

The Purchasing Power of Your \$1.00 at This Store Means \$1.25 and \$1.35 Regular Values!

Fine English Tapestry
Square Carpets all re-
duced.

Men's Hats and Caps—
and piles of them, all at
big reductions.

Stanfield's Underwear
requires no advertising.
All well known; all
down in price.

Any store can make this claim, but
do they do it?
Close comparison is the best test.
We court the closest comparison in
every department.
The easiest sales we make are to
those having made comparison.
Our "Record Sales" each month and
season are the best evidence we have
of prices being right, our merchandise
being satisfactory and our service be-
ing appreciated.

LOWERING OUR STOCK OF MERCHANDISE BEFORE CHRISTMAS

Almost everything in the store re-
duced from 10 to 20 and 30 per cent.,
and in some cases more. Many lines
we cannot purchase again at our pre-
sent cut prices. If prices remain up,
we are foolish; if wholesale prices
drop, we are wise. With the manu-
facturing difficulties and labor prob-
lems, the shrewdest buyers see no
possibility of phenomenal change in
prices for spring, 1921. Notwithstand-
ing these facts, we are going to play
"Safety First."

OUR BIG REDUCTIONS FROM PRESENT VALUES

will give our customers a chance to
purchase from Great Stocks of Stan-
dard Merchandise. Just what they
want, at unmatched prices, no differ-
ence from what source.

THE STORE WITH THE GOODS

One of Four Millions

(A Photograph Direct from the War-Stricken Area)

\$1 per Month Preserves the Life of One Child

Millions of war orphans in Central Europe are growing
up undernourished and stunted.

Thousands of them are dying of typhus, tuberculosis
and small-pox.

There is almost a complete lack of the nourishing foods growing children need,
of clothing, of doctors, nurses and medical supplies. The condition of the
children is pitiable in the extreme.

Upon this coming generation depends largely whether these nations will be
healthy and right-minded or a hot-bed of anarchy and degeneracy—a menace to
the world.

It has been found by experience that the cost of caring for a waif child is
approximately three dollars per month; that of the supplies that are required
by imports about one dollar is needed; and therefore the dollar that we
provide, together with the local support of local governments, local municipi-
alities, local charities and local services practically preserves the life of
one child.

Ontario's half-measure liquor legis-
lation and inadequate provision for its
enforcement must share in the res-
ponsibility for the Windsor tragedy of
Saturday morning. Granted that in
this case the victim may have by de-
fiance of the law placed himself in
jeopardy, there would doubtless be
more respect shown for the law if dis-
interested persons were detailed to
enforce the provisions of the Act.
Dilly-dallying with the liquor question
is bound to create trouble. What the
province wants is legislation that will
mean something one way or the other,
and then to have the law enforced to
the letter if it takes the whole police
force, mounted and unmounted, to do it.

In the biggest Republican landslide
since 1904, if not in the history of the
nation, Senator Warren G. Harding of
Ohio was elected president of the
United States, and Calvin Coolidge
vice-president. It is expected that
Harding will have at least 346 votes
in the electoral college. The election
was fought out on the League of Na-
tions issue. Governor Cox of Ohio,
the Democratic presidential candidate,
supported the League, Harding oppos-
ing it. By Tuesday's vote the people
of the United States are overwhelm-
ingly opposed to entering the League
of Nations. The victory for the Re-
publicans, who are supporters of a
high tariff, may also affect the trade
relations between Canada and the
United States.

Toronto Mail.—London city council
has passed a resolution asking that
the city have four members in the
Legislature, instead of one. The
county of Middlesex has three mem-
bers for 41,000 people. Ontario cities
and towns are much under-represent-
ed, both in the Ontario House and the
Dominion House, and if the rural com-
munity wages a political battle on
them, through the U. F. O. movement,
they are entitled to a fair deal in rep-
resentation in order to defend them-
selves.

"Safety first" may be a good motto,
but most men prefer the old-fashioned
blade when shaving.

THE COUNTRY WEEKLY

The Financial Post some weeks ago
had a good word to say for the coun-
try weekly paper:
"A rural weekly and small city daily
is more of a public institution than a
money-making enterprise. There are
few editors of rural and smaller daily
papers who are not underpaid, self-
sacrificing public servants. They give
more than they get from their com-
munities. Another phase of good
work these local papers do is to keep
those who go out into the world, to
the big centres and to foreign parts,
in touch with their old homes. This
is really a great national service, a
good investment for the country.
There are few men and women who
do not hope to go back to and do
something for the old home. If the
world treats them well they want to
share the good things with the church-
schools and institutions in their
old homes. Many of them do. These
generous thoughts can be best retain-
ed by keeping them constantly in
touch with the doings at home. There
is only one way—the local newspaper.
No matter how busy we are we take
time to read that."

