## BOER ADVANCE ON CAPE COLONY.

This sketch map of the country upon the western border of the Orange Free State and Cape Colony will give a grasp of the news which comes from there concerning the advance of the energy upon Cape Colony. They have already occupied Colesburg and Aliwal North; have caused the evacuation of Stormberg Junction, which had been fixed upon by General Buller as his base of supplies for his march through the Free State; and seem to have control of the country around De Aar Junction, which by many is regarded as the pivotal point of the campaign as being the key to the whole advance.

on high. Saviour of the world, "Suffer the little children to come unto Me, and forbid them not, for of such is the kingdom of heaven," our hearts have gone out to the "desolate and oppressed,' the despised, and in many instances the forsaken little ones in the alleys and slums of this city. One or two cases were brought before the notice of the committee, of children whose habits were so vile, and language so low and wicked, that we shrank from permitting them to come in contact with the inmates of the Home, dreading their contamination. Yet it is to reclaim such, to deliver them from such depredation, that the Home is maintained, so we did not dare to refuse them admittance. One of these children, after a year's training in the Home, was so greatly improved in manners and appearance that a visitor, who had not seen her since her admission to the institution, expressed her surprise and pleasure at the change in terms of highest approval. The old query is often repeated, "Who will show us any good resulting from your efforts after all?" We reply, it is only little by little, very slow and gradually that any progress is made, any reform instituted. only too, and above all, in dependance upon God's Holy Spirit that we can hope to accomplish any good or fruitful work for 'Him. We are journeying unto the place of which the Lord said, "I will give it you," and as individual Christians, as well as corporately, a band of White Ribbon women, working for the advancement of the kingdom of heaven, we feel that our Little Girls' Home meets a crying need, as a shelter from the storm of life to which many of them were exposed when they wandered through our streets, homeless and houseless. We have had some bitter disappointments. The first young girl admitted to the Home when it was opened, for whom a complete new outfit had been provided, and who had made numerous promises of obedience and submission to the matron, ran away several times, returning at length to the former lawless life she led, begging in the day time, out on the streets at night, till your committee found her in the jail, at the age of seventeen, a ruined girl. As one's eyes rested on the youthful countenance, mantled with the blush of shame, and thought of the possibilities that had been offened her, Whittier's san refrain rose to the mind: "Of all sad words of tongue or pen, The saddest are these, 'It might have been.'" Another case was that of a child

Her disreputable mother traced her, decoyed her from her best friends, and dragged her down to her own level. These incidents are discouraging, but we realize that the failures we have met with in the work hurch

are the exception, not the rule. Twenty-five girls, ranging from five to fifteen years of age, have been admitted to the Home since its foundation in 1893, the majority of whom have been adopted into respectable families and comfortable homes, leaving eight inmates of the home at present, the average number. It was then generally believed that all the horses, including animals owned by Drs. MacLaren and Morrison and T. L. Bourke had been destroyed. A second alarm brought out the north end division, and good work was done all around. The flames were confined solely to the rear, much to the credit of the department.

The property in which the nre was confined was owned by the Crosby estate. The front portion was occu-pied by Mrs. deForest as a boarding house and by Israel Isaacs as a dwell ing, by the Blackhall people as an or fice and by William E. Moore, painter Mrs. de Forest moved out, but the other tenants abided by the advice of friends, and consequently are that much better off, as the flames and water did not reach them.

After some hard work the fire was confined to a limit, after which it was only a matter of minutes before it was extinguished.

Before the "all out" was rung in three horses were removed from the stable, much to the surprise of everybody, as it was generally believed that the nine animals that were in the barn when the fire broke out were either smothered or burned. One of the animals saved belonged to Dr. W. S. Morrison and the other two to the stable people.

monious.

The damage to the property is coniderable. The barn, or the portion in which the horses were statled, is a complete loss. This includes the hay and feed and six horses.

The portion of the property that extends through to Union street escaped serious damage, although J. J. Dwyer and Mr. Crawford suffered considerabel loss by water. A stream of water was carried through Crawford's store to the roof, and as a result the rear of the premises was considerably damaged.

The building owned by the Crosby estate is, it is understood, insured. The Blackhall stable was recently, at a meeting of the creditors, handed over to F. Peters for management. The horses, carriages, coaches, etc., were insured for \$700 in the Keystone and \$1,000 in the Guardian Insurance companies.

Mrs. DeForest was insured for \$750 on household furniture in the Keystone.

J. J. Dwyer, book store, Union strect, who suffered considerably by water, is insured for \$500 in the North British and Mercantile.

The premises occupied by Mr. Crawford suffered a considerable loss by water. Mr. Crawford is insured for \$500 with T. B. & H. B. Robinson, and for \$700 in the Atlas Insurance Company.

R. W. W. Frink, ex-captain of the Salvage Corps, met with a rather painful accident while the men were stretching the hose from No. 3. In some unexplainable manner he was struck by the revolving handle of the cart on the left forearm, with the result that that member was fractured.

THE PLEBISCITE.

Address by Rev. Mr. Weddall, Pastor of Queen Square Methodist Church.

Rev. Richard Weddall, pastor of Queen Square Methodist church, spoke on Temperance at Friday night's meeting of Epworth League of Centenary church. Referring to the plebiscite, Mr. Weddall said that the dominion ministers submitted the prohibition question to the decision of the people. They entered into an obligation that the will of the people would be carried but. The people so asked to decide gave their verdict that the sale of iquor should be prohibited. A large majority of the popular vote, a large majority of the constituencies, and seven provinces of the eight so deermined. Mr. Weddall went on to say that it was a common thing to obtain pledges from men who hold responsible positions. The governor general is sworn in. So are the judges. is the mayor. If a man takes the obligation and breaks it, the obligation does not disappear, and the office is not destroyed. The man is destroyed. He must step down and out. What then shall we do with those ministers who have broken their obligation? Mr. Weddall said that he belonged to Mr. Weddall said that he ad generally one political party and had generally and had generally and he But when any, government, conservative or liberal, was guilty of such an offence as this government had committed in the plebiscite matter, his advice was that all out a thought of self?
