TONIC TREATMENT FOR THE STOMACH

The Modern Method is Most Successful in Treating Indigestion.

The old-fashioned methods of treating stomach troubles are being discarded. The trouble was that when the treatment was stopped the trouble returned in an aggravated form. The modern method of curing indigestion and other stomach troubles is to tone up the stomach to do nature's work. Every step towards recovery is a step gained, not to be lost again. The recovery of the appetite, the disappearance of pain, the absence of gas, are all steps on the road to health that those who have tried the tonic treatment remember distinctly. Dr. Williams Pink Pills are a blood-builder, tonic medicine every constituent of which is helpful in building up the digestive organs, and is therefore the very best remedy for chronic cases of stomach trouble. Thousands of cases like the following prove how successful this treatment is: Miss Amy Browning, Cornith, Ont., says: "I have found such great benefit from Dr. Williams Pink Pills that I would be ungrateful if I did not publicly say a good word in their favor. I was badly run down and my stomach was in a very bad condition. All food distressed me, and left me disinclined to eat. I suffered from nausea and dizziness and frequent sick headaches, and this was further aggravated by pains in the back and sides. I was in this condition for several years, and although I had got medicine from several doctors it did not help me. Then I heard of Dr. Williams' Pink Pills and began taking them. I am glad to say that they soon helped me, and now I am as well as ever; can eat all kinds of food, with relish, and have not an ache or pain."

You can get these Pills through any dealer in medicine or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

REMITTANCES TO BRITISH PRISONERS OF WAR IN TURKEY.

The following information is communicated to the Press of Canada to publish for the benefit of the people of the Dominion who have friends or other interests in the Ottoman Empire.

ERNEST J. CHAMBERS,
Chief Press Censor for Canada.
Ottawa, Jan. 28, '16.

The Canadian Government has received notice from London that the Secretary of State for Foreign Affairs has been informed by the United States Ambassador, that the Turkish Government desire that in future remittances of money not exceeding five pounds from private persons for British Prisoners of War in Turkey should be despatched to the International Red Cross Committee at Geneva for transmission to the Ottoman Red Crescent Society at Constantinople by whom payment to the recipients will be effected and a receipt returned to the International Committee at Geneva.

Letters and parcels should also be sent to the International Red Cross Committee at Geneva for transmission. Such letters and parcels are post free. Money should be remitted by International Money Order which can be obtained at any Post Office and which should be made payable to the International Red Cross Committee at Geneva and sent on with full name, number and Regiment of the Prisoner of War to whom the money is to be paid.

Information has also been received from the United States Ambassador that prisoners of war in Turkey are now allowed to write only one letter a week limited to four lines and that this regulation applies also to letters addressed to them. Letters of greater length will not be delivered.

THE VALUE OF THE RED CROSS.

It is as difficult to estimate the true value of the Red Cross as it is to appraise the value to any community of public hygiene and sanitation. Still we know the terrible ravages of plagues and diseases in times past and no one is disposed to deny the cost of public hygiene returns a valuable profit in disease immunity.

Similarly the value of the Red Cross consists fully as much in the suffering it prevents as in the misery it actually alleviates.

The terrible sufferings of Serbia in the first year of the war illustrated the value of an efficient Red Cross. Serbia triumphantly resisted the first Australian invasion, but decimated by disease coupled with lack of Red Cross supplies, fell an easy prey to the next invasion.

If the soldier remains days after his wound without medical attention, his chances of recovery are slight. The aim of the Red Cross is to get the wounded into its hospitals as soon as possible, but to do this it requires an elaborate and expensive organization as near the front as possible.

The real proof therefore that the Red Cross is doing its duty is to be found, not in terrible conditions of suffering, but in a perfectly functioning system of relief work which reduces suffering to a minimum. It is the comfort, not the agony of the wounded which is the test of Red Cross value.

Dr. Herbert Bruce the well-known Toronto surgeon who has been on active service in France, has stated that our Canadian Red Cross is famous beyond all other Red Cross Societies for its sympathetic treatment of its patients. So that even the English and French wounded express a wish to be taken to a Canadian hospital.

This kind of Red Cross service for which Canada has won an enviable reputation, is only possible with perfect equipment and with continued generous contributions from the Canadian public.

BANK OF NOVA SCOTIA FOURTH LARGEST IN CANADA.

The 84th annual report of the Bank of Nova Scotia, shows that this institution's reputation for exceptional strength has been fully maintained during the past year. Its total assets are now well over \$100,000,000, making it in point of size the fourth largest bank in Canada. The outstanding feature of the report however is the large amount of cash which alone would be sufficient to liquidate 20 per cent of the liabilities to the public, and there is a corresponding large amount of other immediately available assets. These facts considered in conjunction with the large reserve fund of \$12,000,000 as compared with the capital of \$6,500,000 indicate the Bank of Nova Scotia is in an exceedingly strong position from the standpoint of depositor and shareholder alike.

ACADIA COLLEGE REUNION

This year the classes with years ending in 1 and 6 have reunions. This begins with '61 and ends with '11, taking in the classes of 1861, 1866, 1871, 1876, 1881, 1886, 1891, 1896, 1901, 1906, 1911. Among these is the class which for twenty-one years held the record for size and has only been surpassed by the class of 1912. Size, however, is not everything—the cup is given to the class having the largest proportion of members present, so '91 will need to have a large number present in order to win. Now is not a day too early to begin to organize for your reunions. Commencement day is May 31st.—Acadia Bulletin.

Minard's Liniment Cures Garget in Cows.

Regulate Kidneys AND Relieve Constipation

Gin Pills are acknowledged to have the largest sale of any proprietary medicine in Canada—an achievement solely due to their remarkable virtue as a Kidney and Bladder remedy.

But users of Gin Pills have discovered that this invaluable remedy also acts as a mild cathartic. The evidence of hundreds of letters we have received establishes the very logical fact that in compounding a medicine to heal and tone up the Kidneys and Bladder certain of the ingredients have a stimulating effect upon the other organs, especially the bowels.

It is important to know, in the case of constipated patients, that Gin Pills do not act harshly on the bowels; there is no griping, but a gradual and gentle restoration of the function. Try Gin Pills for constipation. In their relieving the bowels, you safeguard yourself against possible Kidney trouble.

Gin Pills are 50c. a box, or 8 boxes for \$2.50 at your dealer's. A trial treatment will be sent upon request, to

National Drug & Chemical Co. of Canada, Limited, Toronto.

MISSIONARIES RANSOM GIRLS FROM THE TURKS

New York, Feb. 14—The American Committee for Armenian and Syrian relief is now engaged in the work of ransoming captured girls and women from the hands of Turks and Kurds, according to a statement issued here by the committee.

The Turkish officers, the statement says, will for so much money can be found. Further payments will cause the captors to bring them to an appointed place.

"And then," continues the statement, "it is a matter of how much money will be paid for their release. All this work is being done by American missionaries in Persia as well as in the Urumian section and elsewhere."

The missionaries report, the committee says, that the cost of reclaiming these girls varies from \$20 to \$50. It concludes its statement with an appeal for contributions to pay for further ransomings.
