Free Silver.

"You say that he would trade that sil-ver for gold and take the gold away and leave the silver. Where would he get the gold? Would he get it at the treasury of the United States? Not under bi-metallism, because under bi-metallism the government does not agree to swap. Under bi-meteallism the government converts silver bullion into silver mone and gold bullion into gold coin and make water mark in Cleveland last night, but them legal tender for all debts, public

the outpouring of the people to see and and private. But it does not agree to state capital to-night was greater in Under bi-metallism this foreigner could proportion to the size of the city than the city than not exchange his silver at the mint for grounds for his forum. Inhabitants say the gold? He would have to find so that no other attractions has ever drawn body with the gold; he could not hurt so strongly in Columbus, except a dis-play of fireworks in connection with the the United States out of danger.

"He would have to find somebody with the gold, and more than that, he would have to find somebody with the gold who was willing to let the gold go? Why, whenever he thought that silver was bet for him than the gold, and not until then

"Well, there is another way that he don't see how there can be any quesmight do. He might, instead of trading tion about the triumph of free silver in it to us for gold, trade it to us for property. Whenever we have anything to "We have entered upon a campaign sell, we are looking for a man who has which means much to the American peosomething to trade for what we have to ple. If our opponents speak truly when they describe what will in their judg-ment be the effect of free coinage, sell, and instead of being frightened. if he will just let us know when he is coming with his silver to exchange for our then the success of the Chicago ticket products, we will meet him at the depot would certainly be a calamity to the with a brass band and escort him country. If on the other hand we speak through the town and show him where the truth when we describe to you the effects of the gold standard, then the he can buy.

"Have you ever heard people say that it did not make much difference how much money there was, that you could not get any of it unless you had somethese who love their country. We have thing to sell? That is a very common argument. Of course you cannot get money unless you have something to sell. a good thing, has declared that the gold If you are a syndicate and have control standard must be maintained. I cail of thousands of dollars you may sell your attention to the fact that no party credit and get money.

the history of this country has ever "A gentleman asked me last night how in a national convention commended the this money could be put into circulagold standard. Its effects are so bad tion. That, to my mind, is one of the that no party has dared to uphold it: simplest processes. Do you ever have "I desire to impress upon your minds | any trouble getting your money into cirthe fact that the enemy we are fighting | culation? Now, I know from your conin this campaign is an enemy which has duct that your trouble has just been never gone into an open battle. The ad- like mine, not as to how to get money than we have (great cheering); and it is vocates of the gold standard have never into circulation, but how to keep it from dared to submit the gold standard to the, getting into circulation., Now, here is arbitrament of a ballot. Every step the process. We have the free cointhat has been taken has been taken by age of gold. If any man produces gold from the earth he can take that gold to the mint and have it converted into gold monetized in 1873 the people had not coin, and then he can use that gold coin discussed it, and persons who were to buy anything he wants. But he does members of congress and who voted not spend a dollar of that gold coin chance to earn these honest dollars by honest work at home, and then there place by the side of gold, the opponents products of toil. moment he does so it is part of the "How about silver? The process is

upon congress as a compromise, and as just the same as with gold. The men spoons out of, he takes that si "But the silver sentiment grew until mint and has it converted into mony. 1890, and that year the opponents of That money is his pay for the labor of free coinage, being afraid of the passage producing the silver and paying all his of a free coinage bill, secured another | expenses of mining and what there is compromise, which was known as the left over and above that is his profit. Sherman law. In the support of that But he cannot spend a dollar of it with measure Senator Sherman made a out putting that into circulation, whethspeceh, and in the course of that speech | er it be used to purchase the products he went on to say that he required more of your toil and the toil of all who labor. Now, that is where the money gets into circulation. Money is that which the law creates, and which the law makes a use for. "How are you going to increase the volume of your money? There is only one way, and that is by legislation. Senator Sherman said in 1890 that we needed about \$40,000,000 to keep pace with population and industry. If we needed it then, we need it now, and yet, my friends, the Republican party is not offering you a means by which you can bring into existence the money that the people require to do business with. Why is it? I believe that the platform adopted by the Republican party at St. Louis was written by the men who are interested in making money scarce." In conclusion Mr. Bryan ur ed his hearers to vote as their consciences dicfated; and this was greeted by tremendous and prolonged applause.

