

COUNCIL AGAIN URGES WORK AT BREAKWATER

Resolution for Extension to
Partridge Island Goes to
Ottawa

COMMISSIONER GETS
INTO DISCUSSION

Tri-Partite Agreement, Also
Railway Station and Pet-
tingill, Rock

The City Council this morning discussed the need for extension of the Negro Point breakwater to Partridge Island and decided to send a resolution to the Dominion Government asking that money for this work be provided at this session of Parliament.

The matter of harbor commission and the carrying out of the tri-partite agreement were also brought up and it was said by Commissioner Bullock that the extension of the breakwater did not come within the scope of the tri-partite agreement.

Commissioner Harding asked what steps were being taken to have the extension of the breakwater to Partridge Island carried out. He suggested that the Mayor write the Minister of Public Works at Ottawa.

Commissioner Bullock said he did not think the city should have to pay anything further to the Government about the necessity for this work as they were quite well aware of its importance. He would suggest that if any action was to be taken the Board of Trade be asked to co-operate.

Commissioner Wigmore said he thought it would be sufficient to have the council write to the Government to the effect that they expected this work to be done. He did not see why other harbors in Canada could get millions spent in them while Saint John had to go without, unless it was because the other ports had harbor commission and this port did not. He mentioned Vancouver, Montreal and Quebec, the latter of which was to have \$1,000,000 for this work.

Commissioner Frink interjected that this latter port owed the government \$800,000 in accrued interest and Commissioner Wigmore said they had never seen for payment and were never likely to.

TRI-PARTITE.
Commissioner Frink said the matter of harbor commission had been referred to, but what he would like to see was for some one to ask the Government if it was their intention to carry out the tri-partite agreement. So far as he knew this question had never been put to them and pressed to an answer. Delegations had come here and seen the situation and after looking it over had agreed that the breakwater should be extended, but nothing had been done as yet. About a year ago E. W. Beatty, president of the C. P. R., had said that the best way to help the city was by assisting the C. P. R. to get the tri-partite agreement carried out.

Commissioner Bullock said that the extension of the breakwater was not included in the tri-partite agreement.

RESOLUTION PASSED.
Commissioner Frink then moved the following resolution:

"That in the opinion of this Common Council it is imperative that immediate steps be taken to protect and preserve the public works in connection with the harbor of Saint John from encroachments by the sea, and this with particular reference to the closing of the gap between the end of the Negro Point breakwater and Partridge Island, so that the works already constructed by the Government of Canada and the City of Saint John may be made available and useful for ocean borne traffic."

"Therefore council would appeal to the Government of Canada to provide the money at this session of Parliament meet this condition."

This was seconded by Commissioner Wigmore and carried.

TENDERS OPENED.
Tenders for the new roof on the McLeod warehouse were opened as follows: S. A. Williams, \$8.75 per 100 square feet; J. E. Wilson, Ltd., \$7 per 100 square feet; J. J. Morrissey, \$2.25 for the job; Leonard & Vaughan, \$7.48 per 100 square feet, \$1,825.12 for the job; Tobias & Seah, \$8 per 100 square feet or \$1,912.32 for the job; Joseph Dugay, \$8.75 per 100 square feet. They were referred to the Commissioner of Harbors and city engineer for a report.

On motion of Commissioner Bullock a lease of two lots in Rodney street, in the Mill Pond area, was ordered issued to D. A. Duffy for seven years at \$20 a year for each lot.

Commissioner Harding reported that he had received an application from H. C. Rowley for permission to install a 250-gallon gasoline tank at 204 Broadview avenue. On his motion it was decided to refuse the permission.

BOYS IN COURT

Two juveniles were before Magistrate Henderson this morning on a charge of vagrancy and lying and lurking in the yard at Christie's woodworking factory, Brin street. His Honor gave them a severe lecture and warned them that if they were before him again on such a charge he would send them to the Boys' Industrial Home for a term. He warned the parents to look after their boys. Another was charged with vagrancy, being found lurking in an alleyway off Sydney street last evening by Police Constable Corner. He was remanded pending an investigation.

MUCH OF BEAUTY IN "HWAIKING" SHOP

Formal Opening This Afternoon
—Profits Are to go to Missions in China.

Many people did not wait for the formal opening of the Hwaiking shop in the Admiral Beatty hotel, this afternoon, but this morning took opportunity to enjoy inspection of the beautiful and rich collection of curios from China, Japan and India there. Mrs. J. A. Mowatt, wife of a missionary for 20 years in Honan, China, and hereafter a teacher in an industrial school in the city after which she had named her shops, has established similar oriental centres in Montreal, Toronto, Quebec, Ottawa, Bermuda and now in Saint John.

She is proud of a handsome gold medal on a long gold chain that was presented to her for her interest in the poor women of China during the famine. The medal was cast by the order of the President, who sent it to her for her work in the Hwaiking industrial school. The emblem is done in blue and gold enamel on a circular gold ground, displaying three stars, which mark the special work done by Mrs. Mowatt. She has taught the women of the Honan Anglican Mission much of the fine, rare work on display in linen, lace and silk.

The shop is a narrow room typically Oriental. Assisting Mrs. Mowatt are Miss Jean White, who will be proprietor of the shop; Mrs. J. Pope Barnes, Mrs. Edith Skinner, Miss Alice Robertson, Mrs. Frank S. White, Walter White and others. Only the one in charge of the shop receives any money. All other workers are volunteer, and the profits go to the Hwaiking mission; to the West China Mission of the Methodist Church or to the Presbyterian mission of Honan, China. The shop is wholly beneficial, teaching the poor women of foreign lands to be self-supporting and the women of this land to give their time and interest to their sisters, less privileged.

IS CALLED HOME

The local police today received a request by telegram from Colla Jamieson, Stellarton, N. S., secretary of the United Mine Workers there, asking if they would try to locate Robert Blackwood, a member of the little band who has been soliciting aid for the miners, and inform him that he is wanted at home as his two children are seriously ill.

Detective Biddiscombe found the men had gone to Fredericton. He got in touch by telephone with the Fredericton police, who delivered the message.

URGES PUBLICITY FOR NEW BRUNSWICK

C. E. Magnusson Reports on
Matter of Immigration from
Scandinavian Countries.

Charles E. Magnusson on Tuesday reported to Hon. D. W. Messersmith on his visit to Scandinavian countries in the interests of immigration to New Brunswick. He felt there would be good results but said that much publicity work must be done. This province was practically unknown there. He told of conditions in Denmark, Norway, Sweden and Finland.

Mr. Magnusson said that P. Rousch, representative of the Canadian National Railways in Norway, who had been in Canada and understood conditions in the Dominion, tendered exceptionally courteous treatment to him while in Norway and did all possible to aid him on the trip.

M. B. Sorenson, special representative in Denmark, of the colonization and development department of the Canadian Pacific Railways, was an officer in the Canadian army during the war. Mr. Ekroter, editor of a leading Swedish industrial magazine, showed great interest in New Brunswick and asked for particulars to use in his periodical.

Through the kindness of Mr. Curney, head of the steamer passenger department of the C. N. R., Mr. Magnusson was shown the various facilities for handling the immigrants.
