Compact-Type Bridging Telephone.

The Most Up-to-date Switchboard Made.

Telephones and Switchboards

In almost every advertisement of ours on this front cover page we emphasize the "quality" of our telephones and equipment. Our reason for talking "quality" so persistently is because "quality" is our strongest talking point. It was on the foundation stone of "high-quality" that this business was built—a business that has grown to be the largest independent telephone industry in the Dominion. We've not the space here to go into particulars about the "quality" of our guaranteed products, but if you'll send for Bulletins Nos. 3 and 4, you'll get the whole story.

Now Is the Time to Organize

This is the season of the year in which rural telephone systems are organized, and plans all made ready to start building operations in the spring. If your community contemplates building a line, now is the time to get information from us. We have assisted the majority of independent local and municipal systems in Ontario to get started under conditions that insured success. Our experience is worth money to any new company entering the field. Write and let us know your local conditions, and we will tell you how we can best be of service to you.
