The music rendered at the Park St. Methodist Church yesterday was special at both services. In the morning a radies' quartette, composed of Misses Hill, Peate, Potter and Sandison, gave a selection and Miss Hill took the solo parts in the anthem. THE NEW PAPER

New Journal-Say Planet's Statement was "Previous."

The Planet has apparently stirred ip a veritable horner's nest by giving jublicity to the report that the Liberals purpose shortly to found a new and vigorous Liberal daily in this city. The Banner-News, the paper that at present alleges itself be the organ of the party, states that the announcement was "actuat-ed by s; leen," but of course the subject was one upon which the Banner-News is very sensitive; on the other hand Liberals criticise this paper for making the announcement rematurely instead of waiting for or soliciting later fuller facts con perning the proposed enterprise.

As a matter of fact publicity was given the recort as an ordinary news item of interest to the people this paper serves.

It is public property that much dissatisfaction exists among the Liberals who desire to be represented by a live and efficiently equipped newspaper, and that it has been pro-posed to get over the difficulty by the establishment of an entirely new and distinct paper to be run on up-to-date and businesslike lines.

"The Planet is always too pre-vious," said a Liberal frankly critioising the announcement on Satur-day, "and it would have shown more courtesy to have waited until those interested were repared to take interested were repared to take rubic action. However, everyone recognises the necessity for a good live Liberal paper. The party has been badly origined in the past and must protect, itself in the future. In the Stephens campaign the election was practically lost through a lax presentation of the issues and after the last local election the silly idea of originating the protest promanagers of the weigh scales.

The ladies were very thankful to Mr. Cathcart for the use of his piano.
