RIOTING IN CHICAGO.

POLICE COMPELLED TO CHARGE MANY TIMES.

Women and Boys Formed Large Part of the Mob—Car Strike May be Settled.

Chicago, Nov. 24.—Mayor Harrison and the attorneys for the car company and the men said after a conference that an agreement had been attained which both the men and the company could accept without stultifying themselves. It provides for a day of not more than eleven hours, and not less than nine, a day's work completed in not to exceed fifteen hours time. It further provides that the wage schedule shall be arbitrated and that all men on strike who have not committed deeds of violence shall be taken back by the company.

While preparations are being completed to-day for the opening of the State street cable line rioters were engaged in trying to put out of commission the four lines which the company has been operating on a limited scale. Trolley wires were cut in a half dozen places on Halsted street. A serious riot occurred at 41st and State streets when several trains arrived at that point. Many shots were fired by the police and one man is believed to have been hit by a bullet, while several were knocked down by the officers. While the crews were removing obstructions from the tracks at 41st street a volley of stones were thrown from behind fences. The police charged the rioters with their revolvers. A running fight ensued in which the police fired upon the mob.

At 29th street another mob blocked the cars and threw rocks. The police charged, beating many persons severely with their clubs. More trouble was encountered by the State street cable trains on the return trip near 3rd street. While the trains were down town the mob systematically choked the cable slot with stones and scrap iron and blocked the tracks with heavy steel rails. Hundreds of men, women and boys then awaited the return of the trains with stones ready to throw at them. Scores of rioters and bystanders were wounded by the clubs of the police.

ALAS, POOR CANADA.

Senator Hale Has Vision of Her Fate.

Washington, Nov. 23.—In the Senate to-day during a discussion on the Panama question Mr. Hale said: "I have little doubt that men now listening to me will see the time when Canada will become an integral part of the United States. If the plan of the most adventurous of British politicians, of a colonial preference, is carried out a tariff war would be inaugurated between Great Britain and the United States, and this English politician will seek to set Canada up as a great rival to us, an agricultural rival. Out of that will arise conditions, discussions and considerations that will end in the union of the two peoples. But we do not invite Great Britain to send Canada to us and join the Union. She is too large a power."

When Mr. Hale presented the list of the new Senate committees and the motion to adopt the report was made, Mr. Morgan said he did not regret his forced retirement as Chairman of the Committee on Intercontinental Affairs. He criticized the action of the Administration in regard to Panama, and read the correspondence bearing upon the revolution to show, he said, "that the President had known of the uprising in the isthmus before it began, and stood ready with armed ships to protect those engaged in it." He contended that Colombia had had a perfect right to suppress an uprising on the isthmus, and declared that the United States had failed entirely to observe its treaty obligations in pursuing the course it had taken. That course would be disastrous and would cause the loss of both men and treasure.

TO STOP FISH POACHING.

Cruiser Kestrel Sails To-day for North B.C. Waters.

Vancouver, B.C., Nov. 23.—The Dominion Government cruiser Kestrel sails to-morrow at daybreak for northern waters on what will undoubtedly be a very busy cruise. She is going up to the southeast corner of Alaska and the northwest corner of British Columbia, near Fort Simpson, to guard Canadian waters against poachers from the United States who fish for halibut in Dundas Channel and in the Skeena River. There are thirty-three Seattle halibut fishing boats and steamers working out of Ketchikan this winter. The boats and the men are allegedly stealing fish out of Canadian waters. Captain Newcomb of the Kestrel says that poaching must stop. It was the intention to sail this morning, but there is a party of G. T. P. engineers going up the coast who want very much to go on the Kestrel, and have received the sanction of the department, but failed to arrive by yesterday's express.

MR. ROOSEVELT MUST WAIT.

Senators Will Vote on Cuban Reciprocity Bill on December 16.

Washington, Nov. 23.—The Senate has agreed to vote on the Cuban reciprocity bill on December 16.

His Life For Four Dollars.

Kingston, N.Y., Nov. 23.—Charles Rasch, a Swede, one of the crew of the steamer Sagerities, which was burned at Sagerities last night, lost his life in the fire. He had escaped from the boat, but went back to get a suit of clothes containing \$4, and was suffocated.

Another Denial.

