

## THE BEST YET.

Attendance at the Exhibition  
Almost 80,000.

All Previous Records Easily Surpassed by This Year's Show.

The most successful exhibition held in St. John for many years closed Saturday evening, when there was an other large attendance. The closing day is usually one of the lightest in point of attendance, and while this was true of Saturday, the figures are far above those for the closing days of the last four exhibitions.

The attendance for the day was announced as 7,622, which makes a grand total of 78,965.

The following table will be found interesting as a comparison of this year's figures with other years.

1902. 1900. 1899. 1898. 1897.  
1st day ..16,000 2,012 500 1,207 3,381  
2nd day ..12,622 2,089 3,970 3,283 2,701  
3rd day ..14,212 4,178 4,877 4,473 4,365  
4th day ..15,551 10,516 10,491 5,510 2,338  
5th day ..16,988 10,527 11,082 7,724 7,175  
6th day ..7,622 12,651 10,972 4,947 5,941  
7th day ..8,177 7,548 5,141 5,132  
8th day ..2,531 995 2,633 2,827

Of Saturday's features the most interesting features were the parade of prize horses and cattle in front of the grand stand during the afternoon, and the fireworks in the evening. The latter were the best ever seen in St. John. T. W. Hand was present and personally directed the display. The various amusement attractions were liberally patronized, in fact everything went along just as usual.

Early in the evening one firm with a large display in the main building started to dismantle it, but was at once stopped by the management, and the police were given strict orders to see that nothing was disturbed, but there was no further trouble.

**THE MILKING CONTEST.**  
The prizes in this contest were awarded Saturday as follows: Logan Bros, 1st; H. S. Pipes & Sons, 2nd; P. S. Black, 3rd. The first prize winner is from Amherst Point and the other two from Amherst. There were four entries, and the prizes were awarded by points. One point was given for every pound of milk; 20 for every pound of fat; 4 for every pound of solid not fat; and 1 for every ten days in milk after the first 2. Ten points were deducted for each per cent. of fat under 3. The test lasted forty-eight hours, and the contestants had the privilege of milking two or three times a day.

The total score was as follows:  
Logan Bros, Holstein cow.....241.61  
H. S. Pipes & Sons, Jersey cow.....175.56  
P. S. Black, Ayrshire cow.....162.97  
W. McMonagle, grade Ayrshire cow.....102.78  
Mr. McMonagle missed one milking, which accounts for the low score.

**CLASS 63. BUTTERMAKING COMPETITION.**  
(11 entries.)—C. M. Wilson, St. Andrews, N. B., 1st; 2nd, 2 and 3; H. F. Hughes, Petticoat, N. B.; 1851-2 points; 2 and 3, N. W. Everleigh, Sussex, N. B., 1851-2 points; 4, S. L. Peters, Queenstown, N. B., 1831-2 points.

**A FAREWELL SUPPER.**  
When the exhibition closed Saturday the members of the press, who had been doing the show, had a wind-up supper. It was a time when milk and water flowed freely and chicken with tons of all kinds were the table decorations. There were but three invited guests, Manager Hubbard, assistant P. MacLure Scandlers and Detective Killen, who were brought in to give a certain tone to the affair. There were speeches, but they were exceedingly short and no perspiring reporter had to take them. The supper covered a range of subjects not usually touched on in after dinner discourses and were more or less personal in their bearing. Each was furnished with a subject upon which it was thought best to deliver a speech. There were disappointments, but a number of more or less startling developments occurred. Eating chicken was suspended every little while for the purpose of allowing some one to separate himself from a few pink thoughts or some weighty matter. It was a supper from which the press can date time. The presiding officer who showed a remarkable aptitude for disposing of the young men was presented with a feathered offering of the Danes' incubator, whose clucking peep had been heard but a few short hours.

The thanks of the diners are due to Supt. Jack for the bird, to C. Flood & Sons for the table decorations and to J. J. McGaffigan for the Rose Blend.

**NOTES.**  
The Bijou Theatre, just outside the grounds, closed Friday night. Business was not very good.

Leslie McEllan, a fifteen year old lad who lives on Pitt street, was quite badly injured Saturday by the accidental discharge of a rifle on one of the midway shooting galleries. The bullet gashed the side of his leg. He was attended by Dr. D. E. Berryman.

Frank Le Monde, H. P. Hill's representative in connection with the vaudeville show, is despatching of great credit for his untiring efforts to make this end of the affair a success.

All exhibits are expected to be removed from the buildings today, after which the management will move its headquarters to the uptown office, Magee building, Water street.

