

Latest and Varied Silhouettes in MISSSES' AND WOMEN'S

New Modes In Spring Suits

The most elect styles of the season at
\$39.75, \$50 and \$65

Only the creations of fashion itself limit these collections. Suits of Poiret Twills, Trierettes, Men's-Wear Serges, Velours, checks and novelties of such distinction as to win your admiration. While each suit is thoroughly in the vogue, it is wholly apart from the commonplace by unusual innovations. There are suits with box coats, short coats and medium straight-line models, with narrow tie belts. The new butterfly styles are also shown, and many are most elaborately embroidered.

**New Spring Millinery
at \$6.00, \$7.50
and \$10.00**

These are Hats of a type for which you have been accustomed to pay much higher prices. Many are hand-made models, and all have those distinctive trimmings that mark them as new.

WAGE CUT WILL AFFECT 43,000

New York Central Making
Reductions Effective
April 16.

NEW YORK, March 10.—The New York Central Railroad today announced that beginning April 16 it would reduce the wages of approximately 43,000 employees. It was understood that the subsidiary lines, forming a system which employs 174,000 men, soon would follow the lead of the parent organization.

The subsidiary companies include the Boston and Albany, Michigan Central, Big Four, Pittsburgh and Lake Erie, Lake Erie and Western, Ohio Central, Zanesville and Western, Kanawha and Michigan, Kanawha and West Virginia, and the Indiana Harbor Belt Railroads.

Eighty-five classifications of employees will be affected by the reductions, and most of these men are members of one or another of the national labor organizations, the company announced.

The reductions proposed will be variable, but probably will be based upon the increases in pay granted by the United States Labor Board's decision No. 2, made July 20, 1920.

GOVT. TO CABLE PROTEST OVER CATTLE EMBARGO

Official Action Will Be Taken
Immediately by Ottawa.

DOHERTY IS CRITICIZED

F. H. Keefer Withdraws His
Resolution Regarding Deep
Waterways Question.

OTTAWA, March 10.—A sub-amendment supporting the attitude of the present and previous Canadian governments in protesting against the implication of disease in Canadian cattle contained in the embargo against such cattle as now maintained by Great Britain, carried without a division in the House of Commons this evening, thus disposing of a somewhat lengthy debate on the question of the British embargo against entry of live cattle to their ports. The prime minister stated in answer to a question that he would see that the decision of the Canadian Parliament was carried to Great Britain.

E. E. Pedlow (South Renfrew), who had moved, in amendment, to W. Smith's motion, that the embargo should be strongly protested against the reasons assigned by the British Government for maintaining the embargo, said he would support the sub-amendment which was moved by Dr. Michael Steele (South Perth). The original resolution was that it was "not in the interests of Canada" that the embargo should be removed by Great Britain.

The sub-amendment received generous support from speakers on both sides of the chamber. Hon. Arthur Meighen, supporting it, said many persons thought, and he was not free from the open himself, that the embargo was really protection for the British cattle industry under another name. However, if the British Government wished to protect that country's cattle industry it must not so under the embargo of 34 years ago on the suspicion that one or two animals were diseased.

In moving his amendment Dr. Michael Steele criticized Hon. Mannville Doherty, Ontario minister of agriculture, for going over to Britain on this matter.

The Ontario minister, Dr. Steele declared, would go down into history branded as "Middle-class Manly" of the man who interfered in federal matters when he had no right to do so.

F. H. Keefer's resolution urging the investigation of a deep waterway system from the headwaters of the St. Lawrence was again defeated, and finally withdrawn by Mr. Keefer.

W. Jacobs (George Eliot-Carter) saw in the resolution "the unmistakable signs of an impudent and unbecoming attempt to consider the spending of \$500,000,000 on this project now, he said, it was surely open to the suspicion of lunacy."

The prime minister announced the formation of the special committee on pensions and re-establishment, and in answer to a question that the government had not changed its position in regard to the matter of cash bonuses for returned soldiers.

