

DEAR MRS. PINEHAM: - It is with thankfulness I write that Lydia "Dear Mrs. Pinkham:—It is with thankfulness I write that Lydis E. Pinkham's Vegetable Compound has been of the greatest help to me. My work keeps me standing on my feet all day and the hours are long. Some months ago it didn't seem as though I could stand it. I would get so dreadfully tired and my back ached so I wanted to scream with the pain. When I got home at night I was so worn out I had to go right to bed, and I was terribly blue and downhearted. I was irregular and the flow was scanty, and was pale and had no appetite. I told a girl friend who was taking your medicine how I felt, and she said I ought to take it too. So I got a bottle of Lydia E. Pinkham's Vegetable Compound and commenced to take it. It helped me right off. After the first few doses menstruation started and was fuller than for some time. It seemed to lift a load off me. My back stopped aching and some time. It seemed to lift a load off me. My back stopped aching and I felt brighter than I had for months. I took three bottles in all. Now I never have an ache or pain, and I go out after work and have a good time. I am regular and strong and am thankful to you for the change. "I recommend Lydia E. A BIBLE SUNDAY.

Meeting of Bible Society Representatives in Montreal.

Montreal, Feb. 20. - Representatives of the British and Foreign Bible Society, Canadian auxiliaries, agreed yesterday to observe Sunday, March 6, 1904 as "Bible Society Sunday" throughout Canada and Newfoundland in unison with the rest of the empire. in unison with the rest of the empire. It was also agreed that in addition to the ordinary annual offering to the parent society, a special thank offering of at least \$5,0,000 be raised in British North America during the centenary year to aid the parent society in translating and circulating the Bible. There was some misunderstanding in some auxiliaries regarding the formation of a Candadian Bible Society, which would unit all the auxiliaries in Canada and Newfoundland, and the matter was referred back to the auxiliaries to report to a future meeting. The parent society, having signified its intention to send three representatives to Canada this year, the Executive of the Upper Canada Bible Society, with Rev Dr. Shaw, Rev. F. M. Dewey, Judge Forbes, Rev. Dr. Armstfong and Rev. Mr. Almon, were entrusted to make appointments throughout the Dominion. The question of supporting a monthly publication in the interests of all the Canadian auxiliaries was deferred until the federation of Canadian auxilaries is settled. The Executive of the Upper Canada Bible Society was entrusted with the selection of a suitable deputy or deputies to represent the Canadian auxiliaries at the approaching centennial celebration in England in March, 1904. Among those present : were Rev. Dr. Armstrong, Ottawa; Rev. Dean Innis and Rev. J. H. Orme, Western Ontario Society; Rev. Dr. Chambers, Rev. Jesse Gibson, Messrs, E. B. Biggar, J. C. WOMEN, WHY SUFFER?

Paine's Celery Compound

Permanently Banishes Nervousness and many Other Female Weaknesses That Afflict Women Young and Old.

Nervous disorders and diseases are on the increase, and women of allages are sufferers. Digestion gives out, there are pains in the head, the tongue is coated, the muscles/ache, there is constipation, heart palpitation, gloomy fears oppress continually, and sleep is broken and disturbed. The only reliable remedy that medical science has given to women for their emancipation from suffering cal science has given to women for their emancipation from suffering and weakness is Paine's Celery Compound, now so largely prescribed by physicians with the happiest results. In critical cases Paine's Celery Compound has saved life and restored health when allyother medicines proved failures. Jessie M. Ross, Quyon, Que., who found Paine's Celery Compound to be "woman's best friend," writes as follows:

"It affords me much pleasure to testify to the great good that Paine's Celery Compound has done for me. I was completely rundown in health and a victim of female weakness, and after using three bottles of your wonderful

When a horse picks up a nail in his foot what does the driver do? Does he whip the limping, lagging animal and force him along? Not unless he wants to ruin the horse. At the first sign of lameness he tumps down, ex amines the foot and carefully remove the cause of the lameness. What is called "weak stomach" is like the lameness of the horse, only to be cured by removing the cause of the trouble. If you stimulate the stomach with "whisky medicines" you keep it going, but every day the condition is growing worse. A few doses sometimes of Dr. Pierce's Golden Madical Discovery will put the disordered stomach and its allied organs of digestion and putrition in perfect condition and nutrition in perfect condi-tion. Ninely-eight times in every hundred "Golden Medical Discovery" will cure the worst ailments originat-ing in discase of the stomach. It al-ways helps. It almost always cures. This Company has secured 10,000 acres of the choicest wheat lands in Assiniboia, Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, wagons, tools, fences, and everything necessary to operate the said 10,000 acres. In addition, the Company is to pay to the Canadian Pacific Railway Company and the other vendors of the said lands \$50,000 in yearly installments of \$10,000 each, being the balance of the purchase money.

