

**ELECTRIC LIGHT
IN THE LUMBER CAMP**

Electric Light is convenient.
It cuts out most of the chances for fire,
and saves all the bother of oil lights.
There is nothing complicated about the

FAIRBANKS-MORSE POWER & LIGHT PLANT
(Made in Canada)

It can be run by anyone and supplies current for 40 20-watt lamps.

The plant is compact, sturdy, portable and efficient; it can be taken anywhere that a wagon or sled can go.

The engine runs nine hours on a gallon of coal oil and develops $1\frac{1}{2}$ horse power. The generating unit weighs but 500 lbs., the batteries 400 lbs.

A belt pulley is provided so the engine can run a pump, the grindstone, the saw gummer or any other light machine for the blacksmith's or repair shop.

Increase the efficiency of your men by adding to their comfort and providing them sharp tools to do their work.
Made in 40, 65, 100 and 200 light sizes.
