

PUTTING THE CART BEFORE THE HORSE.

STRETCHING wire fence after it is woven is like "Putting the cart before the horse." The best fences are stretched first, each strand separately, and woven after. They fit the ground like a glove and have no slack strands — every wire does its duty.

Our modern LONDON FENCE MACHINE in the hands of the average farmer will complete 40 to 60 rods per day easily. Anyone can operate it.

It's as simple as "running a wheelbarrow." Ask your hardware dealer for them and for London Coiled Spring Wire, or write us for catalogue.
