Board of Health Wants to Know Where Hospital Bedding is Gone.

The regular meeting of the Board of health will be held to-night at the City Hall. Among other matters that will be discussed will be the recent robberies at the Isolation Hospital in Mt. Hope cemetery by which a quantity of bedding and kitchen utensils have been lost. These robberies are not only bad enough in themselves so much as they are a breaking of the law, but what is even more serious for the citizens is the fact that the disease may be spread throughout the city by the carrying away of the bed clothing on which patients have slept. It is a very serious matter and Whose appointment to the Street

drowned in the River Don.

# BRANTFORD'S OWNERSHIP OF THE

Ex-Mayor Hartman, W. R. Turnbull and A. K. Bunnell Will Most Likely be Commissinn to Have Charge of Important Public Utility Ownership--Council Meets Tomorrow to Settle Things.

To-morrow night a special meeting of the City Council will be held for the appointment of a Street Railway Commission to handle not only the Brantford Street Railway, but the Grand Valley Railway. The railway committee met yesterday afternoon, and it is understood an agreement was reached on the personnel of the new commission. The Courier was informed to-day that the commission will consist of four members, including ex-Mayor Hartman, A. K. Bunnell, Walter R. Turnbull and the Mayor ex-officio member. The committee decided that as the whole matter should be gone into thoroughly, a special meeting of the Council should be called forthwith to take the matter up. Accordingly Wednesday night was set. Another reason for facilitating the appointment of the commission was the fact that the city will take possession of the road in about ten days. City Solicitor Henderson for some time past has been busily engaged examining titles of the right-of-way, and these are under stood to be satisfactory, thus leaving nothing in the way for the completion of the deal. As regards the Some Lack of Rain, But Optimistic appointment of a manager, which will be within the scope of the newly-appointed commission, it is not thought likely that any drastic changes will be made in the present operation of the road. As a matter Note is Sounded—West Will Un- of fact, it is felt that the present management, considering the lack of cars and equipment, is doing about all that could be expected. With the purchase of additional cars doubtless there will be a marked im doubtedly Produce a Record Break provement in the service. This will also be business for the commission, but it is understood it will not be rushed into recklessly. The railway committee, in picking out ex-Mayor Hartman, Mr. Turnbull and Mr. Bunnell as commissioners, were actuated solely in securing efficient men, who could render and Mr. Bunnell as commissioners, were actuated sololy and Mr. Bunnell as the city's interests. The ex-Mayor is known as good service to the public, and at the same time protect the city's interests. The ex-Mayor is known as business and the aldermen will business and irie Povinces queried as to the neces- considering the weather which the appointment of the commission as named.

Public ownership and operation of the street railway will be watched with considerable interest in this city. It is understood that the street railway, all things considered, has made a fine showing financially this year. When the city secures possession one change will be planned at once—that is, the facts of the case there were only from Cataract to Hydro power. This was one of the terms of the agreement reached in court, and the street railway will become a pretty big customer of city power, which will indirectly be of advantage to another important public utility.

Twenty-two points reporting rain
A number of points state that while badly needed will undoubtedly suffer sion. It is understood that the commissioners will not be paid a salary, although the usual honorarium no definite damage has occurred, the a considerable reduction in yield but may be attached to the office. The commission, however, will have complete control, and the operation absence of rain has lessened the the general outlook is still for a crop of the street railway will thus be entirely removed from the City Council, except that the Mayor will be the same ground.