At the close of the press dinner Saturday evening, Manager Hubbard and T. W. Hand of the Hand Fireworks

Co., Hamilton, Ont., were given a lively hustle around the main building on the shoulders of some of the newspaper boys. All the press took part in the procession and general celebration.

Supt. William Taylor has proved himself to be the right man in the proper place. No one worked harder in a quiet way for the success of the show.

Fred Dorman, the veteran door-keeper, by his genial goodnature and never failing courtesy, added new friends to the host of old ones he already possessed.

## HOUSEHOLD HINTS.

(Brooklyn Eagle.)

**Corn Pudding.**  
Take twelve ears of tender corn, grate them and add to this pulp one quart of sweet milk thickened with three tablespoons of flour and two of butter rubbed together, and four beaten eggs. Season with salt and pepper to taste. Butter a baking dish and pour in the mixture and bake in a moderate oven until a nice brown. By adding sugar and a rich sauce to this pudding may be served as a dessert, otherwise serve it as a vegetable.

## Breaded Tongue Tomato Sauce.

Cut six slices of cold cooked tongue, half a can of tomatoes, a slice of onion, a bit of bay leaf, three tablespoons of butter, three of flour, one-third of a cup of bread crumbs, one egg, salt and pepper. The tongue should be cut in slices one-half inch thick. Dip them in crumbs, then in the beaten egg, then in crumbs again, and saute them in butter, place on a hot dish and pour the hot sauce around them. Cook the tomato, onion and bay leaf for fifteen minutes, strain and stir in the butter and flour, rub together, season to taste with salt and pepper.

## Cream Sauce.

This is considered the keynote to all culinary knowledge. One important feature in making this sauce is to have it white. Another that it must be the same consistency always, never too thick or too thin, and above all it must not be pasty. The best flour to use is a patent or a straight bread flour. Cornstarch makes a beautiful smooth white sauce, delicate but not palatable as a sauce made with flour.

Measure your materials and have them conveniently near the stove before you begin to make the sauce, or else you may have it off color or lumpy.

First measure two even tablespoons of flour; then with same spoon measure two even tablespoons of butter; place this in a small agate saucepan.

Next measure a full half pint cup of milk, not as much as you can carry in a cup, but a level cupful, first placing the cup on cooking table which should be near the stove. Salt, pepper and any other ingredient to be added should also be on the table. Now heat the butter without coloring it ever so slightly; take from the fire and stir in the flour to a smooth paste; then add the milk, which may be warm or cold, but not scalding hot, and again place over the fire and stir until it begins to thicken.

Add half a teaspoonful of salt and pepper (white). It takes time to make a ball and it is ready to serve. It takes but a few minutes to make this, and if you are careful to always follow directions you never fail in having a smooth white, delicious sauce. If it cannot be served at once it may be kept hot for some time by placing over another vessel of boiling water, and should be covered to prevent the hardening of the surface which will make the sauce unsightly if stirred down into it. A properly made cream sauce may be reheated, so that when necessity demands it may be made some hours previous to serving, when combined with meat, fish, etc.

## ARCHBISHOP MACHRAY

Speaks of Some Needs of the Church of England.

The following are extracts from the message of Archbishop Machray, read at the Anglican Synod in Montreal last week:

"By far the most important question before the General Synod," he said, "is the formation of a general mission society for the whole Dominion. The collapse of the scheme when before proposed was a great disappointment to the West, but the action of the church has been weak beyond expression, and help from the east has only been brought out by spasmodic appeals from the needy dioceses. Economy, may be well, but it can be carried too far. It is hopeless to expect adequate results from inadequate means.

"Many things conspire today to draw men from public worship and lessen the sense of the sanctity of the Lord's Day, but upon these dangerous vital religion. Intemperance continues an excessive evil, but the abandonment of so many to all kinds of amusement, luxury, and extravagant living is doing even more to sap the foundations of honest social life. The church must be firm in this.

"As to the grave question of bringing up the young in the nurture and admonition of the Lord, it is hopeless unless religious instruction is given in the day schools. The teaching of the Bible and the main truths of our faith are of such importance, I trust the church will endeavor to secure the help of other Protestant denominations. We must not insist on all we would like. Enough is done if we can secure a satisfactory knowledge of the main facts of the Word of God."

## MOOSEPATH PARK.

There was quite a gathering at Moosepath Park Saturday morning to witness the completion of the 228 class and free for all, in which two of the heats were gone Thursday. The track was in much better shape than on Thursday, but it was heavy still in consequence of the rain. Golden Gate, who scored both heats in the 228 race Thursday, finished first again Saturday, thus capturing the money prize in the free for all. It was a very unusual feat to make any sort of a show on the first day on account of the heaviness of the track, finishing fifth and third in the two miles done, had little difficulty under more favorable conditions.