Winnipeg, Nov. 23.—(Special.)—There is no foundation in the report circulated by E. W. Thomson through The Boston Transcript of starvation in the Barr colony. A prominent member of the colony, just arrived here, says all are well housed for the winter and have supplies in abundance.

THEY ACTUALLY

DO THE WORK

Food Eaten Is Worthless Unless Digested—Some Stomachs Must Have Help.

Food taken into the stomach which, from the nature of the food or the condition of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes, and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as reasonable for a business man who is unable to do all his own work to cut down his business to his own capacity, or for a man to starve himself to relieve his stomach. The sensible business man employs help and goes forward with his business. Likewise the sensible dyspeptic will employ help for his stomach and give his body proper nourishment.

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive duty. These component parts are identical with those of the digestive fluids and secretions of the stomach, and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means body and brain get all the good, nutritious food they need and the stomach is properly nourished and equipped to carry on its work and perform its duties. He could not possibly be in proper working condition by starving himself or employing some new fangled, insufficient food that does not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed and this applies to the brain as well as the body.

Mr. R. R. Gagey, M.P.P. of Manitoulin, spoke for an hour and a half, nearly all his speech having reference to Ontario politics. He gave a full account of the Gagey scandal from the time of his election up to the close of the commission.

THE OLD RELIABLE

WE NEED NOT WORRY.

Mr. Bryan's Soothing Advice to Canadians.

London, Nov. 24.—Mr. W. J. Bryan, speaking at the banquet of the National Liberal Club last night, said that from the experience of the United States protection was wrong. Retaliation implied fear. It reminded him of the man who drank whiskey to prevent snake bites, and soon had snakes inside him instead of on the outside. The speech was received with frantic applause.

Mr. Bryan was asked by a Canadian Associated Press representative regarding rumors of coming trouble over Hudson Bay. He replied: "Canadians need not worry; arbitration settles everything."

Sir Edward Gray, speaking at Salisbury yesterday, said that Premier Balfour was playing the dummy, face downwards, and Mr. Chamberlain knew all that was in that hand. Premier Balfour had retaliation on his lips, protection in his thoughts and food taxes up his sleeve.

The Isle of Wight, King's Lynn and Croydon Unionists have revolted against the Free Traders. C. Crisp, a resident of Croydon, Mr. Ritchie's constituency, and noted for the splendid fight he made with Mr. Churchill in the Conservative cause at Oldham, will oppose Mr. Ritchie at the next elections.

Sir Gilbert Parker, speaking at Oldham yesterday, said Britain had trained the world to manufacture, and the apprentice was now taking possession of the master's business. For our trade troubles we offered technical education, but it was of no use to give rifles to men without shots.

C. P. R. ENGINEERS' PAY.

A Satisfactory Settlement Reached at Montreal.

Montreal, Nov. 24.—It is announced by General Manager McNicoll of the C.P.R. that a satisfactory basis of agreement has been reached in connection with the negotiations which have been going on for some time between the management and the engineers and firemen of the road, relative to wages and other considerations. The negotiations looking to a new schedule more advantageous to the engineers and firemen were opened by the western employees, but the matter finally widened out to include all the company's employees of that class.

MRS. GOLD COMPROMISES.

Lady Who Borrowed Lavishly Repays 50 Per cent.

Whitby, Nov. 24.—Mrs. Matthew Gold, the lady who, while believed to be rich and being herself under the hallucination that she was wealthy, borrowed some \$10,000 from her neighbors, will pay fifty cents on the dollar. Although no new creditors on Mrs. Gold's estate have appeared, the value of the assets have decreased considerably from the first estimate, and her entire property has been found to be worth less than \$20,000. To effect the settlement with the various holders of claims against the lady, her husband, Rev. Matthew Gold, and her son, William Gold, a young married man of some means, who lives in town, are both making sacrifices, and will between them raise some \$6,000 to satisfy the claims.

Forsythe, members of the partnership, the Pakenham Pork Packing Co., which sold out to the joint stock company of the same name, and against the Standard Bank. The plaintiff claims that the sale to the company was to be free from incumbrances, but that later an agreement was made by the directors, without authority from the shareholders, whereby the company assumed all the liabilities of the old partnership, including \$30,000 due the Standard Bank, and other liabilities of the defendants, amounting in all to over \$53,000.