pose he had a thousand dollars of it, and had it coined into dollars, then he would take these dollars out to hurt the American people with them, and how would he do it? He could take that money home and he would be required to pay the freight on it, and he would lose the cost of coinage and lose the freight both ways and we could stand it longer than he

dustry, and he advocated that measure on the ground that it gave to the people more money, and yet in his recollections, published only a few months ago, you will find that Senator, Sherman there says that he was in favor of the Sherman law simply to prevent free coinage, and that he was willing to vote for its repeal the day after it was enacted if he could prevent the substitu tion of free coinage. There you will find the chief supporter of the gold standard policy in the United States supporting a bill because it gave money to the American people, and declaring that he would have voted for the repeal of it the very next day. (Great applause.)

"They secured the repeal of the Sherman law and they pretended that when they got that out of the way they would restore silver to its former place. 'I'here were some who said the trend of the Sherman law was to that end, and that

we had to clear the rubbish away before we could build up a good system and there were others who said that if we stood by free silver we would drive

Europe to bi-metallism. But those who made this argument have shown that they were not sincere, and that their purpose was to deceive the American people. (Applause.) "In this campaign every party in its platform so far has declared that the principle of bi-metallism is better than a gold standard, and yet in spite of New Westminster Canoe Club, they hav- these declarations you know that there ing no formidable competitors. The is a body of people in the United States

who under cover of friendliness to bimetallism are seeking to fasten a gold standard upon the people.

"Now we find people who are afraid of a flood of silver. There is nothing that excites my sympathy more than to find a man who never had enough money in his life, who has not enough to pay his debts, and does not know Bob where the money is to come from to buy food for the next week, afraid of a deluge of silver.' There are some people limited coinage of silver would in some a very exciting one, the doctor's long this country. Did you ever try to figure way, they know not how, bring ruin on out just how a man was going to hurt us by bringing silver here? If not, sup-

the race track. Seattle Dick won the whether you can find any way by which you can be injured. "Let us suppose you had free and un-

limited coinage of gold and silver at the present legal ratio of 16 to 1; then any person in the world owning silver bul-lion could bring the bullion to our mints and have it converted into legal tender silver dollars, just like the one that you

use to-day. Now, how could you be in-, jured?

"Suppose some man made up his mind to injure the American people under free coinage; how would he do it? Why, he

DEATH OF THE POET SCOUT.

Captain Jack Crawford Killed in Eastern Washington.

Seattle, Wash., Sept. 2 .- News reached this city yesterday of the accidental death at the Blewett gold mines, near. Blewett, Kittitas county, Friday evening, of Capt. Jack Crawford, who claimed to be the original poet scout.

The accident took place in what are commonly termed the hydraulic claims, located a short distance below Negro creek. Death came instantly and was probably caused by concussion of the brain.

Crawford had been "piping" against the bank, and had stepped upon a small elevation to see what effect the water was having upon the bank. A rock fell from the bank striking him on breast. He was thrown backward and fell down hill eight or ten feet, striking on the back of his head among some rocks. He died instantly.

Whether the claim of Crawford to the title of "poet scout" was founded on who have an idea that the free and un- fact, or was claimed on account of a resemblance, real or fancied, of the famous rover,, remains to be seen. Crawford called himself "Captain Jack" and gave people to understand that he was the oringinal scout. Crawford is described as a tall, gaunt fellow, minus the flowing locks that have been considered as a part of the real "Captain Jack." It is said that Crawford served in the United States army and was one of Custer's scouts. This probably explains his claim to being the original Jack Crawford.