These lands are capable of producing, at a fair estimate, 30 bushels to the acre of the best wheat produced in the world, of a total capacity of 300,000 bushels per year. Owing to the rich, prolific nature of the Northwestern Canadian soil, this product can be duplicated each year indefinitely. The Company's property will always be equipped with all the latest improved steam plows, drills, threshers, and necessary machinery to produce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of a capacity sufficient to store its entire production, thus cnabling them to take advantage of the highest market prices from time to time. The market for wheat is the same as for gold—it is unlimited. It is the company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000 acres above mentioned, the property being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product.

This is an investment that will enhance in value as time goes by, not only from the large production of wheat, but the increased value of the Company's lands from year to year.

APPROXIMATE EARNINGS OF THE COMPANY

Are Estimated as Follows:

The average yield of wheat in Western Canada varies but little under all conditions. In some years the average has been over thirty-five bushels per acre. Many individual cases report as high as forty-five and even fifty-five bushels to the acre. But, taking the lowest average, there is no industry that will produce better profits. Owing to the modern steam machinery and economical methods employed in cropping, harvesting, threshing and marketing, ac well as the especial case with which in the prairie country of Western Canada, wheat is produced, there is slways a splendid profit. The cost of raising an acree of wheat, being placed by farmers and experts at about \$5.00 per acre, there have been cases in the past few years where as much as \$35.00 has been realized, less the cost of \$5.00, leaving a net profit of \$30.00 per acre.

A safe and conservative estimate of the Company's earnings, taken much below the above figures, is herewith given:

ESTIMATED NET PROFITS PER YEAR.

It will be seen that, after paying the expenses of raising wheat on 10,000 seres, amounting to \$50,000 each year, and paying \$10,000 per year to the Canadian Pacific Railway (for 5 years) as yearly payments on the property, it is estimated there will still remain a profit of \$120,000 per year, or over 20 per cent, per annum on the stock issued.

TREASURY ASSETS.

The Company now have, after paying the 60,000 shares to the owners for the lands, improvements and equipment, 140,000 shares still in the Treasury, the same being set aside as a Treasury Fund. 50,000 of these shares are now being offered for subscription in Canada and England, and are to be sold for the purpose of taking up the option, and acquiring the 10,000 acres of new wheat territory, and the equipment of the same, together with working capital.

By acquiring the additional 10,000 acres, making 20,000 in all to be owned and operated by the Company, the profits will be more than doubled, or over 40 per cent. on the 110,000 shares of stock issued.

The balance of 90,000 shares will be held as an asset of the Company, which can be sold when required for extending the operations of the Company.

DIVIDENDS.

Dividends of, say, 15 percent, per year, it is estimated, can be paid semi-annually. December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus carnings will be accumulated, and will either be divided among the shareholders as extra dividends, or used to purchase new wheat territory; or be otherwise employed as may be herealter

WESTERN CANADA

is fast becoming the Eldorado of Great Britain. Its wheat lands will create more wealth than all the gold and diamond mives of the Empire. The failure of a crop is unknown. (See the report of Hon. Clifford Sifton, Minister of the Interior, Canada, extracts of which are published in the prospectus of this Company.) The wheat of Western Canada is well known to be extremely Hard No. 1, the best quality grown in the world; the yield also being considerably more per acre than in the Unit & States. The sub-soil throughout the intense heat of summer is kept moist by the slow melting of the deep winter frosts, the moisture ascending to the surface and moistening the roots of the grain, thus stimulating growth and producing a bounti'us

DEMAND FOR WHEAT.

The demand for wheat from England alone is over 160,000,000 bushels per year, and from other European countries about 250,000,000 bushels, most of which is obtained from the United States, but of a poorer quality than can and will be furnished by Canada. The Canadian Pacific Railway runs within easy hauling distance of the property and is doing everything in its power to increase wheat raising.

A RELIABLE INVESTMENT.

This Company has an advantage over other industrial enterprises through the fact that while the Company's earnings from its wheat products will be constantly growing, and advancing the price of the Company's shares, the land of the Company is continually enhancing in value, creating a double source of There is no business in the commercial world so profitable as raising wheat, and the investment is as safe as first-class Rails

read Bonds, for the reason that the land and improvements of the Company are always a security for its shares, besides furability to raise immensely profitable crops. The possibilities of this Company are unlimited, as the surplus carnings can be devoted to the acquisition of additional wheat lands, thereby increasing the earning capacity of the Company, and lowerings the average cost of production.

Owing to the intrinsic value of the property of this Company, and its estimated vast earning power, a rapid advance in the price of these shares will doubtless take place, and we confidently expect that this issue of 50,000 shares will be largely a lover-subscribed.
