Nearly three hundred thousand Canadians of all classes are policyholders in the Metropolitan. The number of Policies in force is greater than that of any other Company in America, greater than all the regular Life Insurance Companies put together (less one) and can only be appreciated by comparison. It is a greater number than the combined Population of Greater New York, Chicago, Philadelphia, Boston, Toronto, Montreal, Quebec, Ottawa.

## Accidents vs. Fires

It is said that 20,000,000 Accidents and Illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

## \$20,000 IN TEN DAYS

IN one of the Western Cities, a party of four canvassers set out last month to place the Great West Life Policies. They were utterly inexperienced, but by carefully following the methods suggested by the Company, they were successful, within ten days, in closing \$20,000 of business. Not a large amount, but suggestive of exceptional possibilities.

Agents are required at the present time at North Bay, Parry Sound, Brockville, Aylmer, Walkerton, and Strathroy.

The Protestant School Board, of Montreal, has adopted a plan of fire escape from their schools. It consists of communicating doors between the class rooms, with access to the escape cut through the cloak room windows. The escape itself will consist of short run iron steps, enclosed in a wire mesh, but not covered. This is recommended to be used by the scholars when dismissed at noon each day for the reason that the public will never be satisfied or have full confidence in the escape if it is used only on stated occasions for the purpose of fire drill, nor can the commissioners or those in charge of the schools be certain that the escape is always in working order unless it is used daily.