In winning three heats in succession Saturday, it was an easy victory for the handsome little mare, and her time, 2:23 in the fourth heat, was under the circumstances, a remarkably good performance. Kate Willard, the winner of Thursday's heats, was only able to do third in two heats Saturday.

Walter K. was second in the third and fourth, but in the last heat he was away behind the others. It will be remembered that on Thursday afternoon, when a heavy rain storm prevailed and the track was soft and slippery, Mr. Keith, the owner of Ituna, and Mr. Keith, the owner of George, asked the judges to postpone the race till the track was in proper condition. The judges did not at once accede to their request and Messrs. Johnson and Keith announced that they would draw their horses. This was announced from the judges' stand, and immediately afterwards Dr. Reed, the starter, declared the races postponed. He added that the judges had decided to allow Messrs. Johnson and Keith to start when the race was resumed.

Saturday morning there was a change in the personnel of the judges, the officials, the track and the horses. Dr. Reed, the starter, was W. A. Christie, R. Worden and H. J. Fowler (Hampton) judges; W. S. Jewett and A. Col. Markham, timers. Before calling out the horses for the free for all, Dr. Reed, addressing the crowd on the track, referred to the fact that two of the horses were drawn the other day. He also alluded to the decision of the judges on that occasion to let them start on the determination to let them postpone the events. Whether they did right or wrong on that occasion he did not propose to say. A protest had since been entered against their being allowed to compete, but the judges at this time, too, had decided to allow Ituna and George to start.

The judges announced Ituna as the winner of first money, and Dr. Reed said the pool seller had handed his book with the money over to Dr. Johnston, the secretary of the track. He would be guided by the decision of the court of appeals of the National Trotting Association in paying over the money.

Dr. Reed also announced that Mr. Johnson, the owner of Ituna, had under the circumstances waived all claim to first money. The purse would therefore be divided, so that Kate Willard would get first, Walter K. second, Charles M. third and George fourth.

**MONTREAL, Sept. 7.**—There were two fatalities from fire yesterday. Marion Elliott, the nine year old daughter of Rev. Dr. Elliott of Sherbrooke street church, died in the hospital from burns received while playing with a bonfire. Her father was attending the Methodist conference at Winnipeg. Mrs. Edward Yon was burned to death. The explosion of a lamp set fire to her house, and in trying to save her children she perished in the flames.

Arrangements are being made to build a steamer to cost about \$30,000 for the Halifax and Canso route. The Nova Scotia government will give a subsidy of \$2,000 and the federal government of \$4,000 a year.

**CHAPMAN FESTIVAL CHORUS.**  
A Galaxy of Stars Will Be in St. John With Chapman.

The programme for the four great concerts which compose the festival in St. John to be given Sept. 29 to 30, present a fine array of artists, some magnificent choral effects and great orchestral works, all of which no doubt be enjoyed by the large audiences which will fill the Victoria Rink. The musical interest this season as it will be a treat to listen to the fine choral effects with the grand orchestra.

The influence of these musical festivals is far-reaching and most helpful and its educational advantages are now being brought before the old and young. Mr. Chapman brings to us this year an almost entirely new galaxy of stars. All will welcome the charming artist Madame Bouton who made her first appearance with us last season, promising to us then her rare ability as a contralto soloist, also Gwynn Miles, the baritone, who has many friends in St. John and is always a favorite. The star prima donna, Mary Howe, has not been heard with orchestra in America for ten years. She has, however, been singing in Europe, and her success abroad both in concert and opera rank her with the greatest American prima donnas. Her beauty is unequalled on any stage. Her fascinating and winning manners will surely attract, while her beautiful, flexible and magnificent trained coloratura voice captivates all who listen. Mr. Chapman is delighted to have Miss Howe make her first appearance at this festival as she is sure to be the coming star in the great success this season in all the leading festivals and cities. She is booked for an extended tour in this country before she returns to fill important engagements in Europe. Miss Margaret Fry, just returned from Paris, is a soprano of great ability, with a voice of remarkable sweetness and power. Edward P. Johnson has an exceptionally fine tenor voice and was a great success as a member of the Boston Chorus last season. Francis Archambault, the Canadian baritone, where by the power of his magnificent voice. Hans Kronold the cellist is always a delight, a restful pleasure goes with his soulful handling of his beloved instrument. Mary Howe and Madame Bouton will sing both evenings and the matinee performance as effective and the chorus numbers are exceptionally fine. The choruses are re-assembling for final rehearsals and the subscription lists are now open.
