

TELEGRAPHIC.

ONTARIO.

Ottawa, June 30.—The fisheries department has issued a circular to the lobster canners asking them, instead of wasting the eggs attached to the berried lobsters, to retain them for hatching purposes by placing them in temporary scows through which the tidal waters will pass.

Montreal, June 30.—Ald. P. Kennedy, M.C.A. for St. Ann's division, died at midnight after a short illness. He had served many years in the city council and defeated Hon. Jas. McShane for the local house at the last local election. He leaves a widow, two daughters, a son and an estate worth over \$100,000.

Toronto, July 1.—The Queen City has always been loyal to confederation, and although thousands of people left town by rail and boat the celebration here was none the less interesting. There was considerable activity amongst the military element. The Montreal Garrison Artillery spent a glorious first in Toronto, and were royally entertained by the Queen's Own, the Highlanders and other organizations.

QUEBEC.

Montreal, June 30.—The customs duties collected at the port of Montreal for June, 1895, were \$64,021, against \$46,339 for the same month last year.

The inland revenue for June, 1895, was \$154,191, against \$159,812 for June, 1894.

Montreal, July 1.—All interest in Dominion day celebration centred around the unveiling of the Maisonneuve monument, which has been erected in Place d'Armes square, between the Bank of Montreal and Notre Dame church, at a cost of \$25,000. The gates were shut, and about a thousand of Montreal's leading citizens were admitted by ticket. Lieut. Governor Chapleau did the unveiling and made one of his eloquent speeches. Addresses were made by Sir John Poirer, the French consul, Sir Wm. Hingston, Mayor Villeneuve and Rev. Superior O'Brien of St. Sulpice.

Maisonneuve led the colony 230 years ago, a patriotic Frenchman, yet today the bronze statue erected to his memory was covered with the Union Jack, while the meteor flag of England waved from the towers of Notre Dame, and the last shout which fell upon Maisonneuve's metallic ears was ringing cheers for the British Queen.

MANITOBA.

Winnipeg, Man., July 30.—Senator Kirchoffer, who reached here today from Ottawa, says remedial legislation will be introduced before the prorogation of the house of commons. He thinks it will be of such a nature as to be satisfactory to all parties, both Roman Catholics and opponents of separate schools.

There has been a row at Headingley over a hotel license. Two brothers named Preston opposed its being granted and these were attacked by friends of the hotel. In the melee one of the Prestons drew a knife and stabbed young McLeod. Arrests were made on Saturday, when the injured man and two others named Pruden were charged with assault. Both cases will be heard before magistrates at St. Charles.

Winnipeg, Man., July 1.—The national holiday was right royally celebrated in Winnipeg today. Horse races at Exhibition park, the Winnipeg Bicyclist club races at Port George park and special attractions at Elm and River parks were the chief features. About five hundred people left the city on the St. Andrew's society excursion to Rat Portage. The weather was perfect for holidaying.

The Sultana gold mine at Rat Portage has been sold to a syndicate of English capitalists.

The four year old son of Albert Turpin swallowed the contents of a pop bottle containing muriatic acid and is in a precarious condition.

NOVA SCOTIA.

The Department of Marine has Added to the Lobster Season.

Rough Experience of Gloucester Fishermen—The Steamer Nerlo.

Truro, June 27.—P. McG. Archibald's store at Bible Hill was broken into last night and looted of five watches, some jewelry and a revolver, in all about \$75 worth. Nothing else was missed so far, though there was a quantity of clothing near the showcase from which most of the articles were taken. The revolver, the only one in the store, was in the office at the rear of the building, where it had been hanging up uselessly for some months, but at last went off at the regulation time. The burglar or burglars got in by forcing the lock of the front doors, and seem to have similar tastes in selecting goods to those who made the raid on A. H. McLean's store at Hopewell Hill, N. B., a fortnight ago.

A considerable fall of welcome rain came on Tuesday night and there were light showers yesterday forenoon. Today has turned out fine.

Six summer cars of U. S. manufacture, and carried on flat cars of a Maine railway, and for the street railway, Halifax, passed through here on Tuesday.

Alexander Archibald, engineer of the water works, was struck down last Friday with paralysis in his left side, but has improved since then, and it is hoped will recover after a time.

The N. S. Eastern Baptist association meets here on July 12th.

Halifax, June 30.—The department of marine has added ten days to the lobster fishing season in Nova Scotia. Judge Townshend on Saturday sentenced Scanlon Smith, who shot young Alkins and injured two young men for stealing from the I. C. R. got five years each.

John Millen of Musquodibuit, who struck Higgins, a fellow workman, with a spade, severing his ear from his head, is still at large. Higgins Power spent some days vainly searching for him. Whether Millen is in the woods or has fled the country is one can tell. The doctors think Higgins may recover.