CONFIDENCE AND CO-OPERATION

There is only one paper in Canada
owned by the farmers and circulating
among the farmers, namely, "The
Farmers' Sun." It fights the farmers'
battles politically, gives more accurate
market quotations than any other pa-
per in the Dominion, features other
agricultural news, as well as the ac-
tivities of the U. F. O., such as their
co-operative work and kindred prob-
lems. No paper in Canada furnishes
more accurate news reports of matters
which interest the farmer, nor is any
editorially than The Farmers' Sun.
The paper is published twice a week,
so that a subscriber gets one hundred
and four issues for \$1.50. Farmers,
subscribe for a paper which you own
and have confidence in. Send \$1.50
today to The Farmers' Sun, Toronto.

Ridgetown Dominion.—You need
not be without occupation for the long
winter evenings. You can just spend
your time trying to understand the
mind of the taxation experts of the
Dominion Government. You have to
pay taxes. That's right, you'll be
fined if you don't. But you cannot,
that is, if you are a business man you
cannot, pay taxes unless you have a
license. If you pay a license to pay
taxes as a manufacturer you can pay
taxes as a manufacturer, but if you
have to pay more taxes than a manu-
facturer you have to have another li-
cense to pay the taxes that you ought
to pay, or have to pay more than the
taxes that your license as a manufactur-
ing taxpayer entitles you to pay.
Otherwise you will be fined if you
don't pay them, and you'll be fined if
you do pay unless you first pay for a
license to pay for them; and then,
again, you will be fined if you don't
get a license so that you can pay the
taxes and so avoid being fined for not
paying the taxes just because you did-
n't have any license to pay them.
What are we talking about? Darned
if we know. Ask the Dominion Gov-
ernment. It has taxation experts just
out of the bughouse, while we haven't
been there—yet.

THE SEEING EYE

Principal Reynolds of the Ontario
Agricultural College thus delivers him-
self in the Agricultural Gazette of
Canada:
The teacher who hopes to take a
right place in the life of the country
school district must cultivate the see-
ing eye and the understanding heart
for persons and things rural. The
usual, popular, melodrama, comic sup-
plement, moving picture conception of
the farmer and of country people must
be forgotten. It is essentially and
perniciously false. The farmer is
something of a humorist, and takes
delight in deceiving the simple-minded
by a somewhat unfinished exterior.
The city-bred person makes the fatal
mistake of judging by outside appear-
ances. To the city-trained eye there
are two classes of persons, one wear-
ing overalls and the other wearing
white collars. The former class work
with their hands. The latter class
work with their brains. That is the
superficial judgment, which ignores
the fact that there is a very great
deal of clear, hard thinking done to-
day by the men wearing overalls. At
any rate, the farmer belongs to both
classes. The more he understands of
those discoveries which it is the busi-
ness of the agricultural college to
make, the more he absorbs the teach-
ing which it is the business of the
college to spread abroad, the better
farmer he will be.

Gasoline is dangerous. It is one of
the most rapidly volatilizing fluids.
One pint of gasoline will impregnate
200 feet of air and make it explosive.

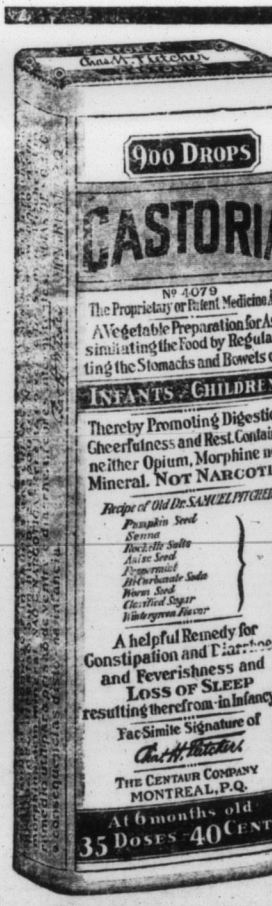

Miller's Worm Powders will clear
the stomach and bowels of worms, so
that the child will no more be trou-
bled by their ravages. The powders
are sweet to the taste and no child
will object to taking them. They are
non-injurious in their composition, and
while in some cases they may cause
vomiting, that must not be taken as a
sign that they are nauseating, but as
an indication of their effective work.
