MARKING TIME

The letter printed on another page from Mr. John L. Scofield of Arizona is worth reading. We cannot agree with it in toto; nevertheless there is more truth than poetry in it. We are glad that the Advocate's editorial "Let us Awake," furnished Mr. Scofield with necessary inspiration for his pungent observations and we are sorry that more of our readers have not taken that editorial to heart. We have a country! What are we going to do with it! There is every indication that we will let it and our selves drift along in the same old rut and that our descendants will be compelled to undo the work that we have done or do the work we have not done. In other words it appears to us now that to future generations will be left the task of upbuilding our country and giving it the stamina which Ontario and the West now boast of. We have in our midst bright, energetic young men, some of whom- as others have donewill migrate to other countries and make names and fortunes for them selves. Seemingly they cannot do so here. Is it, as Mr. Scofield says, entertain doubts concerning the quality of the fault of iniquitous legislation or the Scott Act brand. Nevertheless the is it because we dwell in an atmosphere of indifference and apathy knows, the fault may be remedied, license ac even in this generation.

The end of Nan Patterson's trial, the end of the prospective combat between the Russian and Japanese fleets and the end of the Carnejie millions are all anxiously awaited by a long suffering public.

30 THE CASE OF MR. BIGELOW

That glittering generality-the more a man gets "the more he wants" is clearly emphasized in the caree of Frank G. Bigelow, the Milwaukee Chabank defau ter. Mr. Bigelow enjoyed the comfortable income of \$100,000 a h was back in the face with choking, year, or more, yet he wasn't satisfied with the Lie is difficult to conceive the content of with it. It is difficult to conceive Tronto, O. t how a man in such affluent and envible circumstances could permit him self to sink to the level of a common or 'uncommon' thief. 2. BCARD OF HEALTH'S WORK

Chairman Maltby of the Board o Health should receive the support of all right throking citizens in his eff orts to prevent the smallpox contag ion from baving the environs of Chatham. Chairman Malthy's offorts are well directed and have so far been productive of good results. We are confide it that the fair minded people of Chatham are also heart and sonl with the Colonel in this matter at ! that the contemptuous slanders of a moribuni newspaper are regarded in Chatham with the same disrespect that they are here.

SCOTT'S Emulsion

When you go to a drug store end ask for Scott's Emulsion you know what you want; the man knows you ought to have it. Don't be surprised, though, if you are offered something else. Wines, cordials, extracts, etc., of cod liver oil are plentiful but don't imagine you are getting cod liver oil when you take them. Every year for thirty years we've been increasing the sales of Scott's Emulsion. Why? Because it has always been better than any substitute for it.