Consider Pensions.
At the opening of the House of Commons this afternoon Premier Meighen moved for the appointment of a special committee to consider questions relating to the pensions, insurance and re-establishment of returned soldiers.

Two sessions a committee had been appointed for this purpose and the administration policy in regard to the treatment of returned men had been largely developed by this committee.

Returned men had requested that the committee be appointed again this session. He believed that it was the disposition of every member of the House, as well as of the public, to see that nothing was left undone to take care of the just demands of those who did so much for Canada.

Committee Named.
In view of this, said the prime minister, he wished to move for the appointment of this committee, which would ascertain what had been done and recommended improvements which suggested themselves as a result of its deliberations.

He moved that the members of the committee be as follows: Messrs. James Arthur (Perry Sound); F. S. Bell (Essex); J. Brien (Essex South); R. W. Caldwell (Victoria-Carleton Place); W. Chisholm (Inverness); R. C. Cooper (Yanover South); A. C. Cope (Windsor); Hume (Cromwell); J. M. Douglas (Strathcona); J. W. Edwards (Frontenac); R. P. Ross (Middlesex); Thomas MacNutt (Salt Coats); A. McGregor (Pictou); H. B. Morphy (North Perth); E. W. Nesbit (Oxford North); C. W. Peck (Skeena); C. G. Power (Quebec South); D. Ross (Middlesex); J. K. Sweeney (Yarmouth); J. Turpin (Quebec); W. H. White (Victoria); J. R. Wilson (Saskatoon).

Is Not Certain.
Replying to the prime minister, the prime minister said he was not certain at the moment whether the government would be received by the Government for reappointment of the committee. But, the exception not to be met by delegations from various veterans' organizations seeking for the committee's reappointment. Many suggestions had been received, and the committee would be clear that on the question of bonus by way of cash assistance, the policy of the government was unchanged.

Dr. Reid, minister of railways, corrected an error in the press regarding a question yesterday. He then said that since 1917 227 locomotives had been ordered from the Montreal Locomotive Company at a cost of \$1,329,300. A clerical error had resulted in the dropping of a cipher. The figures should be \$13,293,000.

"It is a small matter," commented Hon. Charles Murphy, and the House laughed.

What's Information.
H. H. Stevens (Vancouver Centre) questioned the Government regarding a statement in the press credited to the attorney-general of British Columbia to the effect that the amendments to the Canada temperance act were worthless.

Mr. Stevens asked if it was true that several provinces having prohibition laws had refused to take advantage of the Doherty act, and if it was the opinion of the prime minister that the Doherty act would prevent the importation of liquor into any province which voted against such importation.

The prime minister said that his attention had not been called to the statement. He said that no province having prohibition laws had refused the provisions of the Doherty act. This was a federal act which became law whether the provinces desired it or not once the people of that province had voted to prohibit the importation of liquor.

Answering Mr. Stevens' third question, the premier stated that the federal act undoubtedly did prohibit importation once it was in force.

Cannot Say Yet.
Hon. W. S. Fielding asked the minister of finance when the budget would be brought down.

He replied that it was difficult to say anything definite in this regard at the moment, as the budget would be brought down to Ottawa to be heard. As soon as the budget would be brought down before the House.

Edmund Bristol (Toronto Centre) was centered in the powerful group of New York financiers.

Attacks Waterways.
In a vigorous attack on the expenditure which would be entailed by the waterways developments, J. E. Armstrong (East Lambton) recalled that some \$400,000,000 had already been spent in buoying, deepening and lighting harbors and waterways, with a view to reducing freight rates.

"The only result has been that our rates have been doubled, even quadrupled, yet, parliament has no control over these uninterupted increases. I am absolutely against the expenditure of money unless this parliament shall have control over the rates for the transportation of freight."

Dr. J. E. Fontaine (Fridt), who seconded the motion, declared it was an undertaking financed with Canadian money for the benefit of the United States. He urged the immediate development of the Georgian Bay route which he maintained was an essential national enterprise.

He said that the government had no control over these uninterupted increases. I am absolutely against the expenditure of money unless this parliament shall have control over the rates for the transportation of freight."
