

Horses Represent To-day

A larger capital outlay (per head) than ever before. Can you afford to let any one of your horses lay up in the winter months for the want of proper clothing? Our business is to make horse clothing and to use proper attachments to keep the clothing on. The BIAS attachment (study the illustration) has proven in every test a financial success for the horse-owner. The crossing of the girths under the animal's body permit you to fasten the attachment so as to give the same tension on each girth and not irritate the animal, which also gives extra life to the blanket, causing an even strain on both the front and back. This attachment can be had on all the better grades of horse-blankets and at the best dealers. Write us, and we will tell you who handles, and will be pleased to show you this attachment.

Whipple Humane Horse Collars

Will permit you to get more work from the horses you use than is possible from any other way. They are so constructed as to apply the greatest amount of pulling space on the animal, and yet leave all that part of the shoulder free from strain that was never intended for strain (study the illustration), and you will notice an ill-fitting collar will draw on the top and the bottom of the scapula bone. Nature intended the draft to come between these two trouble points. Whipple Humane Horse Collars work where nature intended the draft to work. See your best saddlery dealer, if he has not got them, write us, and we will tell you who will supply you.

Peerless Fences cost the least per year of service

THE longer a fence lasts the less it costs you. That is why Peerless Fence is the cheapest you can buy. It is made right in the first place. Heavy steel wire, well galvanized so that it cannot rust. Each intersection is held firmly together by the Peerless lock. Peerless Poultry Fencing is made to give long and satisfactory service. It is strong enough to keep the cattle out and close enough to keep the chickens in. It requires few posts, because it stands stiff and taut. Peerless Lawn Fence will add to the appearance of any property. It is attractive and strong—will last for years.

I have compared some of your Peerless Fencing that I put up the first year with other fences put up the same year and I find that Peerless Fencing shows no sign of rust, and the galvanizing looks as good as when erected, and I think you have been successful in turning out a good fence.
—Mack Lull, Glenburnie.

Comparing your fence with other makes it is not hard to tell which is the best. There is no sign of rust on the first Peerless Fence I put up here, and there are some other makes that were put up about the same time that are rusted in spots now. Where I have sold fencing once I can buy it and sell it again.
—G. A. Penrice, Oxford Mills.

We manufacture a full line of farm and ornamental fencing and gates.

Save One Dollar, Lose Two

Isn't that just about the size of it—when something shoddy and cheap is foisted on you in place of the

DE LAVAL CREAM SEPARATOR

You see, the early disability of the shoddy thing, and poor performance while it does hang together, makes it a losing proposition no matter how cheap.

GOES OVER THE ROUGHEST ROADS WITHOUT LIGHTENING THE LOAD

Equip your wagons with T-K Wide-tire Steel Wheels, and eliminate all annoyances and trouble incident to travelling over bad roads. You can load and unload in half the time required with wagons fitted with wooden wheels, and no matter how rough the road, or how heavy the load, these wheels will stand the strain that would put others out of business in no time.