FINANCIAL AND COMMERCIAL.

The Sun's Weekly St. John Market Quotations.

General Notes of Trade From the Upper Provinces—The Strong Position of Hides—The Hay Market Growing Stronger.

Montreal tanners are paying 9-12 to 10 for No 1 light hides, and the demand exceeds the supply. Dry hides are higher in New York. The leather market is very strong, and boots and shoes are still tending upward.

The four market continues dull at present, as most dealers have stocks on hand and there is nothing to stimulate trade. Everybody is watching wheat.

The receipt of 100,000 bushels of oats from Manitoba has weakened the Montreal market for that grain, and No 2 oats are offered there at 42 to 43c.

The creamery butter is quoted at 15-12 to 15-4-4 in Montreal. The western 16c is asked. Western dairy is offered at western points at 11 to 11-12c.

Cheese advanced from 3-4 to 11c on the Ontario boards in the last ten days, as high as 8-16c being paid at Belleville on June 25-26.

Says the Trade Bulletin: Lined oil has advanced 20 per gallon since our last issue, in sympathy with the rise in the English market and continued scarcity there.

Cable advices from Buenos Ayres announcing an advance in the price of B. A. hides, with nearly the whole stock available contracted for, is regarded as an evidence that South American hides will be much higher next fall, and that there may therefore be a very sharp additional advance in sole leather. Boy the American and Canadian markets are very strong.

THE ADVANCE IN HAY. There can be no doubt that the western hay crop is short. Sales have been made at Montreal for shipment to Toronto and other Ontario points, and also to the western states. There is a better demand for English hay and shipments to that country have largely increased in the last few weeks.

Enquiries have been received in Montreal from Chicago. The feeling is very firm, therefore, and the price is expected to be a cable from England suggesting \$40 hay before next spring is not, however, taken seriously by anybody. But one Montreal firm has already contracted space at Boston for 3,000 tons for the British market, and the price there has advanced. The Quebec coupon price is up nearly \$2 above the lowest point.

COUNTRY MARKET. Business was lively in the market on Saturday, owing to the Monday holiday. The strawberry trade is the most notable feature at present. The season opened unusually early. First a few baskets, and then a rush from the upper provinces came in. Last week the Nova Scotia fruit came in freely and was quickly followed by New Brunswick berries, the result being a marked decline in prices.

Old creamery tub from last Monday's figures, also oatmeal and cornmeal. Middlings are up \$1, and are almost unobtainable, as that the millers west are not so much grinding they can sell their whole output right at the mill. One miller writes that he expects to get \$1 per hundred right at the mill before long.

ST. JOHN WHOLESALE MARKET. Beef (country), per lb. 0.08. Beef (city), per lb. 0.09. Veal, carcass, per lb. 0.07. Pork, country, per lb. 0.08. Shoulders, per lb. 0.08. Hams, per lb. 0.10. Flowers, per lb. 0.05. Miscellaneous, per lb. 0.05.

UPHAM NEWS. Upland, June 28.—The final examination of the Normal school, held on Thursday afternoon, June 27, was held by a body composed of the parents of the pupils. The programme consisted of singing, spelling, arithmetic, geography, grammar, composition, and history (British and Canadian). A specimen of each child's penmanship, both written and printed, was shown in the form of a piece of poetry copied from the reading book. Here was evidence of much care and attention.

Yarmouth, July 1.—A seaman named Henry Turpin, supposed to be a native of France, dropped dead on the American bark Annie Lewis, Saturday evening. The bark was awaiting her crew, which came by steamer from Yarmouth on Saturday. The coroner's verdict was, "died from natural causes." Turpin was 40 years old. The bark proceeded today.

Drop in Canadian Wheat. (Trade Bulletin.) Car lots of red and white winter wheat sold at points west of Toronto at the beginning of the week at 90 to 91c, showing a steep decline of 12 to 14c from top prices a few weeks ago.

A Toronto dealer, writing to a firm in this city says: "When I wrote you about a month ago the farmer was sold all their wheat, and that only an old car or so could be picked up on Midland C. P. R. and Grand Trunk. I believe what I said; but I have to admit that I was mistaken, as I am now offered red and white winter wheat, where there was no sign of any short time ago, and for 5 to 10c less than I could touch it for about ten or twelve days ago. I bought seven cars west yesterday at 90c red."

Prices of Various Commodities. Cod, large, per 100 lbs. 1.40. Cod, small, per 100 lbs. 1.30. Haddock, per 100 lbs. 1.20. Lobster, per 100 lbs. 1.10. Salmon, per 100 lbs. 1.00.
