MODERN DIVING GEAR BOUGHT IN ENGLAND

Dominion Will Compete With the Shamrock in Gorge Service-The Lost Tricolor.

purchased in London a new diving gear, B. C. Salvage Company. The diving equipment is supplied with electric lights and telephones, and in every respect is thoroughly modern. It is known as the Snibe Gorman patent, and its construcof water. The pumps are of the celeof water. The pumps are of the cele-brated Gwynne type. They can throw a stream of water 24 inches in diameter. The largest which the company now has operated on last year. The Dominion The largest which the company now has is capable of throwing a 14-inch stream, so it will be seen that the new ones will make a big acquisition to the company's plant. The company have had no big indertakings on hand during the past this season winter in the way of salvage operations, but this fact does not deter the enterprising management from completing plans. They have every faith in the place and have been investing heav-

The work which the company accomyears ago has come in for considerable favorable comment. A letter has been received from Rear-Admiral Bickford, who speaks very highly of what had been done. This letter has been forwarded on to Lloyd's, as the company works under Lloyd's regulations. The new diving equipment, as also the pumps, will be shipped direct to Esquinalt from England on one of the China

RACED WITH DOLPHIN. An exciting feature of the trip of the steamer Princess Beatrice, completed Thursday afternoon, was a race which the ship had with the steamer Dolphin, of the Alaska Steamship line, on the return voyage from Skagway. The Dol- p.m., as the steamer Minnesota was phin has a reputation for speed, but in the run with the Beatrice was out-classed. The two ships met before enactly how many has not yet been ascer-

tering Wrangel Narrows, and as the Beatrice gradually shortened the distance between them, the fire began to shoot out of the Dolphin's smokestack. It soon became evident that all pressure was being brought to bear to keep the C. P. R. liner in the background. What happened shoard the Beatrice is not reeling off about 14 knots an hour. She crept upon the Dolphin, and the firemen sink on the latter it could be seen were becoming desperate. Before the race was of the Pacific Coast Steamship Company over the ship's smokestack was afire. But their supreme effort to keep the

Beatrice astern proved unsuccessful. The latter overhauled the American boat and heat her into Ketchikan by a full hour. It is said that the Dolphin's machinery was not working as it might, and it is probable that her crew will not take the race as conclusive evidence that the C. P. R. boat is the faster of the two. Therefore the next meeting of the the fire room floor. ships may be even more exciting.

The Dolphin in going North had the misfortune to lose between 30 and 40

hung on deck. It was a shipment being forwarded to the Yukon. Owing to the ot weather the meat turned bad, and

TRICOLOR BREAKING UP. The same heat was encountered by the Princess Beatrice. It was caused, her officers think, by the big forest fires raging inland, the heat having been carried seaward by the off shore winds. The fire district extends far south, and between Simpson and Hazelton the telegraph wires were down in consequence. When the Beatrice called at Simpson there had been no communication by wire with inland points for two days. At Essington, the day the Beatrice was in that port, a painful accident oc-

CASE STILL IN PROGRESS.

G. D. Collins, of San Francisco, Continues to Address Court in Ex-tradition Proceedings.

(From Monday's Daily. Collins, of San Francisco, in the extradiction proceedings before Judge Lamp man to-day. He argued that it would be also lutely necessary to prove the delivery of the affidavit by the accused. The presumption could not be involved that the notary did his duty, and the oath was administered. It had to be actually proved that the oath was administered and the more brilliant work of Rithet at the net, his driving and smashing as well as effective served that the oath was administered and the more brilliant work of Rithet at the net, his driving and smashing as well as effective served that the oath was administered and the more brilliant work of Rithet at the net, his driving and smashing as well as effective served that the oath was administered and delivered the stars of their garments, proving conclusions the district are busy. The sively that the Vancouver Island cement works were very busy indeed.

In return trip was delightfully bridged by the excellent supper kindly provided by the ladies of St. John's, to whom a hearty mead of thanks is due. An impromptu concert was concluded with respective sides, and they were ably assisted by the partners mentioned. The and that the accused had delivered the affidavit purporting it to be true for the purpose of misleading. The making of a false affidavit was not sufficient to double championships are being played double championships are being played.

of lifteen laborers who were set to work consent. It was obtained according to also extra large pumps for the use of the be erected.

TWO ADDRESSES

Henry George and His Doctrine.

In the Y. M. C. A. room on Saturday vening another address was delivered by being Thomas Carlyle. Questions being the meeting did not break up until about Henry George, the former he said being the greatest Tory who ever lived, and the latter the greatest Democrat. He ridicusections considered at Tuesday's session
were unimportant in comparison with the
topics now under consideration.

Though no details of the discussion have
appeared in print, several papers comment
features, principal of which is that the
topics now under consideration.

The new Procedure By-Law will soon
be introduced in the city council. It
will inaugurate a number of radical
freedom is to continue on earth. The alternative is the man on horseback.
