut. Col. A. E. Massie, D. S. O., in the chair. A. T. Waldon, of Moncton, traffic manager of the C. N. R., and also president of the Maritime Safety League; E. A. Schofield, of this city, vice-president of the Maritime League; Capt. A. P. Saunders, organizer for the Maritime League, and a few of the city interested in the formation of a New Brunswick branch of the Maritime Safety League attended. On account of the small number present the meeting was postponed until later when it is proposed to hold it in the afternoon and to ensure a good attendance. Preliminary plans were discussed.

During the week of July 7 Captain Saunders will return to the city to address the City Rotary Club and employers and employees in various local industries. It has been suggested that he visit at the same time the summer resorts near the city to give instruction in artificial respiration methods. An af-

ternoon meeting to perfect the organization here will likely be held during this visit of Captain Saunders.

Objects of League.
The professed aims of the Maritime Safety League are as follows:

(a) To protect and safeguard the public, especially children, from the dangers of automobiles, railroads, street railways and all forms of vehicular traffic on the public highways in these provinces.

(b) To educate the public, through schools, churches, literature and all channels of publicity upon matters pertinent to public safety.

(c) To minimize the injuring and killing of persons employed in stores, factories, workshops, mines and all departments of industrial and mercantile activity, including lumbering, by installing the minds of employer and employee into the full meaning of "Safety Always."

(d) To co-operate, so far as lies in the power of the league, in preventing the useless destruction of life, property and forests by fire.

(e) To advocate and secure possible remedies and preventative, and to assist in the enactment and enforcement

**Polish
Your Teeth**

Grit may clean a tooth quickly, but the tiny surface scratches that it leaves behind render the enamel more readily receptive to stains. More frequent cleansing becomes necessary. If persisted in, grit may scrape enamel away.

A polished tooth, like a polished floor, is easier to keep clean and stays clean longer. It feels cleaner, too.

Colgate's cleans teeth the right way—washes and polishes, doesn't scratch or scour. Colgate's is safe for a lifetime.

Brush your teeth twice a day—
See your dentist twice a year.

**Every Woman
Craves Luxuries**

"How to get pin money" is a subject of more or less interest to women. For there always seems to be ways in which to use extra money advantageously—more gloves, more hats, more theatre tickets, more music, more books.

One of the most convenient ways in which to increase one's income is to secure tenants for the spare rooms.

Sewing, catering, tutoring are among other ways to obtain the same results—extra income.

The classified advertising columns of The Times-Star are the means of readily securing tenants or pupils or customers for whatever service you are prepared to give.

You will find it interesting and instructive to study the want ads in The Times-Star some afternoon—note how other people use this convenient service to get ahead in the world.

Read the want ads for profit, use them for results.

**SAYS INJURIES
ARE EPIDEMIC**

Speaker at Medical Convention Says They Replace Old Time Menaces.

Chicago, June 18.—An "epidemic" of injuries, superseding the past "epidemic of infection," is the problem with which the modern physician has to cope, said J. Howard Beard of the Health Service of the University of Illinois, speaking today before the American Medical Association Convention.

Railroad crossings, automobile accidents, exhaust gas poisonings caused by automobiles, industrial accidents and suicides caused by the increased strain of living in cities were taking the places of old-time menaces, conquered to a great extent in the times of Lister, Gorgias and Pasteur, he added.

"The suicide rate is about that of the whooping cough death rate," he continued. "About as many people were killed in automobiles at railroad crossings last year as died of scarlet fever in 1920. Fatalities resulting from auto accidents in 1923 are about the same as

**Strawberries
are here!**

—why not make the most delicious jam or jelly you ever tasted?

Take full advantage of the bounty of orchard and garden. You can now convert strawberries into perfect jam or jelly with but one minute's boiling, and you can preserve that fragrance and delicacy of fresh, fully-ripened fruit which disappears under long boiling.

You can now make jam or jelly with fruits that never would "jell"—the strawberry, pineapple, cherry, etc.

Certo, the jellifying property of fruit, is the reason.

Certo is pure, concentrated pectin, the jelly making substance of fruits. It contains no gelatin nor preservative. The Certo process not only makes better and a greater variety of jams and jellies than the old process, but reduces cost per jar; no fruit juice is boiled away, and 50 per cent. more jam or jelly is obtained.

Use Certo with every fresh fruit available. Make a lot of jam and jelly this summer.

At your grocer's or send 40c direct to
Douglas Packing Co., Limited, Cobourg, Ont.

**SAYS LOSSES WERE
DUE TO BAD YEAR**

Sir Henry Thornton Explains C.G.M.M. Decrease of Revenue.

Ottawa, June 17.—Sir Henry Thornton today gave the committee on National railways and shipping some information in regard to the Government Merchant Marine. He explained decreased earnings by saying that, generally speaking, last year was not a good year. The decrease in operating expenses had been brought about chiefly by cancellation of unremunerative services.

"Which is the most profitable part of the service?" asked the chairman, W. D. Euler.

Sir Henry replied that there had been a loss of \$514,000 in services to the United Kingdom in 1923. The ser-
